

CURRENT COURSES:

Principles of Ecology	ENV SCI 302 (lecture and lab)
Seminar in Ecology and Evolution	ENV S&P 715 (graduate seminar)
Ecological and Environmental Methods and Analysis	ENV SCI 468 (lecture and lab)
Issues in Biological Conservation	ENV SCI 188 (gen. ed. course)
Research Experience in Panama	ENV SCI 499/799

OTHER COURSES TAUGHT:

Introduction to Environmental Science (UWGB, St. Norbert College)
Introduction to Human Biology (St. Norbert College)
Principles of Biology II Lecture (UWGB)
Principles of Biology II Lab (UWGB)
Conservation Biology (St. Norbert College)
Travel Course to Australia (UWGB)

DIRECTED STUDIES:

Graduate Students (major professor)

Richard Novy	Acoustic monitoring of forest bats in northern Wisconsin
Linda Filo	Integrated pest management of <i>Phragmites australis</i> in northeastern Wisconsin
Jay Watson	Influence of woodlot remnants on pollinator distributions in Door County, Wisconsin
Juniper Sundance	Distribution and ecology of wild rice in Wisconsin
Devany Martin	Evaluation and monitoring of <i>Phragmites australis</i> control measures in Lake Michigan coastal wetlands (Completed spring 2008)

Graduate Committee Member

Lawrence Eslinger
Kathryn Corio
Marci Johnson (completed Spring 2007)
Amanda Lederer (completed Spring 2007)
Wade Oemichen

Independent Study Students (ENV SCI 498)

2006

Nick Walton	Remote Sensing of Forest Habitats, 3 credits
Jon Schubbe	Methods in Raptor Ecology, 2 credits

2007

Megan Harvey	Plant Ecology Research, 3 credits (Fall 2007)
Lana Athorp	Equine veterinary medicine, 3 credits
Ruben Behnke	Effects of land cover on climate change, 1 credit (Summer 2007)
	U.S. Climatology, 3 credits (Fall 2007)

Directed Research in Biology (BIOLOGY 495)

2006

Courtney Lewis Survey of Bats in the Cofrin Arboretum, 3 credits
Cofrin Arboretum Student Research Grant

2007

Courtney Lewis Survey of Flying Squirrels in the Cofrin Arboretum, 3 credits
Megan Jacobi Competition and Predation among Great Lakes Invasives: A study of the relationships between Round Gobies, Zebra Mussels, and Quagga Mussels at three UWGB Natural Areas (Fall 2007, with T. Reed)

Other Undergraduate Projects

2006

Nick Walton Dragonflies of the Toft Point Natural Area
Cofrin Arboretum Student Research Grant

Biology Internship (BIOLOGY 497)

2006

Heather Vanderford Internship in Veterinary Medicine, 3 credits

2007

Venessa Lefan Internship at Green Bay Wildlife Sanctuary

Graduate Independent Study (ENV SCI & POL 798)

2006

Kathryn Corio Forest Ecology and Ecological Statistics, 3 credits
Devany Martin Spatial Ecology, GIS
