To protect and preserve UW System Resources and conscientiously meet UW system responsibilities/

Scope

All departments and employees, faculty, and staff employed within UWGB fall under this SOP.

Locations

The guidelines that are included in this document are applicable to all individuals (students, faculty, staff, contractors, visitors, alumni, parents, etc.) in the UW Green Bay community regardless of their location.

Included Sites in this Plan

Definitions

Employee Capabilities: capabilities and restrictions outlined by a healthcare provider of an injured employee's physical capabilities after a work-related injury. Restrictions and limitations are usually temporary but can also be permanent.

Employee Exposure: employees who are exposed to unsafe elements, such as bloodborne pathogen exposure, asbestos, etc. may need to complete Workers Compensation forms, but the treatment may be covered by Risk Management, not Workers Compensation. Each case is reviewed to make a determination. See also *SOP SRC Reporting*.

Healthcare Provider: A Licensed physician or other medical professional qualified to render medical opinions on the injury in question, providing medically necessary treatment to an employee who sustains a work-related injury.

Modified Work Assignment Supervisor: A supervisor who has been given authority to temporarily supervise an employee who has received a temporary work assignment under the Worker's Compensation Return-to-Work Program.

Return to Work Program: A program implemented to bring an employee back to work after a work-related injury with temporarily modified duties in compliance with restrictions outlined by the employee's treating physician.

Transitional Modified Work Assignment: An offer for a temporary work assignment made to an employee who is recovering from an illness or injury and who has received clearance from a treating healthcare provider to return to work under specific limitations.

Workers Compensation: a benefit program that pays for medical treatment and wages lost due to work-related injuries or illnesses. This benefit covers medical treatment resulting from your work-related injury or illness, lost wages, compensation for permanent disabilities, and/or vocational rehabilitation. UW System provides oversight for this benefit for UWGB.

Return to Work Program

UW 635 exists to return injured employees to productive roles in the workforce in a timely manner. This responsibility is shared by management and employees. This program recognizes the value of employee engagement within the organization, the need for continuous productivity, and direct benefit to employees in maintaining their leave bank, reducing absenteeism, and days away from work.

The Return-to-Work Program is coordinated to provide, when available, a Transitional Modified Work Assignment, to employees with work-related injuries with restrictions and limitations identified by a healthcare provider.

