Safe And Inclusive Living (SAIL) Community Living Agreement  
UW-Green Bay Residence Life  
2015-16  

I, _________________________________, agree to actively participate fully in the Safe and Inclusive Living (SAIL) residential community within Residence Life at the University of Wisconsin – Green Bay. I recognize and understand this community environment has been designed to provide a welcoming and inclusive space for residential students who identify as LGBTQA and their allies. I understand that by signing this Community Living Agreement and participating in the program, I must adhere to the following community living standards:

- I will respect all members of the SAIL community and their guest. I will strive to understand inclusion, diversity and difference, including different forms of sexual and romantic orientations and gender identities.

- I will be aware of, and responsible for, my own language. I will strive to use inclusive language, and be open to embracing new terms.

- I will learn about other’s experiences and preferences in regards to their level of disclosure of personal information, and I will respect their need for privacy.

- I will acquire consent before initiating any physical contact such as hugs, touching a shoulder, or any other physical contact.

- I will attend activities and events which promote the above initiatives whenever possible.

- I will attend the monthly community meetings.

- I understand that if one of my suitemates vacates the unit, the remaining suitemates will be given one week to fill the vacancy. If we do not fill that space within one week, Residence Life will/may fill the space with another student wishing to live in the community.

I understand SAIL is designed to be a safe and inclusive living environment for members of the LGBTQA Community and their allies. As a result, if I am unable to adhere to the spirit of this community, I understand that I can be administratively reassigned to another Residence Life space outside of the SAIL community. The housing contract will remain binding in cases where students are removed from the SAIL community.
