

## Natural and Applied Sciences Heirloom Plant Fund Student Travel and Research Application Instructions

### Travel

Undergraduate students with a major in NAS and graduate students in ES&P with an NAS sponsor can apply for travel money to attend meetings and give presentations at conferences and workshops. While students do not need to present at meetings, preference will be given to those who actively participate by giving talks or posters. Only one conference per student will be funded, where the student is not presenting. Funding is available at the rate shown in the table below to cover hotel, travel costs and registration. Students must submit this application form, a paragraph describing the conference they are attending (and/or conference website URL) and the abstract of their poster or talk. Application forms must be signed by an NAS faculty member. Students are encouraged to apply anytime before the travel date, but applications will be accepted up to 30 days after travel is completed. Applications should be sent to Dr. Vicki Medland, Mary Ann Cofrin Hall, Suite 212. Or e-mail to [medlandv@uwgb.edu](mailto:medlandv@uwgb.edu). Additional application forms are available on the Cofrin Center for Biodiversity website under “Student Resources”.

	<b>Presentation</b>	<b>No presentation</b>
<b>International</b>	300.00	150.00
<b>National</b>	200.00	100.00
<b>Local</b>	100.00	50.00

### Student Research

Undergraduate students with a major in NAS and graduate students in ES&P with an NAS sponsor can apply for funds to cover the costs of supplies and travel up to \$500 related to research projects. Supplies and equipment will be purchased by NAS and will become UWGB property administered by the faculty research sponsor. Note that money will not be available for stipends. Students must submit an application form, a description of their project (see pages max), a detailed budget, and consent form signed by an NAS faculty member who agrees to oversee the research. Application deadlines are November 1, February 1, and May 1. Proposals should be submitted in the planning or early phases of the research project. **No funds will be awarded for past expenses.** The number of grants funded will vary from year to year, but we expect to give out between five and 10 awards averaging \$250. Most grants are expected to be funded for less than \$250, and no grants will exceed \$500. Applications should be sent to Dr. Vicki Medland, Mary Ann Cofrin Hall, Suite 212. Or e-mail to [medlandv@uwgb.edu](mailto:medlandv@uwgb.edu). Additional application forms are available on the Cofrin Center for Biodiversity website under “Student Resources”.

## NAS Heirloom Plant Fund--Student Travel Application Form

Information needed (please type or neatly print the information):

Name
Major
Advisor
Mailing Address:
E-mail
Phone
Conference Name and dates of attendance
Conference URL if available
Description of conference (why you are attending)
Are you presenting a paper?
Abstract title
Abstract
Certification of Research Advisor: (Please have your research advisor sign this line certifying that you are attending the conference, or have him or her send an email to Dr. Medland)

## NAS Heirloom Plant Fund--Student Research Application Form

Information needed (please type or neatly print the information):

Name
Major
Advisor
Mailing Address:
E-mail
Phone
Proposal title
Abstract
Other sources of funding available for this project (Cofrin Grant, Sigma Xi, DNR etc.)
Certification of Research Advisor: (Please have your research advisor sign this line certifying that you are attending the conference, or have him or her send an email to Dr. Medland)

**Remember to attach your proposal description and detailed budget to this application form.**
