*"I chose the Manitowoc Campus because it has everything I need: It's here where I live and I can complete all my prerequisites toward my goal of becoming a pharmacist. Every professor I've had has been great, especially my Chemistry professor, Dr. Amy Kabrhel. ### Catherine Hinkle UW-Manitowoc '17 Environmental Policy and Planning major at UW-Green Bay

*"The Manitowoc Campus is such a wonderful place! I was a brand new student at the age of 47, going back to school after talking about it forever. Everyone was so friendly. Your professors are there to help you. It doesn't even seem like their job; it's just their life and you're part of it. I also worked on an internship through the Manitowoc Campus, taking water samples from local creeks, testing and recording results, and then sharing those results with the community. It was a great experience."*
