43% Part-Time  
65% age 21 and younger  
35% age 22 and older

FACULTY & STAFF  
18 Assistant, Associate and Full  
Professors  
17 Instructional Academic Staff  
31 Support Staff

As the last calendar page of the year turns and we enter 2008, it is a time to reflect on the previous year even as we implement plans for the new one. At UW-Marinette, we have so much to celebrate; I'd like to take the time to thank our campus community, which has made it all possible, and to share the exciting programs we are launching in the new year.

2007 witnessed a tremendous growth in programming, made possible through expanded partnerships, in response to local need. Just last January, we announced our inclusion in the National Shipbuilding Research Project grant, funded by the US Navy. In collaboration with Marinette Marine and 15 other shipyard and design-agent partners, as well as the University of South Alabama, we have been working throughout the year to develop a shipbuilding design curriculum, on schedule for completion in March of 2008. This means beginning in the Fall 2008, we will be offering *Applications of Modern Shipbuilding Design* to students with a high school diploma and AutoCad experience, a course which will prepare them for employment as entry-level designers in the industry.

Also this past year, we developed the engineering bachelor's degree completion program with UW-Platteville, which will be offered beginning this spring, 2008. 48 area employers told us they needed more engineers; in response, we are pleased to bring Platteville's engineering program to our area, via streaming media and a mobile laboratory.

Further, in 2007, we piloted a Dual Enrollment program with Marinette High School, whereby high school students can take university courses on the high school campus at a 50% tuition savings. We are delighted to be expanding this program in Fall 2008 to include Peshtigo High School, which will be offering our Math and English courses to high school students.

We are also grateful to the Board of Regents for granting UW-Marinette a tuition freeze in 2007, keeping us the very best bargain for a UW education! Through Guaranteed Transfer, students can begin their first 2 years of university study with us and seamlessly transfer to the 4-year UW of their choice with Junior status. This path not only saves them money but improves their chances of success, as research continues to show that students who start in the 2-year UWs persist in their baccalaureate educations and graduate at higher rates than students who begin anywhere else in the state!

On campus, our students receive a top-quality university education from some of the best professors in the business. They enjoy personalized instruction (thanks to our faculty) and service (thanks to our staff) in first-rate facilities (thanks to the support of our County Board).

Finally, and most importantly, we are so grateful to our campus community. Your continued support makes it possible for us to expand our programming and access to members of our community. In 2007, your generous gifts to the UW-Marinette Foundation doubled the scholarship dollars available to students and enhanced our cultural arts programming. You have opened your homes (and your hearts) to our 40+ international students each year, and you have generously donated your time and your talents to our theatre program, our music programs, our Continuing Education endeavors, and our Foundation Board.

We can say with pleasure and with pride that we are your university and are honored to serve as the place where you can get, as our motto states, "the best start for the life you want!" Thank you!

Ca Paula T. Langteau

# Community & Campus Partnerships

## Marine Design Program on Target

UW-Marquette and Marquette Marine have partnered to help meet the needs of the shipbuilding industry for shipbuilding designers.

The first phase of the program, curriculum development, is on target for completion in March. Shortly thereafter, the program will be ready for its first students. Shown at the January press conference above are (L-R) Mike Hoard, V.P. of Engineering; Tim Duquaine H.R. Director, both at Marquette Marine; Dean Paula Langteau; Greg Lampe, UW Colleges Provost; and Bob Herre, President, Marquette Marine.

## New Engineering Degree

Following an extensive survey of employers in a six-county area, UW-Marquette has teamed up with UW-Platteville to bring a bachelor's degree in engineering to the campus beginning this spring.

The program is geared to non-traditional age students with work and family commitments who cannot relocate to start or complete a bachelor's degree in engineering.

The engineering degree completion was piloted in the UW Colleges at UW-Fox and UW-Rock, where professors teach face-to-face courses to 175+ engineering students. UW-Marquette will be the first UW Colleges campus to receive Platteville's engineering courses via streaming media over the internet. UW-Platteville will bring a mobile laboratory to campus every 4-5 weeks for face-to-face laboratory instruction for the program.

