Legislative Audit Bureau

The Legislative Audit Bureau supports the Legislature in its oversight of Wisconsin government and its promotion of efficient and effective state operations by providing nonpartisan, independent, accurate, and timely audits and evaluations of public finances and the management of public programs. Bureau reports typically contain reviews of financial transactions, analyses of agency performance or public policy issues, conclusions regarding the causes of problems found, and recommendations for improvement.

Reports are submitted to the Joint Legislative Audit Committee and made available to other committees of the Legislature and to the public. The Audit Committee may arrange public hearings on the issues identified in a report and may introduce legislation in response to the audit recommendations. However, the findings, conclusions, and recommendations in the report are those of the Legislative Audit Bureau.

The Bureau accepts confidential tips about fraud, waste, and mismanagement in any Wisconsin state agency or program through its hotline at 1-877-FRAUD-17.

March 31, 2023

Senator Eric Wimberger and Representative Robert Wittke, Co-chairpersons Joint Legislative Audit Committee State Capitol Madison, Wisconsin 53702

Dear Senator Wimberger and Representative Wittke:

We have completed our annual financial and compliance audit of the State of Wisconsin. This audit satisfies state agencies' audit requirements under the federal Single Audit Act of 1984, as amended, and of the federal Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The audit also assists us in fulfilling our audit responsibilities under s. 13.94, Wis. Stats.

Our report contains the auditor's reports on internal control and compliance related to financial reporting and federal program administration, and our audit opinion on the State of Wisconsin's Schedule of Expenditures of Federal Awards (SEFA). In fiscal year (FY) 2021-22, state agencies administered \$20.2 billion in federal financial assistance, including \$5.9 billion in assistance expended as a result of the public health emergency and separately identified in the SEFA.

We tested internal controls and compliance with laws and regulations for 22 federal programs that were selected for review using risk-based assessment criteria established by the federal government and specified in Uniform Guidance. We qualified our opinion on compliance related to certain requirements for the Emergency Rental Assistance Program. We made 64 recommendations to improve administration of federal programs and to address deficiencies in internal controls over financial reporting. We also identified \$1.3 million of questioned costs that state agencies charged inappropriately to federal funds.

We followed up on the status of corrective actions to address audit findings we reported in our FY 2020-21 single audit report (report 22-5). The federal government will work with state agencies to resolve the new and continuing concerns we identified.

We appreciate the courtesy and cooperation extended to us by state agency staff during our audit. Agency responses to individual findings are included within each chapter. As required by Uniform Guidance, agency corrective action plans to address these findings are included separately in the auditee section of this report.

Respectfully submitted,

Joe Chrisman State Auditor

JC/CS/ss

Introduction

State agencies administered \$20.2 billion in federal financial assistance in FY 2021-22. Wisconsin state agencies administered a total of \$20.2 billion in federal financial assistance during fiscal year (FY) 2021-22 including \$17.4 billion in cash assistance, \$2.7 billion in noncash assistance, and \$107.8 million in outstanding loan balances. This total also includes \$5.6 billion in federal financial assistance the State expended related to the public health emergency, and that it separately identified in the State of Wisconsin's Schedule of Expenditures of Federal Awards (SEFA).

As a condition of receiving federal funds, state agencies must meet the audit requirements of the federal Single Audit Act of 1984, as amended, and of the federal Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). We performed our FY 2021-22 audit at the request of state agencies that administered federal financial assistance and to assist us in fulfilling our audit responsibilities under s. 13.94, Wis. Stats. We focused our audit on the internal controls over 22 selected federal programs and tested compliance with laws and regulations related to these programs.

In performing this audit, we were required by federal rules to:

- render an opinion on the State's basic financial statements;
- issue a report on the State's internal control and compliance related to financial reporting; and
- issue a report on the State's compliance with requirements applicable to each major program, on its internal control over compliance, and on its SEFA.

Our opinion on the State's FY 2021-22 financial statements was included in the State's Annual Comprehensive Financial Report (ACFR), which was issued by the Wisconsin Department of Administration (DOA) in December 2022 and is available on DOA's website. The other required auditor's reports, accompanied by each agency's response to our findings and its corrective action plans, are included in this single audit report. This single audit report, along with other required information, is required to be submitted to the federal government under Uniform Guidance.

Federal Programs

In FY 2021-22, 18 programs accounted for 88.6 percent of the \$20.2 billion in federal financial assistance state agencies administered.

In FY 2021-22, the State administered 18 federal programs or clusters with expenditures greater than \$200.0 million. Uniform Guidance requires that certain federal programs be grouped into clusters, combined for federal reporting purposes, and audited as one overall program. The 18 largest programs or clusters accounted for 88.6 percent of the \$20.2 billion in federal financial assistance state agencies administered in FY 2021-22, as shown in Table 1.

