#### **Please answer the following questions:**

Campaign Platform – What campus issues do you plan to focus on during your Administration?

Our first goal in Student Government Association is to move the entire organization into a more campus wide and system wide organization. We want to promote cooperation of SGA with other student organizations on campus as well as with other Student Governments throughout the UW system. In addition, we also would be more active in bringing issues concerning UWGB students to a state level by working with our local legislators.

Secondly, we would promote programs that have already been established by past administrations to all UWGB students, such as the UPASS System and the Student Saver Program, so that they are more readily used by all students.

Thirdly, we would investigate the creation of a campus wide text messaging system in which students would receive text message notifications for campus emergencies, severe weather alerts, and class cancellations.

One Sentence Public Statement:  
"Vote G&B for GB"