Platteville offers degrees in electrical, mechanical, industrial, civil, and environmental engineering as well as in engineering software and engineering physics.

## Dual Enrollment Increases Options for High School Students

Students at Marquette and Peshtigo High Schools are now eligible to earn college credit through dual enrollment programs.

Students in physical education, math and English classes are taught at the high schools by high school instructors approved by UW Colleges using UW-Marquette curricula for those courses.

While students must pay for the tuition costs of the courses, the cost is half for the same course at UW-Marquette because the salary of the instructor is paid by the high schools, according to the agreement.

"This year, we are also promoting a campaign through our Foundation, whereby donors are encouraged to give an amount equivalent to half the tuition cost of a three-credit course, so that opportunities to earn college credit may be expanded to all high school students at Marquette and Peshtigo who want to participate in the dual enrollment program," said Dean Langteau.

## Fine Arts Series a Collaboration with UW-Madison Arts Outreach

Two concerts remain in the fine arts series which began in 2007 with a performance by the Wisconsin Brass Quintet in October.

Made possible through a grant from the James Martell Family, the UW-Marquette Music Department and UW-Madison Arts Outreach were able to collaborate to bring three outstanding ensembles to campus.

The Wingra Woodwind Quintet will perform Tuesday, January 29 and the Pro Arte Quartet will perform Sunday, April 6. Both concerts are scheduled for 7:30 pm in the Herbert L. Williams Theatre. Tickets are \$5 for the general public and \$2 for seniors and students. Tickets can be purchased at the Main Reception office before the events weekdays 8 am to 5 pm or at the door 1 hour before curtain. Call 715-735-4313 for reservations.

## Continuing Education/International Program Collaborations

Continuing Education offered 107 programs this year with 2144 participants through partnerships with local businesses and schools. This year the Children's Theatre gave 336 children the opportunity to be in live theatre productions: *Free to Be You and Me*, *You're a Good Man Charlie Brown*, and *Seussical the Musical*.

International student numbers were also up this year as 49 young men and women from 17 countries enrolled for the English as a Second Language program or for academic classes.

Wingra Woodwind Quintet  
January 29, 2008

Pro Arte Quartet  
April 6, 2008

## COLLABORATIVE DEGREES

### UW-Green Bay

- Interdisciplinary Studies
- Nursing Completion

### UW-Milwaukee:

- Organizational Administration
- Communication
- Information Resources

### UW-Oshkosh

- Nursing Completion
- Organizational Administration

### UW-Platteville

- Business Administration
- Engineering

### UW-Stevens Point

- General Studies

### UW-Superior

- Elementary Education
- Individualized Major

### UW-Whitewater

- Business

# Student Success

Photography major Kayla Bauer of Peshtigo had her photos published in the "Best of College Photography," by Nikon. This was Bauer's first participation in the annual college photography competition.

Athletic Director George Hayes presents LaRae Kostreva with awards for volleyball and basketball.

"Personally, my daughters have experienced many valuable and enjoyable moments at UW. They have been blessed with many successes on the volleyball and basketball courts. They've also had the pleasures of having such wonderful professors to have guided them in the classroom. As a parent, I appreciate your support in both of those arenas!! As I've said before, our communities are very lucky to have UW Marinette, which I do believe, gives our children a great start on life!"

Lynn Kostreva

## UW-Marinette Math Students Score

Taylor Powers (L-R), Keith Anderson and Chad Lemery are shown with the t-shirts they had made to show their appreciation for their calculus professor, Mahmoud Almanassra (third from left). The shirts say "If Mo can do it, I can do it," paraphrasing Almanassra's class mantra. The three also participated in the American Mathematics Association of Two Year Colleges (AMATYC) Mathematics League Competition this year. "In the Midwest UW-Marinette's team was ranked number 4 out of 32 participating colleges," said team advisor Prof. Mike Bartlett.

## Students Present at National Conference

Learning Community students Sara Bertagnoli and Corey Kaempf presented with Drs. Jane Oitzinger and Dan Kallgren on "Student Teaching Teams at the Center," for the 12th National Learning Communities Conference in Indianapolis in November.

