Role models Black Panther offers - Superheroes

For the first time black kids have a superhero they can identify with a superhero that looks like them.

Today, my 4th grade student asked if I saw #BlackPanther. I smiled and said, “Yes, 3 times.” Her eyes opened wide and she excitedly said “I loved when the rhino licked #Okoye’s face.” Then she said #TChalla and #Shuri were her heroes.

To see a black film is one thing. But to see a black superhero on the big screen.. to see a black superhero pay homage to our ancestry and speak the truth to what this world needs, means the world to me... #WhatBlackPantherMeansToMe 🧧
The importance of heroes in a broken society

Super heroes shine through the darkness and they challenge the societal norms, giving us something to strive for.

How do we help young black students to see themselves with the potential to say, “If they can do it, why not me?”

All the love #blackpanther is getting. I wanna acknowledge this sista Dorothy Steel. The 91 year old Atlanta native had a minor role as a tribal elder in BP. This is proof that you are NEVER to old to pursue your dreams

Seeing Chocolate sisters on screen in leading roles portraying women with heart, wisdom, & confidence speaks to our remarkable achievements. As a child of the 70s, films would show numerous Black people in marginalized or demeaning roles.

The symbolism of the Dora Milaje (based on real-life Dahomey Ahosi warriors) isn’t lost on me as Black women continue to be the warriors within daily life, leading our communities and nations around the globe in the way that we should go. #WhatBlackPantherMeansToMe 🙏

A world where black girls can see themselves in movies where they are not the prostitute, bystander, slave, princess, or damsel.

For the first time in over a year, my Facebook isn't overflowing with toxicity. Logged in and saw nothing but pictures of proud ppl adorned in African attire, & discussing concepts that the film explored. No way you can downplay this films significance. #WhatBlackPantherMeansToMe

At the beginning of the movie I was announcing that I was going to shave my head.
By the end I was already revering my silver locks of the future.
I saw all of me - my heritage, my diaspora and my potential - on screen.

Thank you to all involved.

Bearing witness to major motion picture with predominately Black cast! WE are no longer invisible! Message brings to question: How are we going to COLLECTIVELY change the perpetual narrative of marginalized groups and center their voices?

What can we do to help encourage black female students to embrace careers in technology?
Hero vs. Villain
Erik Killmonger

- He has a right to be angry. His father was murdered by his own people and he was raised under a white supremacist system.

- His anger fueled his hatred of life. He did not mind taking life, because he did not value life. His goal was not liberation or freedom, but rather domination and revenge.

- He called out the black elite who preached assimilation as a way to overcome the trauma of racism. Money does not make you safe or fix the pain.

- Black Panther uses T’Challa and Killmonger to show two opposite spectrums of the response the racism. One a strong country that ignores the plight of other people of the same race and the other of trying to get revenge and dominate those who oppressed their race.

#BlackSuperheroesMatter
Is Killmonger a Hero or a Villain?

Survey from the Tylt, which is the first project from Advance Digital’s in-house incubator Alpha Group, is trying to capture as much of, and as inclusively as it can, the online conversations around heated, timely topics such as this one.

#BlackSuperheroesMatter
Chadwick Boseman states that the Black Panther does not necessarily have a villain and a hero, that it looked at both sides and did not let anyone off the hook.

Thinking about this quote, no one is 100% hero or are they 100% villain. We are a sum of circumstances and decisions made by us and for us over generations.

How do we use this knowledge as we address conversations about diversity and race on our campus and in our world?
