**A Note about the Use of Statistical Data**

Although employment survey data is often used to make career decisions, the employability of today’s college graduate is also influenced by economic conditions and the personal traits and characteristics of the job seeker. Decisions about career choices should be made by the assessment of each candidate’s interests, skills and values. Caution should be used in any interpretation or application of the included statistics. If you are using this report to make career decisions, please consult with the staff in Career Services.
