Attendance: Mandatory (Don't miss the fun!)

Course Objectives: This survey course is designed to introduce students to the broad field of Psychology. The study of psychology provides us with a unique opportunity to observe, measure, and appreciate the diversity of animal and human behaviors.

Syllabus: The syllabus is a general outline including some of the material we will cover in this course. There will be additional material and, on occasion, some chapter material may be abbreviated or omitted.

Examination Policy: Exams will not be given before the designated test period. Make-up exams will be given only when and if the student provides a valid excuse. Vacation travel plans are not considered valid excuses.

Examination Format: Bring two #2 lead pencils with erasers. Tests usually include 50 multiple-choice questions. Test questions will be drawn from lecture material, the textbook, and the student study guide.

Exam 1 (100 points).....	24%
Exam 2 (100 points).....	24%
Exam 3 (100 points).....	24%
Exam 4 (100 points).....	24%
ERLP (4 points).....	4%
Total	<u>100%</u>

Your letter grade can be determined by adding exam scores & ERLP multiply by 2.5, then divide by 10. Typically the ranges are: 90% and above= A; 85-89.9%= AB; 80-84.9% = B; 75-79.9%= BC; 70-74.9% = C; 65-69.9%= CD; 60-64.9%= D; 59.9% or less= F.

"As required by federal law and UW-Green Bay policy for Individuals with Disabilities, students with a documented disability who need accommodations must contact the Disability Services Office at 465-2841 (Voice/TTY) or 465-2849. Reasonable accommodations can be made unless they alter the essential components of the class. Contact the instructor and Disability Services Coordinator in a timely manner to formulate alternative arrangements."

The **Experiential Research Learning Program (ERLP)** is a program designed to enhance students' understanding of the role and application of scientific research in the fields of Human Development and Psychology.

All research points must be earned by the last day of class, Wednesday, December 10, 2008.

- *Research Points:* Students are required to earn 4 research points. These points can be earned by participating in research studies, attending research presentations, and/or reading and reviewing relevant research articles (1 research point = .25 hours of research experience). All students enrolled in this course are enrolled in the *Experiential Research Learning Program (ERLP) D2L page*. This page will provide you valuable information about the ERLP, including information on logging into the *ERLP Management Website* where opportunities for students to earn points are advertised, where students will sign up to participate in studies and attend presentations, and where students can track the points they have earned. The ERLP D2L page has other useful links and information as well.
- *To earn research points:*
 - Log on to the ERLP D2L page and read more about the program.
 - Create a user account for the ERLP Management Website.
 - Sign up for an activity you are interested in and follow the instructions for participation.
 - Following the activity, you will print your name on a sign-up sheet which the researcher will use to assign points. You can track your points on the ERLP Management Website.
- *Important:*
 - Be sure to read the "Information for Students" document on the ERLP D2L page. This will give you other valuable information about the program.
 - Sign up for research activities as early in the term as possible (so you don't miss the opportunity later).
 - You may only participate in research activities posted on the ERLP management website to receive research points for this class. Other activities will not count.
 - Students who sign up for a research activity but do not attend and do not cancel 24 hours ahead of time (through the ERLP Management Website) will receive a penalty equal to the number of points offered for the activity.
 - You may only participate in the same research study once.
