

## Art Opportunities

*compiled Fall 2006*

**It is not enough that students simply have a college degree to gain employment after graduation. Studies show that students that got involved while in school are far more likely to gain significant internships, employment and entrance into graduate school after graduation.**

- Most art related opportunities including regional and national juried exhibits are posted as they come up on the first floor studio arts bulletin boards.
- E-mails from the Chair of Art to all majors and minors are usually sent out informing students of art opportunities.
- Students who join Art Agency are guaranteed to hear about departmental exhibition opportunities. (Link to Art Agency page)
- Contact individual art professors for other art opportunities in specific art areas.