Oitzinger said the students "gave an excellent team presentation on student teaching teams – based on their experiences (in two learning communities each) and on observing, videotaping, and interviewing other students in the Fall learning community, 'Imagining a Better World.'" This presentation was specifically mentioned in the conference's closing keynote address. Our students' participation in this conference led the Student Senate to decide to encourage and partially fund future faculty-student collaborations at regional and national conferences."

## Academic Awards

Academic Awards were presented to Kirstie Kamin and Glenn Trybom for Art; Angela Larsen for Biological Sciences; Robert Nichols for Business; Richard Berlin and Suzanne Christiansen for Communication and Theatre Arts; Scott Larsh for Economics; Alex Stevens for English and History; Danielle Sabelman for Geography; William Blomberg for Journalism; Joshua St. Juliana for Mathematics; Kasi Angell for the AMATYC Math League Competition; Broc Goldschmidt and Valerie Hallfrisch for Physics; and Ruth Babcock for Psychology.

## Athletic Teams Shine

All three athletic teams earned Region II titles and competed at state level in 2007.

WJCAA Player of the Year, LaRae Kostreva, was named to the WJCAA 1st Team All-State in Volleyball, and the WJCAA All-Tournament team in basketball. She was also named MVP in both sports. Tara Johnson was named to the WCC 1st Team All-Conference in volleyball, and Jill Roehm earned the Most Improved Player award. Bethany Buehrly was named Most Improved Player in Basketball.

Kareem Jackson was named to the WJCAA All-Tournament Team and the WCC All-Conference 1st Team. Nathan Staidl earned WJCAA All-Tournament Team and WCC All-Conference Second Team honors as well as the Most Valuable Player award. Nickolas Nielsen received WCC All-Conference Honorable Mention, and Thomas Byers was named Most Improved Player.

# Student Success

Cheerleaders in a scene from "Preacher Rose"

## Crew Club Helps Others

The Crew Club, a service club that involves students in projects such as helping older or disabled residents move or do yard work, sponsored a rummage/bake sale to help fellow student member Jay Nelson with medical bills following a motorcycle crash. The effort raised nearly \$1500 including matching funds from Trivant Financial. The Crew Club co-advisors are Scott Ward and Mary LaCasse.

## Student Publishes Book

Student Darwin Adams published his book *Escaping from Quantrill's Trap* in December, 2007. The story is based on the experiences of his great-grandfather, John Adams, an Oneida soldier, who survived the 1863 Baxter Springs Massacre, which took place during the Civil War.

John Adams was from Bagley, Wisconsin, and fought with the 3rd Wisconsin Cavalry. The story tells how he had to conceal his heritage to join the unit and how he survived not one, but two massacres.

The 274-page hardcover book was published locally and illustrated by Glenn Trybom, a student from UW-Marquette who also contributed original illustrations to *The Da Vinci Diaries* published by UW-Marquette art professor James LaMalfa this year.

## Students Excel in Theatre

Opportunities for students to participate in theatrical productions were abundant this year at UW-Marquette. Theatre on the Bay opened the year with Dr. Doug Larche's *Number the Stars*, a play about Danish resistance in World War II, with Suzanne Christiansen, an international student from Denmark, taking a lead role.

The Bards on the Bay Playwrights Festival in April featured many student actors as well as two student playwrights, Tristan Schuh and Jenna Cornell.

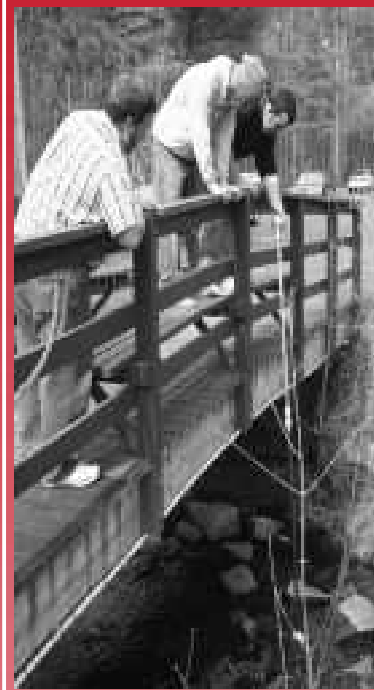

TOB's summer musical *Pippin* and comedy, *Don't Dress for Dinner* featured student Ricky Berlin in lead roles for both productions.

