1. The majority of our meeting time was devoted to the proposal that will be submitted to the University Committee. Several revisions were made and then Illene was given a consensual "go-ahead" to send the proposal over to the Chair of the UC.
2. We discussed the issue of insuring that the Program Assistants who are outside of the academic area are included in administrative discussions of procedures.
3. Our next meeting will focus on how to address issues about the revised course scheduling that are of concern to the arts and sciences programs.

Exhaustedly submitted,

Illene Noppe, Chair
