2. Legislation Affairs Committee
   a. The publication ("What We Pay") by the Gannett Company of public employee salaries and related searchable databases has brought about discussions to say the least; with statements made by the UWGB administration, including the Chancellor himself. The latest that I received today from Dean Furlong (via Donna Van Straten) highlights the questioning from some in our campus community of why the media organization(s) don’t do stories on "What We Get.” This may be the perfect fodder for organizing a letter writing campaign to both representatives and media organizations. This topic will be my major focus for our next meeting; bring your ideas for this and other topics.- Does it represent student’s? Academic Affairs?