In the fall *Preacher Rose*, also by Dr. Doug Larche, featured a large cast of students with Tim DeMeuse and Colleen Johnston with major roles.

Freshman Ryan Dusso had a major role in the Children's Theatre production of *Seussical the Musical*.

Dr. Doug Larche (center) with Communication and Theatre Arts award recipients Ricky Berlin and Suzanne Christiansen at the Spring Awards Ceremony.

Dr. Keith West's (shown with students above left) proposal to teach a 3-week summer GEO 130 course with a lab has been approved for 2008. The focus of this course will be bay shore ecology as the weather should allow the class to perform experiments on the bay shore and adjoining streams that are difficult to do during the regular academic year.

Student Valerie Hallfrish is shown with physics professor Dr. Paul Erdman following her presentation at the Undergraduate Research and Performance Conference in April. Hallfrish demonstrated how to electronically measure the frequency of standing waves using the wave machine. Hallfrish plans to pursue a career in physics education.

# Faculty & Staff Success

Mahmoud Almanassra, Ph.D.  
Assistant Professor, Mathematics

Michael Bartlett, M.M.  
Associate Professor, Mathematics

Albert Bugaj, Ph.D.  
Professor, Psychology

Zac Britton, B.A.  
Associate Lecturer, Journalism

John Christopherson, M.S.  
Associate Lecturer, Biological Sciences

Sue Craver, M.B.A.  
Lecturer, Computer Science

Janet Dehn, Ph.D.  
Senior Lecturer, Psychology

Tom Draz, M.S.  
Lecturer, Computer Science

Mike Erdman, Ph.D.  
Lecturer, Biological Sciences

Paul Erdman, Ph.D.  
Associate Professor, Astronomy/Physics

Jennifer Flatt, Ph.D.  
Associate Professor, English

David Giebler, M.M.  
Associate Professor, Music

Steve Golz, M.B.A.  
Lecturer, Accounting

Larissa Hogan, M.S.  
Lecturer, Biological Sciences

Katherine Holman, M.A.  
Associate Professor, English

Wendel Johnson, Ph.D.  
Professor, Biological Sciences

Daniel Kallgren, Ph.D.  
Associate Professor, History

Cheryl Kalney, Ph.D.  
Senior Lecturer, History

Mark Klemp, Ph.D.  
Assistant Professor, Chemistry

Dorothy Kowalski, M.S.  
Professor, Physical Education

James LaMalfa, M.F.A.  
Associate Professor, Art

Paula Langteau, M.A.  
Assistant Professor, English

Douglas Larche, Ph.D.  
Professor, Communication  
& Theatre Arts

Susan Larche, B.A.  
UW Extension Lecturer, ESL

James Morrison, J.D.  
Lecturer, Political Science

Dail Murray, Ph.D.  
Associate Professor,  
Anthropology/Sociology

**Cynthia Bailey** was named Academic Staff of the Year for the 9th time in her career at UW-Marquette.

**Mike Bartlett** organized the UW-Marquette team for the American Mathematics Association of Two Year Colleges Mathematics League Competition. He also presented a Community Forum on "Math Anxiety" in December.

**Albert Bugaj** published two reviews in the *Seventeenth Mental Measurements Yearbook*.

**Randy Crozier** was named Support Staff of the Year.

**Gabriella Sheldon** had two submissions published in UW-Marquette's Northern Lights Arts Journal. She taught English in China. She also presented a Community Forum on her trip to China. She will teach English at an orphanage in Russia during the Winterim 2007-08.

**Paul Erdman** published four articles in *Northwoods Journal* Vol. 5: "Astronomy-It's All in the Latitude" in June; "Where Are the Planets This Summer?" in July; "Meteors and the Moon in August" in August; and "Where Are the Northern Lights?" in September.