Table 1

State of Wisconsin Federal Programs or Clusters with Expenditures Greater than \$200.0 Million FY 2021-22

			Percentage
Federal Program or Cluster ¹	Agency	Expenditures ²	of Total
Medicaid Cluster	Department of Health Services	\$ 7,933,156,236	39.4%
Supplemental Nutrition Assistance Program (SNAP) Cluster	Department of Health Services	2,252,812,759	11.2

Child Nutrition Cluster	Department of Public Instruction	569,360,182	2.8
Coronavirus State and Local Fiscal Recovery Funds (CSLFRF)	Department of Revenue Department of Administration, Department of Health Services,	559,178,943	2.8
Coronavirus Relief Fund (CRF)	Department of Revenue Department of Administration,	469,106,425	2.3
Child Care and Development Fund (CCDF) Cluster	Department of Children and Families	389,390,120	1.9
Disaster Grants—Public Assistance (Presidentially Declared Disasters)	Department of Administration, Department of Health Services, Department of Military Affairs	354,289,851	1.8
Pandemic EBT Food Benefits	Department of Health Services	312,520,738	1.6
Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)	Department of Health Services	302,064,445	1.5
Children's Health Insurance Program (CHIP)	Department of Health Services	241,957,657	1.2
Special Education Cluster (IDEA)	Department of Public Instruction	233,589,541	1.2
Title I Grants to Local Educational Agencies	Department of Public Instruction	209,509,365	1.0
Low-Income Home Energy Assistance Program (LIHEAP)	Department of Administration	205,572,123	1.0
Subtotal		17,864,431,296	88.6
Other Federal Programs or Clusters ⁴		2,291,242,872	11.4
Total		\$20,155,674,168	100.0%

¹ Uniform Guidance requires that certain federal programs be grouped into clusters, combined for federal reporting purposes, and audited as one overall program.

² Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

³ In accordance with federal requirements, consists of insurance benefits paid from employer contributions and direct federal funding.

⁴ Federal programs or clusters with expenditures less than \$200.0 million.

Table 2 shows the amount of federal financial assistance administered by each state agency. Seven state agencies accounted for 94.8 percent of the federal expenditures and had primary responsibility for administering the State's largest federal programs or clusters during FY 2021-22 including:

- the Department of Health Services (DHS), which administered the Medicaid Cluster, the Supplemental Nutrition Assistance Program (SNAP) Cluster for Wisconsin's FoodShare program, the Pandemic Electronic Benefit Transfer (EBT) Food Benefits program, the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program, and the Children's Health Insurance Program (CHIP);
- the University of Wisconsin (UW) System, which administered federal student financial assistance under the Student Financial Assistance Cluster, a variety of research and development grants under the Research and Development Cluster, and portions of the Education Stabilization Fund (ESF) program;
- the Department of Public Instruction (DPI), which administered the Child Nutrition Cluster, the Special Education Cluster (IDEA), Title I Grants to Local Educational Agencies, and portions of the ESF program;
- the Department of Transportation (DOT), which administered the Highway Planning and Construction Cluster;
- DOA, which administered the Coronavirus Relief Fund (CRF), the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF), and the Low-Income Home Energy Assistance Program (LIHEAP);
- the Department of Workforce Development (DWD), which administered the Unemployment Insurance (UI) program; and
- the Department of Children and Families (DCF), which administered the Child Care and Development Fund (CCDF) Cluster.

Other State Agencies ²	13,554,095
Total	\$20,155,674,168

¹ Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

² Includes the federal expenditures incurred by the following state agencies: Wisconsin Historical Society, Department of Corrections, Wisconsin Elections Commission, Board for People with Developmental Disabilities, Child Abuse and Neglect Prevention Board, Public Defender Board, Wisconsin Court System, District Attorneys, Educational Communications Board, Employee Trust Funds, Department of Financial Institutions, Kickapoo Valley Reserve, State of Wisconsin Investment Board, Board on Aging and Long Term Care, Office of the Governor, Secretary of State, Office of the State Treasurer, and Wisconsin Employment Relations Commission.

8) INTRODUCTION

Uniform Guidance establishes the process for selecting the grant programs or clusters to be audited. Uniform Guidance categorizes federal programs as "type A" (large programs or clusters) and "type B" (smaller programs or clusters). For the State, type A programs or clusters had expenditures of \$30.2 million or more in federal funds. The type A and B programs or clusters selected for audit were those determined to be subject to a higher risk of noncompliance based on the risk factors established by Uniform Guidance.

Our audit focused on 22 federal programs or clusters administered by state agencies in FY 2021-22. As shown in Table 3, our FY 2021-22 audit focused on 16 type A programs or clusters and 6 type B programs or clusters. These programs or clusters were administered primarily by 12 state agencies and accounted for 58.9 percent of the \$20.2 billion in federal financial assistance administered by state agencies.

We also followed up on the status of corrective actions agencies took to address the audit findings we reported in our FY 2020-21 single audit report (report 22-5). Our FY 2021-22 single audit report also includes those findings that are required to be reported under Uniform Guidance, such as findings related to the audit of the State's financial statements. In addition, we noted certain additional internal control or compliance matters that we conveyed to agency management in separate communications.

