MESSAGE FROM OUR VICE CHANCELLOR

Greetings!

It has been an incredible year! The division has aligned with the University's strategic priorities (student success, inclusivity, digital transformation, community connections, sustainability & environment, and athletics & The Weidner) to ensure the success of all students. This year, enduring the pandemic, we pivoted our programs, services, and activities through different modalities to ensure continued access for students.

The information shared in this annual report, speaks to our focus on reaching students at every level and expanding opportunities for all students to discover a pathway to their holistic success both academically and developmentally.

I personally applaud the entire division for their continued commitment to our student-centered approach toward everything we do. Together we make things happen through transformational and servant leadership!

Rise Phoenix!
