Organic Chemistry Bootcamp

UW-Green Bay will offer organic chemistry laboratory classes, CHEM 304 and 305, in succession as bootcamps during J-Term 2023. The bootcamps are accepted and approved by all other accredited universities and have been designed to deliver the same experience as a normal semester-long lab course in just one week.

TAKE ONE OR BOTH

J-Term 2023

CHEM 304 ORGANIC CHEMISTRY LABORATORY I

January 2-6, 2023

1 Credit

UW-Green Bay

CHEM 305 ORGANIC CHEMISTRY LABORATORY II

January 9-13, 2023

1 Credit

UW-Green Bay

UW-Green Bay's CHEM 304 and 305 are equivalent to UW Madison's CHEM 344. CHEM 304 and CHEM 305 bootcamps will cover basic and intermediate synthesis, purification and instrumental techniques in organic chemistry.

**BETTER MANAGE AND COMPLETE
YOUR LAB HOURS DURING OFF-PEAK
TIME PERIODS.**

The bootcamp is an ideal solution for athletes and students with heavy class loads like pre-professional majors in medicine, veterinary medicine, dentistry, pharmacy or chiropractic.

Students interested in enrolling in CHEM 304 are expected to have already completed Organic Chemistry 1 lecture (CHEM 302 or equivalent) or have instructor's permission. Students interested in enrolling in CHEM 305 are expected to have completed Organic Chemistry II lecture (CHEM 303 or equivalent).

COST

CHEM 304: \$397.50*

CHEM 305: \$397.50*

Courses are filled on a first-come, first-serve basis. Tuition must be paid in full by November 30, 2022. No refunds will be issued once final payment date has passed.

**Tuition does NOT include goggles or lab coat.*

REGISTRATION

Students will need to contact the Continuing Professional Education office in order to register.
