Build Your Skills this Fall with Continuing Education Courses to Upgrade Your Life and Career

### Autumn and Winter Gardening in Wisconsin

Tuesday, September 24

5:30-8:30 p.m.

Acuity Building, 1202

Instructor: Christina Wilke-Burbach

You can have an outdoor garden year-round. Learn all about cold weather crops and plants that thrive in the cooler temperatures. This class covers strategies and techniques for gardening outdoors from seed to harvest in autumn and winter. Grow fresh food and ornamental plants for your Thanksgiving and Christmas dinners. The class will discuss vegetables, herbs and flowers.

Cost: \$49.00

### End of the Growing Season: Now What Do I Do?

Tuesday, October 8

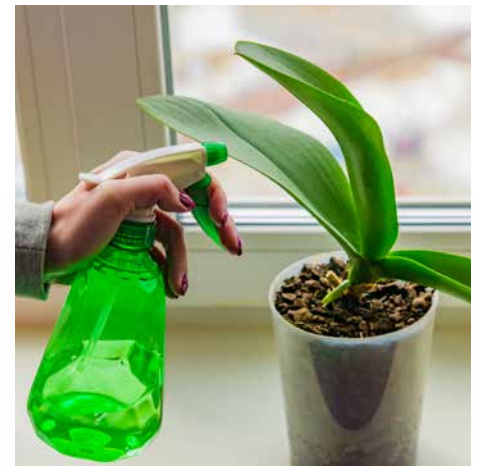

5:30-8:30 p.m.

Acuity Building, 1202

Instructor: Christina Wilke-Burbach

Learn all the fun ways to use the herbs, vegetables, fruits and flowers you grew in your garden this summer. You will learn how to harvest your plants and use them in teas, beverages, cocktails, "mock"-tails, cooking and baking. You will also learn about garden clean-up, seed saving, drying and storing your harvest while getting lots of recipes and culinary ideas.

Cost: \$49.00

### Indoor Gardening and House Plants

Tuesday, November 19

5:30-8:30 p.m.

Acuity Building, 1202

Instructor: Christina Wilke-Burbach

This indoor gardening class focuses on having a year-round garden in your home. Bring the outdoors inside! The class will cover reasons for having indoor plants, common challenges with indoor plants and how to remedy them. You will discuss how to select houseplants, where to get indoor plants, caring for houseplants, designing an indoor garden, different types of indoor gardens and lots of tips and techniques for success.

Cost: \$49.00
