SGA EXEC MINUTES
March 27, 2006

Attendance: Teri, Brenda, Nathan, Crystal, Becki, Adam, Trista, Kate

Discussed this morning were the United Council and the campaigns they perform each year right before elections. Brian Tanner will be on campus today and may be going to Senate tonight. Other schools have succeeded in voting for no campaigns, therefore shutting down their means of getting to the students. It is general agreement that we should also vote no campaign.

However, the problem with this is that with the UC out of the picture there is nothing to replace them. There is no similar organization to take their place. If enough schools were to do this however, we could get together with them to form another group.

In order to succeed in informing students about the UC and what they will be voting for before UC gets here, information will be sent out about three weeks prior to elections. This can be in the form of Nathan's article in the 4e, campus life announcements, letters to the editor, etc.

The Board of Regents will be here Thursday and Friday, April 6th and 7th. This will include meetings, a social, a dinner, a program with music students, an academic symposium, tour of res. halls, committee meetings, etc. Don't be afraid to talk with anyone while they are here. They want to know what students really think and would appreciate input. Steve Swan is the chair for this. The Chancellor really wants to promote the growth agenda. The community needs to be behind this in order for it to be successful.

Nathan has a meeting about the police officer tomorrow. They will either need to find an alternative cut or possibly charge an increase in the cost of housing to cover the difference.

Elections will be held April 25th and 26th. The papers should be out today, to be due in two weeks. There will then be two weeks of campaigning, the debate, and then elections. The results will then be confirmed at the following Senate meeting.

We will discuss transitions next week.