**Jennifer Flatt** published "Reflections on the First Years of My Career at a Two-Year Institution" in the *Association of Departments of Foreign Languages Bulletin* 38.3 (2007).

**David Giebler** was named Professor of the Year. He directed three West Shore Chorale concerts in April and December and performed with string players from Marinette at the Madeleine Island Summer Chamber Music Camp.

**Steve Golz** was named Instructional Academic Staff of the Year.

**Katherine Holman** retired in May following a 17-year career teaching English classes, developing innovative

learning communities, advising the Writers' club, organizing poetry readings, and, with husband Art, supporting the campus in countless ways. In December she led a Great Books Dinner & Discussion session on Truman Capote's novel *Breakfast at Tiffany's*.

**Wendel Johnson** presented a Community Forum on Amtrak and organized with Dr. West, a National Public Lands Day Celebration and work event at Gov. Thompson State Park, a Darwin Day presentation, and public lectures on Lyme disease and genetics. He also played a knowledgeable John Scopes in a campus reading of *Inherit the Wind*.

**Daniel Kallgren** presented "Student Teaching Teams at the Center" with Jane Oitzinger and two students, Corey Kaempf and Sara Bertognoli, at the Twelfth Annual National Learning Communities Conference, November 7-9, Indianapolis, Indiana. He is also Quiz Master for the area *Hi-Q High School Quiz* program.

**Mark Klemp** hosted a talk from the Northeast Wisconsin Section of the American Chemical Society. Dr. Henry Bungay from Rensselaer Polytechnic Institute presented "Bioenergy without Hype."

**Dorothy Kowalski** was reelected as the secretary of Marinette's Board of Recreation Programming.

**James LaMalfa's** historical novel, *The Da Vinci Diaries*, illustrated by himself and student Glenn Trybom, was published this year. He exhibited his work at the West Bend Gallery of Wisconsin Art, the CAST drawing show, the UW Colleges faculty exhibit at UW Stout, and the Old Church Gallery in Cedar River, Michigan. He also coaches soccer for UW-Marquette.

**Paula Langteau's** book, *Miller and Middle America: Essays on Arthur Miller and the American Experience* was published by University Press of America in March. The book also contains her essay "Arthur Miller's *Clara*: An Interrogation of Middle American Political Correctness." She gave a Community Forum on Miller

# Faculty & Staff Success

in February and spoke at the Madison Repertory Theatre on Miller in October. She serves on the boards of directors of Wisconsin Women in Higher Education Leadership (WWHEL) and the Marinette Kiwanis. In November, she began serving on the M&M YMCA Endowment Committee. In April she performed in the fundraising production of *Kiwanis Kapers*.

**Doug Larche** wrote the lyrics to and performed UW-Marquette's new commencement hymn, *Our Haven on the Bay*. His plays were given 29 additional productions in venues across the U.S. He directed *Number the Stars*, *Pippin*, *Don't Dress for Dinner* and *Preacher Rose* for TOB. Three of his plays were featured in the Bards on the Bay Festival which he directed in April.

**Beth Mikle** received the Support Staff of the Year award for the third time in her career at UW-Marquette.

**Dail Murray** spoke at the Association of American University Women meeting on the Amish school shooting. She submitted "Slandorous Rumors and Cultural Boundaries: Tales of the Amish as Told by their Neighbors" to *Western Folklore*, a scholarly peer-reviewed journal.

**Jane Oitzinger** presented "Student Teaching Teams at the Center" with Dan Kallgren and two students, Corey Kaempf and Sara Bertognoli, at the Twelfth Annual National Learning Communities Conference, November 7-9, Indianapolis, Indiana. She also arranged a workshop on *Academic Freedom*, a readers' play by Marnie Dresser (Richland), Oct 23; and a Poetry Reading by J.D. Whitney (Marathon), Oct 31. She was also a Great Books Dinner & Discussion leader on Lisa See's novel *Snowflounder and the Secret Fan*.

