# MESSAGE FROM THE CHANCELLOR

MICHAEL ALEXANDER  
Chancellor

Welcome from the Chancellor.

On behalf of the University of Wisconsin-Green Bay, it is my pleasure to welcome you to our campus for the Destination Imagination Wisconsin State Tournament. We are excited to partner with you and hope to provide competitors and guests with an experience that is memorable and meaningful for you.

The skills you have learned while preparing for and competing in this competition will equip you to be the leaders of tomorrow. Your presence here demonstrates your innovative and creative thinking allowing you to positively impact our communities for the better. Imagination and curiosity are two essential leadership skills needed to navigate the tremendous amount of change happening in the world.

The University of Wisconsin-Green Bay is a university on the rise! We provide opportunities for all who want to learn. Earlier this year, we opened the Technology, Engineering, Arts and Media (TEAM) Laboratories. The TEAM space includes four engineering labs— an electrical engineering lab, electronic circuits lab, electrical machines lab, senior design lab and a physics lab, along with student-run media and entertainment facilities. UW-Green Bay's Business, Nursing, Freshwater Science, Psychology and other high demand majors continue to grow to meet the demands of our region.

If you are considering pursuing additional education after completing high school, I encourage you to research the learning opportunities available through UW-Green Bay. We would love to have you as part of our Phoenix Family!

I know that you will enjoy your time on our campus and in the Green Bay community. Good luck in your competition!

Go Phoenix!

Michael Alexander  
Chancellor  
University of Wisconsin-Green Bay

## New to DI? Welcome!

We're glad you're here! There's no better way to understand the Destination Imagination Challenge Experience than to see it in action. To get the most out of your day, here's what we suggest:

- Attend at least one Presentation in every Team Challenge. Each Team Challenge is unique and has open-ended requirements, allowing teams to create totally different solutions from one another. Read through the Points of Interest so you know what you can expect to see. Each Presentation is around eight minutes in length.
- Wish the teams luck in their Instant Challenge. All of our teams participate in an Instant Challenge as part of their tournament experience, during which they use quick, creative and critical thinking, and teamwork to come up with a solution in a short amount of time. Spectators are not allowed in these presentations as the Instant Challenges themselves are highly confidential.
- Look at the props, costumes, sets, technical devices and more that the teams have created—but please don't touch! Remember that everything you see was crafted by the team members with no adult Interference.
- Talk to teams, parents and volunteers about their experience with this season of Destination Imagination. Tell them you're considering starting a team, and ask them to share their favorite thing about DI—you'll be amazed by the different answers you hear.
- Have fun, be inspired, and imagine the possibilities!
