

## April 2010 Comments

### The Grille

**Comment:** More grass field beef! I didn't get to try any because they ran out.

**Response:** We will be trying this again next semester. Thanks for the suggestion.

### Common Grounds

**Comment:** Turn on the fireplace! I am freezing.

**Response:** We will keep a close eye on this situation. Thank you for letting us know.

### Corner Store

**Comment:** Turn up the heat! Brrr

**Response:** We will keep a closer eye on this situation. Thank you for letting us know.

### Soups

**Comment:** The soups are hit or miss. Sometimes they are excellent sometimes they are way too salty. This may be a product of buying soup at 2:00pm in the Garden Café (Chicken and Rice). I had an excellent garlic and onion cream soup at the main cafeteria, but never saw it again. Chicken noodle is a hands down favorite, but often the noodles become saturated and mush. Perhaps making the soup base ahead of time and adding pre cooked noodles directly before serving in a big container will help the mush issue.

**Response:** We will look into our preparation methods. Thanks for the suggestion.

### Garden Café

**Comment:** I would love to see Water Joe available at the Garden Cafe! I love it

**Response:** We only have a limited amount of cooler space to work with. Because of this, we cannot offer every beverage item requested, rather we have to devote space to those that sell the best. Water Joe unfortunately was not a good seller in the Garden when offered previously. We do offer this product in the Corner Store.

**Comment:** Great food! Should make a better variety of sandwiches. No Mayo!

**Response:** Thanks for the comment. If you have specific varieties of sandwiches that you would like to see, please let us know.
