1. The minutes of March 29, 2005 were approved with corrections.
2. Our discussion primarily centered on the year-end report to be written to the University Committee. We agreed that we will summarize the activities of the CCC over the past year with a focus on the course scheduling proposal as a way to promote common meeting times.
3. Stemming from our discussion of this yet-to-be written report, we also discussed the future of the Campus Climate Committee—whether it needs to be continued, and what role such a future committee should play on climate issues at UW-Green Bay. Campus structural issues that prevent effective change from taking place were identified and considered.
4. The preliminary academic survey results were briefly discussed in conjunction with the campus climate report.
5. We decided to postpone the submission of the year-end report until the CCC has a chance to review it at the next meeting, on April 26, 2005.

Submitted with dogged and deluded optimism,

Illene Noppe, Chair
