ATHLETIC TRAINING

A PASSION FOR GETTING PEOPLE BACK TO THEIRS

Life moves quickly. Keeping patients active, moving and pursuing their life passions in sports, dance, law enforcement, the military and more are at the heart of a career in Athletic Training.

Athletic trainers are highly qualified, multi-skilled healthcare professionals who collaborate with and work under the direction of physicians on patient care. As an athletic trainer, you'll work in a variety of settings, providing care for athletes and non-athletes alike, all while being driven by a singular goal: getting people healthy and back to pursuing their dreams and living their best, most active lives. Often, athletic trainers are the first responders when an injury occurs, providing critical medical and emotional support for athletes and other high performers.

ABOUT THE PROGRAM

-  A challenging next step for Human Biology, Kinesiology and Exercise Science majors
-  Cohort-based program = support, teamwork and shared resources
-  Classroom, laboratory and clinical education curriculum
-  Evidence-based education to enhance patient care
-  Two-year program
-  62 credit hours

MEDICAL EDUCATION MODEL

Using a medically-based education model, athletic training students learn to provide comprehensive patient care in five domains of clinical practice:

- » Injury and Illness Prevention and Wellness Promotion
- » Examination, Assessment and Diagnosis
- » Immediate and Emergency Care
- » Therapeutic Interventions
- » Healthcare Administration and Professional Responsibility

ATHLETIC TRAINING AT A GLANCE

\$56,347 Average salary (2018)
Typically, athletic trainers with a masters degree earn a salary of \$38,000—\$79,000 per year.

↑21.3% Growth in Athletic Training jobs in U.S. (2014–2024)

↑18% Increase in Athletic Training jobs in Wisconsin (2012–2022)

2 YEARS Projected time to degree
Time students with a baccalaureate degree (with prerequisite courses) will complete the degree, including summers.

GAME-CHANGING CLINICAL EXPERIENCES

As a legendary sports-rich community, Green Bay and Northeast Wisconsin offer a wealth of clinical opportunities for graduate students. Potential partnerships with market-leading medical institutions and a range of professional, minor league, collegiate and high school sports teams include:

CAATE ACCREDITATION STATUS

In addition to a master's degree, Athletic Trainers must be certified and licensed in the state where they practice.

UW-Green Bay is currently seeking accreditation for their new Athletic Training program and is not accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The institution will be submitting a self-study to begin the accreditation process on July 1, 2020. Submission of the self-study and completion of a site visit does not guarantee that the program will become accredited. Students that graduate from the program prior to accreditation will not be eligible to sit for the credentialing examination for athletic trainers and will not be eligible for licensure in most states.

Please contact Assistant Prof. and Program Director William Gear if you have questions regarding the Master of Athletic Training accreditation status. Email: gearw@uwgb.edu | Phone: 920-465-2266
