Federal Compliance Filing by Institutions
Effective September 1, 2020–August 31, 2021

Institutions should answer the questions below. The Federal Compliance Overview provides information about the applicable HLC policies and provides an explanation of each requirement. Please review the aforementioned Overview in its entirety prior to completing this Filing.

Note that some federal requirements are related to and accounted for in the Criteria for Accreditation or Assumed Practices. Those related Criteria and Assumed Practices have been identified for cross-referencing purposes. Cross-references are also provided to the Code of Federal Regulations. Because HLC may, in some cases, require more of its institutions than the federal regulations, it is important that institutions write to HLC’s requirements to ensure their compliance not only with the federal regulations but also with HLC’s expectations. Lastly, although cross-references to the Code of Federal Regulations are provided here, an institution is always responsible to ensure that it is familiar with the full and current text as well as the significance of those regulations, and that it is in compliance at all times with such regulations, as they may from time to time be updated.

Submission Instructions
This form and, if applicable, Appendix A should be uploaded to the Assurance System no later than the institution’s lock date, unless otherwise noted. Instructions for uploading the documents are provided in the Assurance System. The necessary supporting documentation should be directly responsive to specific documentation requested. While there is no minimum expectation with respect to length, the completed Federal Compliance filing, including Appendix A (if applicable), should not exceed 250 pages.
