### Join Us at Lifelong Learning Institute

The Lifelong Learning Institute (LLI) is a member-led program sponsored by the University of Wisconsin-Green Bay's Division of Continuing Education and Community Engagement for adults interested in learning and community. LLI offers courses in a wide range of topics each semester in a variety of formats and lengths. Instructors share their passions with lots of opportunities for questions, comments and discussion. No tests, no papers and no credits. Just learning for the joy and community of it.

#### Spring Semester Fee: \$75

Spring offers a one-time opportunity to join for a semester. LLI follows the typical two-semester academic format and offers courses in spring and fall. An annual fee of \$140 covers both semesters and is due in the fall.

#### Register Early for Best Selection

Please be patient if you experience delays when registering. This may happen if too many people are registering at the same time.

Register for up to 15 classes during the initial registration period. After the initial registration period, about January 4, an email will be sent with a list of classes that still may have openings. Members can register for additional classes. Available classes will also be posted on our website.

#### Keeping You Safe

LLI reserves the right to require face masks to be worn and/or change class delivery method, class size or classroom policy, based on new health guidelines or other unforeseen circumstances.

#### Confirmation Email

You will receive an email immediately after you submit your registration. This is your confirmation letter. Be sure LLI emails are not going into your junk, trash or promotional email folders. Your confirmation email will only indicate the first session of each course, so please make a note of remaining dates listed in the catalog or calendar for reference.

**With over 175 interactive and engaging classes**  
to choose from, LLI offers flexible options for all new and existing members.

In this class we'll take a look at the challenges and opportunities available within adult life transitions with a focus on the second half of life.
