What is Student Accessibility Services?

Student Accessibility Services (formally known as Disability Services) collaborates with students, instructors and staff to ensure equal educational and programmatic access for eligible students with documented disabilities. We provide students the opportunity to reach their full potential by creating academic accommodations and support services along with promoting independence and self-advocacy. Additionally, we serve as a campus and community resource on post-secondary disability issues.

ONLINE HOUSING APPLICATION

2 Easy Steps to Register  Step 1: Fill in Application  Step 2: Submit Documentation

The Disability Services Office and Residence Life collaborate closely to ensure that students with disabilities receive appropriate campus housing accommodations. In order to continue to accommodate students in the most effective way possible, the housing accommodation request procedure requires that all students requesting housing accommodations on the basis of a disability not only apply in GB ACCESS, but also submit a housing accommodations request form. This procedure enables DS and Housing to strategically plan and coordinate the appropriate accommodations in a timely, efficient manner. This policy aligns with university best practices around the country, and will streamline the accommodation process significantly.