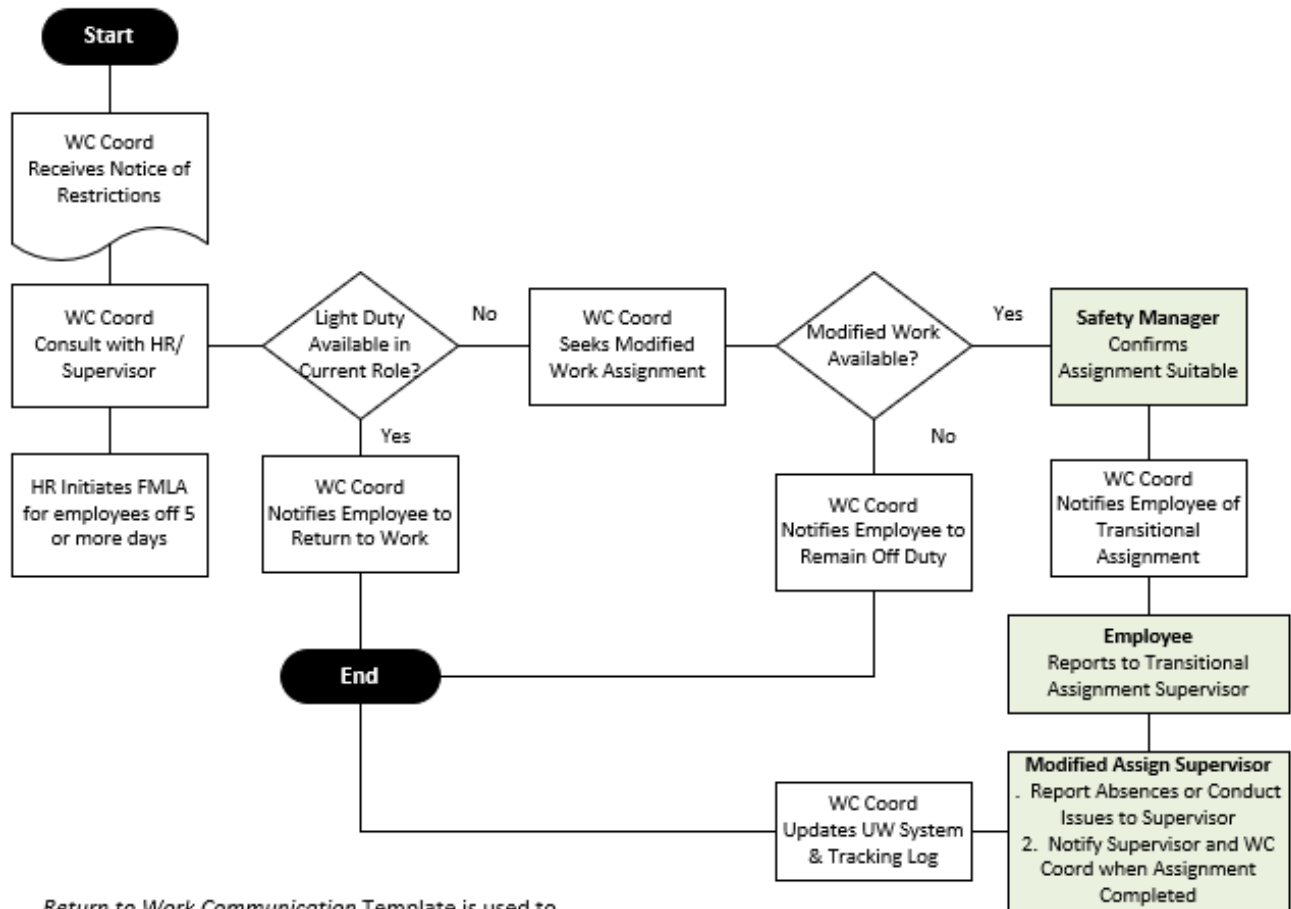

- a. Upon receipt of an employee's work restrictions from a health care provider, the Workers' Compensation Coordinator, Human Resources, and current Supervisor will confirm if light duty is available in employee's present role.

For injuries where employee may be out five (5) or more days, Human Resources will be notified to initiate FMLA, if appropriate.

- b. If light duty is not available, the Workers Compensation Coordinator will confirm if other work is available using the Transitional Work Assignment list. The Safety Manager will review to confirm assignment is suitable.

This temporary placement is outside the scope of the employee's assigned position description and is not necessarily the same number of hours, shift, or work location. The employee's home department will be responsible for the wage and benefit costs during the period of a modified work assignment, regardless of placement.

- c. Notification is made to employee to 1) return to work, 2) remain off work, or 3) return to work in a Transitional Work Assignment. Human Resources, Current Supervisor, and Transitional Work Assignment Supervisor are copied on this communication. See *Appendix Return to Work Communication*.

By law, all health care providers must provide to any employee, employer, worker's compensation insurer or their representative any information reasonably related to any alleged work injury. However, determining the relationship of prior medical records to a work injury can be difficult and time-consuming. Therefore, to assist in the timely investigation of your claim, this document authorizes the health care provider to release medical information without attempting to determine the extent of its relationship to your alleged work injury.

You are not required to sign this document. You may refuse to sign this document without jeopardizing your right to collect worker's compensation benefits. However, by assisting in the investigation of your claim, you are likely to receive benefits quicker than if you refuse to authorize the release of medical information.

5. If you have time off of work related to your injury (ex. recovering, attending doctor appointment), please let me know. You would need to indicate on your timesheet or leave request the time lost for the injury. Please use sick leave or vacation and write "WC" in the comments field.

If entering the paid leave on your timesheet, add the comment by clicking on the conversation bubble on the left side of that row, and enter the comment. If you are taking two hours off to attend a physical therapy appointment, for example, you could enter "WC – PT appt 2 hrs".

If you are taking a full day off and have one hour for a doctor appointment and taking vacation the rest of the day, you could enter "WC 1 hr & Vacation 7 hrs".
