# How to Calculate Your Music Course GPA

1. Convert each Letter Grade to "Grade Points", then multiply by total credits for that course.
   - See "Grade Points" Chart below on the left.

2. Calculate your *total* Grade Points *(P)* for all Music courses.

3. Calculate your *total* number of Music course credits *(C)*.

4. Simply **divide** your total Grade Points *(P)* by your total course credits *(C)*.
   - *formula is: (P) ÷ (C) = your GPA*
