

Biology | 2013-2014 Assessment Plan

1. Which outcome will you assess?

Solve problems by applying a scientific process of inquiry, including the effective use of appropriate techniques, instrumentation, and data analysis

2. Which technique will you use to assess this outcome?

The plan is to use our seminar/capstone course to assess the brunt of this outcome.

3. Which course or group of students will you assess on the outcome chosen above and when?

There is a technical component to the outcome, which we plan to evaluate in our upper-level lab courses.

- o Chair, will compile results from assessments and report the findings.
