Electronic I-9
Designated Campus Contacts

The University is required by law to verify each new employee’s identity and authorization to work in the United States. The law prohibits us from continuing to employ an individual who has not provided appropriate documentation for verification. UW-Green Bay utilizes an electronic I-9 process to meet these verification requirements. Paper Form I-9s are no longer accepted.

Please reach out to your campus contact to request a Form I-9 for a new hire.
