

Masters of Science in Management

UNIVERSITY of WISCONSIN
GREEN BAY

POWER YOUR LEADERSHIP POTENTIAL

The Masters of Science in Management program is designed to prepare effective leaders and decision makers for the region's businesses, nonprofit organizations and government agencies. The program can be completed in three years and has a core set of courses that provides students with a strong foundation for effective decision-making.

Courses to
Graduate

2 Specialty Tracks

The 31-credit curriculum consists of a graduate core of six required courses (18 credits) and then a choice between two tracks. A four-credit, hands-on professional project is the capstone of the program's academic experience for both tracks.

TRACK A: Analytics for Accountants

Track A is especially suited for accounting undergraduate students with a focus on the quantitative and analytics aspects of business.

TRACK B: General

Track B is a general management track better suited for students without a business background.
