Helpful Tips!

- It is recommended to clear your computer cache before setting up their account. Restarting your computer is also helpful.

- The registration account is separate from the application account – a new account must be set up.

- If you took a CCIHS course last year – you already have a registration account. Use the ‘forgot password’ to reset.

- After activating your account, return to the registration login screen and login in with the User Name and Password you created.

If you end up at a page that looks like the screenshot – log out – return to the log in screen for their registration account and log in. If they continue to get this screen, they should again clear their cache and try again.

- You can click on ‘Skip Now’ if you’re asked for your cell number.

- You WILL NOT receive an email confirmation after submitting your form. You’ll see a message stating your form was submitted.

- Are you taking more than one CCIHS course for college credit? You will need to complete a form for each course – you may need to log in to complete each form.

  Note: if you are taking two courses with the same title (example HISTORY 205 / HISTORY 206; WF 100 / WF 102) you will need to complete two forms. Even though you are selecting the same subject, we need a form to complete your enrollment for each course.

Thank you!
