

RISE TO THE EQUATION

Soar to new heights in this engaging 2-week **virtual** summer day camp, designed to assist students with preparing for Algebra 1 in a unique, highly interactive and hands-on environment.

We'll build algebra skills and dive into projects, strengthening math literacy and confidence!

July 26-August 6, 2021
Monday-Friday

FREE 2-Week Virtual Summer Bridge Program

Virtual Classroom

9-11 a.m.

Hands-on fun with creation, innovation & algebra application!

11 a.m.-12 p.m.

Lunch break (lunch on your own)

12-2 p.m.

Algebra skill-building

FREE for GEAR UP & Talent Search Students!

T-shirt & Mask Included (for personal use!)

Interactive supplies will be shipped to students' homes and a virtual classroom link will be shared in advance of the course. While this program was created for rising 9th graders who have not yet taken Algebra 1 or may need to retake it, anyone wishing to enhance and apply their skills in algebra (while having fun!) is welcome.

The camp instructional team will consist of algebra teachers, instructional assistants, and masters of application and engagement from the Einstein Project and 4-H Programs — giving an impeccable staff to student ratio!
