

Articulation Agreement Proposal for Engineering Technology Associate's Degree programs at Moraine Park Technical College and the BS programs in Mechanical and Electrical Engineering Technology at UW-Green Bay

In accordance with the University of Wisconsin System guidelines for articulation agreements between UW System institutions and WTCS (Wisconsin Technical College System) districts, the following associates programs at MPTC will count for significant block credit transfers into the Mechanical and Electrical Engineering Technology programs at UW-Green Bay. Each will be discussed separately with material required by the AIS 6.2 guidelines for developing program-to-program articulation agreements.

A. MPTC Mechanical Design Technology 10-606-1 Associate's Degree

Rationale for how programs are related: The Associates program in Mechanical Design Technology is a good fit for the fundamentals group of courses in UW-Green Bay's Mechanical Engineering Technology (MET) program. Students completing the associate's degree will meet the desired learning outcomes for the fundamentals course array and some of the supporting courses in UWGB's BS MET degree. Presented below are the curriculum for MPTC's Associate program and the array of courses in the UWGB program that the Associate program will fulfill in a block transfer.

Proposed Articulated Block of Courses

Note that the two lists below, MPTC Associate's degree requirement and block list of classes that the associate's will fulfill, are not equivalent course lists. The MPTC list is the required course list for the associate's degree and the UWGB list is the fundamentals and supporting course block that the MPTC degree will fulfill.
