PROGRAM-LEVEL LEARNING OUTCOMES

Please list the program learning outcomes (PLOs). Space for up to 10 PLOs has been provided below, but this does not imply that 10 outcomes are required. Program faculty should decide the appropriate number based on the design of the curriculum. Adjacent to each PLO, please indicate any institutional learning outcomes (ILOs) that the PLO supports. You may enter the outcome number or text description from the [ILO resource page](#).

CURRICULUM MAP

Please create a map of the PLOs to the curriculum. All required courses should be included in the left-hand column, and all PLOs should span across the remaining columns. The purpose of the curriculum map is to show where each PLO is emphasized within the curriculum. The level at which each PLO is taught within a given course should be indicated as follows: introductory (I); reinforced (R); or mastery (M). When completing the map for a graduate program, indicate that the outcome is met at the undergraduate level with a (U) designation. Each PLO should have at least an instance of I, R, and M across the curriculum. You will notice in the map's example course that some outcomes are left blank. **Please leave blanks where outcomes are not emphasized in courses.**

Introduced (I) indicates that students are introduced to the outcome; Reinforced (R) indicates the outcome is reinforced and students afforded opportunities to practice; Mastery (M) indicates that students have had sufficient practice and can now demonstrate mastery; Undergraduate (U) indicates that the outcome is taught at the undergraduate level.