**Tina Oman** wrote three UW System Institute for Race and Ethnicity grants for the exhibit entitled "All of Us are Related: Each of U is Unique," for a performance by Preacher Moss, and for a reading seminar on Afghanistan. She also wrote a two-year grant for a

Precollege Program from the Department of Public Instruction.

**Amy Reddinger** received her doctorate in English from the University of Washington in August. Her essay "Just Enough for the City Limitations of Space in Baldwin's Another Country" has been accepted for publication at *African American Review* and will be published in 2008.

**Tirza Shulman** submitted for publication two papers: "Differences in the Ability to Repair Negative Affect" to *Emotion* and "Composition and Consistency of Desired Affective State: The Role of Personality and Motivation" to the *Journal of Personality and Social Psychology*. She also presented her paper on "Individual Differences in Beliefs About Affect & Cognition" at the annual meeting of the Society for Personality and Social Psychology, January 2007, Memphis, Tennessee.

**Julie Urban** was nominated by her department for the 2006-2007 Chancellor's Excellence in Teaching Award. She participated in a water quality monitoring team on the Menominee River in October. She was also a referee for the manuscript "Wal-Mart and Values: Painting the Town Red?" for *The Journal of Economics*, December 2007.

**Scott Ward** was named Kaplan Fellow for 2007-08.

**Keith West** defended his dissertation, *Eco-Industrial Parks in the United States: Do Practical Examples Exist and Can They Serve as Models for Brownfield Redevelopment?*, before the Department of Geography at UW-Milwaukee and he received his PhD in Geography in May. He has also been involved in the Sierra Club water quality monitoring project in the Menominee River Watershed. In April, he presented a Community Forum on "Highways of Water: Canals and Interstate Commerce."

Adult Students

**Tina Oman**  
Associate Student Services  
Coordinator

## Alumni Success

Mary Johns

**Mary Johns** (1977) who taught COM ARTS 104/Applied Journalism at UW-Marquette for 7 years while working as a staff writer for the *EagleHerald*, left her position in 2007 to become executive director/CEO of the Marinette/ Menominee Area Chamber of Commerce. Johns, who has a chamber and public relations background as well as a UW-Madison degree in journalism, says she uses skills fine-tuned in the classroom on a daily basis. She is now a member of the UW-Marquette Foundation board.

Dan Groleau

**Dan Groleau** (1978) earned his associate's degree from UW-Marquette, his bachelor's degree in Psychology from UW-Madison, an M.S. in Administration from UW-Green Bay, and his Ph.D. in Adult Education from Capella University. He held management positions in the private sector while teaching part-time for Silver Lake College, Lakeland College, and Northeast Wisconsin Technical College before becoming the Director of Human Resources for Nicolet Area Technical College in Rhinelander, WI. He currently facilitates an online HR Management course for UCLA Extension and teaches courses as needed at Nicolet College. "I had a fantastic learning experience at UW-Marquette where it all started for me. I have fond memories of my time at UW-Marquette. The faculty and staff were outstanding," says Dan. While residing in Marinette, Dan was an Emergency Medical Technician with the Emergency Rescue Squad. He also served on the Marinette City Council and as a Deputy Coroner for Marinette County.

James Thull

**James Thull** (1996) transferred to UW-LaCrosse for his B.S. degree, then earned an M.A. in history and a Masters in Library and Information Science from UW-Milwaukee. He is currently a reference librarian/associate professor at Montana State University-Libraries. His most recent publication is "American Indian Religious Freedom Act," in *The Encyclopedia of American Indian History*. Last year he presented a poster session at the International Conference on Digital Libraries in New Delhi, India. In January of 2008, he will speak at the BOBCATSSS (a consortium of European libraries) convention in Zadar, Croatia. "UW-Marquette was the perfect place for me to begin my studies. What I learned from the professors, librarians and support staff at UW-Marquette allowed me to be successful in college and in life."

