Course Description: This course provides the learner with a flexible approach to language learning by combining individual, computer-based and multimedia learning with face-to-face language practice. This approach is designed for students who want to put Spanish to immediate use in their community or place of work. The central academic goal of this course is to build linguistic proficiency while gaining an appreciation of the cultures of the Spanish-speaking world.

Read the syllabus and complete all the assigned work, practice listening and comprehension skills with the audio materials and submit your written work to the instructor in a timely fashion for feedback. In addition to your individual work, you will participate in three group sessions on the dates listed in this syllabus where you will review grammar points and practice conversational skills.