Faith Nibbs

**Faith Nibbs** (2004) earned her M.A. at Southern Methodist University in Dallas, Texas where she has been studying on a fellowship and research assistantship. She spent last summer on an NSF pre-dissertation travel grant to her field site for preliminary research in Hmong immigration issues in Gammertingen, Germany and Texas. She will spend next summer at Oxford for a four-week Refugee course, and has been invited to teach seminars at the University of Muenster while doing her Ph.D. work in Europe. The University of Kent in Brussels also invited her to be part of an EU-wide think tank on migration issues that affect policy. She will have her ABD in May and will leave for Germany in June where she will spend a year doing her dissertation field work.

Pernille Sorensen

**Pernille Sorensen** (2006), originally came to UW-Marquette as a Youth for Understanding student from Denmark in 2004. She returned to the campus as a regular student to complete her associates degree in 2005 and then transferred to UW-Green Bay where she holds the distinction of being the first student to complete the largest number of credits in the shortest amount of time. She earned her bachelor's degree in Economics Summa cum laude in December of 2007 and plans to begin graduate school in International Macroeconomics and Finance following a trip to Africa.

# Scholarship Recipients

With the lowest tuition of any school in the 26-campus UW System, UW-Marquette also offers scholarships to help with tuition. The good deal that UW-Marquette offers got even better for students this year when 15 new scholarships totaling over \$11,000 were added to the 32 scholarships worth over \$17,000 already offered to UW-Marquette students each year. This represents the largest dollar amount of scholarship money available to students in the history of the campus.

Dean Langteau presented Amanda Spink (Oconto Falls) with the Lee Grugel Memorial Scholarship. This award, which covers half of the annual cost of tuition, is given to only one student among the over 12,000 students on the 13 campuses of the UW Colleges. Spink is the first UW-Marquette student to receive this award. Spink also received the Chamber of Commerce Award for Student Leadership.

Angela Larsen, shown with Dr. Wendel Johnson, professor of biological sciences, received the Chamber of Commerce Award for Academic Excellence. Larsen is a biology major who transferred to UW-Stevens Point in the fall.

# Foundation Report

## Foundation Mission

The UW-Marquette Foundation is a non-profit corporation that promotes UW-Marquette's legacy of learning for our area communities. The Foundation creates opportunities to support students' educational growth, the faculty's continuing development, and our campus' excellence beyond what is provided by public funds.

Chair, Marinette County Board of Supervisors

The year 2007 was such an exciting and productive year on our campus and such a monumental year for the UW-Marquette Foundation. I mean that literally, as the long held goal to erect a physical symbol to acknowledge those in the community who support us, was finally completed! In April the Foundation threw a wonderful party to unveil the Legacy Wall, a beautiful multi-metal and wooden design etched with each of the names of our past and present supporters. It is particularly important that this sculpture grow and change as new gifts are granted and new names are added. It is a true living legacy. Please make a visit to our Theater Arts Building to see the Legacy Wall and attend one of our theater productions, music events or art gallery shows while you are there.

Our Foundation's assets were generously increased by donations and pledges during the Legacy Wall Campaign, resulting in DOUBLE the scholarship dollars available to students!\* What a tremendous show of support from the community for our excellent institution. With these additional funds we were also able to enhance our cultural arts programming and increase the funding for faculty development, one of the primary missions, along with student scholarships, of our Foundation.

This year also brought six new faces to our Board, bringing new vitality and a variety of expertise. We welcome the strengths of Sue Erdman, Mary Johns, Katie Jones, Nancy Kallgren, Jim Martell & Tom Maxwell. On behalf of the entire UW-Marquette Foundation Board of Directors I want to express our gratitude to all of you who continue to support our outstanding university and to our campus professors, staff and administrators whose skill and inspiration serve our students each day.

Carolyn McGuire, President

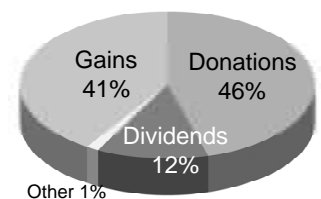

\*to be reflected in next year's financial statement.

## Financial Statement for Year ending June 30, 2007

### Contributions and Income

Donations	\$112,082
Investment Dividends	\$ 30,587