Table 3

State of Wisconsin Federal Programs or Clusters Selected for Audit FY 2021-22

Total

\$11,876,429,974

¹ Uniform Guidance requires that certain federal programs be grouped into clusters, combined for federal reporting purposes, and audited as one overall program.

² Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

³ In accordance with federal requirements, consists of insurance benefits paid from employer contributions and direct federal funding.

Federal Funding for the Public Health Emergency

Total federal financial assistance increased by \$8.3 billion from \$11.9 billion in FY 2017-18 to \$20.2 billion in FY 2021-22, or by 70.0 percent. As shown in Figure 1, total federal financial assistance has increased since FY 2018-19 as a result of additional federal financial assistance to address the effects of the public health emergency.

¹ Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

- ² Includes \$3.4 billion of federal financial assistance related to the public health emergency, and separately identified in the SEFA.
- ³ Includes adjustment of prior-year total federal financial assistance due to transfers in FY 2021-22 of prior-year expenditures.
- ⁴ Includes \$6.1 billion of federal financial assistance related to the public health emergency, and separately identified in the SEFA.
- ⁵ Includes \$5.9 billion of federal financial assistance related to the public health emergency, and separately identified in the SEFA.

In March 2020, the federal government and the State declared a public health emergency in response to COVID-19. In response to the public health emergency, the federal government enacted legislation, including:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020;
- Families First Coronavirus Response Act;
- Coronavirus Aid, Relief, and Economic Security (CARES) Act;
- Consolidated Appropriations Act of 2021;
- Continued Assistance Act of 2020;
- Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA); and
- American Rescue Plan Act (ARPA) of 2021.

Under these and other federal laws, the State received additional federal funding for certain existing programs or clusters, including UI, as well as funding under new programs, including the CSLFRF program and Emergency Rental Assistance (ERA) Program. In report 22-23, we completed a limited-scope review of how DOA used supplemental federal funds provided in response to the public health emergency.

In the SEFA, the State reported \$5.9 billion in federal funding provided to address the public health emergency during FY 2021-22. As reported in the SEFA, the State expended \$3.4 billion in FY 2019-20, \$6.1 billion in FY 2020-21, and \$5.9 billion in FY 2021-22, in federal funding provided to address the public health emergency. The \$965.8 million in expenditures reported for the Medical Assistance (MA) Program was the largest amount of expenditures reported in the SEFA by the State in FY 2021-22 for the public health emergency. Other programs or clusters that received additional federal funding for the public health emergency as separately identified in the SEFA, are shown in Table 4.

Table 4

State of Wisconsin Federal Expenditures Related to the Public Health Emergency¹ FY 2021-22

Federal Program or Cluster ²	Agency	Expenditures ³
Medical Assistance (MA) Program	Department of Health Services	\$ 965,781,721
Supplemental Nutrition Assistance Program Cluster (SNAP) ⁴	Department of Health Services	823,729,307
Education Stabilization Fund (ESF)	Department of Public Instruction, University of Wisconsin System	599,904,265
Coronavirus State and Local Fiscal Recovery Funds (CSLFRF)	Department of Administration, Department of Health Services, Department of Revenue	559,178,943
Child Nutrition Cluster ⁴	Department of Public Instruction	505,240,433
Coronavirus Relief Fund (CRF) ⁴	Department of Administration, Department of Revenue	469,106,425

Low-Income Home Energy Assistance Program (LIHEAP)	Department of Administration	109,083,014
Other Federal Programs or Clusters ⁶		272,064,075
Total		\$5,924,394,633

¹ Expenditures for federal funding separately identified in the SEFA as related to the public health emergency.

² Uniform Guidance requires that certain federal programs be grouped into clusters, combined for federal reporting purposes, and audited as one overall program.

³ Includes cash assistance; noncash assistance, such as food commodities; and outstanding loan balances.

⁴ Under Uniform Guidance, this program/cluster was not selected for audit in FY 2021-22.

⁵ Insurance benefits paid from direct federal funding.

⁶ Includes expenditures under an additional 72 programs as reported in the SEFA.

Medical Assistance Program

In FY 2021-22, DHS reported \$965.8 million in additional federal funds received as a result of the public health emergency for the MA Program.

> DHS reported expending \$823.7 million in emergency SNAP funds in FY 2021-22.

The federal Families First Coronavirus Response Act provided a temporary 6.2 percent increase in Wisconsin's federal medical assistance percentage (FMAP) for benefit payments, subject to certain requirements to maintain benefits under the provisions in place as of January 2020. The FMAP is the percentage of MA Program expenditures the federal government will fund for the State. DHS reported an additional \$636.6 million in funding under the increased FMAP. In addition, DHS claimed an additional \$329.2 million in federal funding under Section 9817 of ARPA, which allowed for an additional 10.0 percent FMAP for certain home and community-based services provided to participants during the period from April 1, 2021, through March 31, 2022. In total, DHS reported in the SEFA that additional federal funds received as a result of the public health emergency were \$965.8 million for the MA Program during FY 2021-22.

In August 2018, the U.S. Department of Health and Human Services (DHHS) issued a disallowance related to Medicaid-related settlements for the MA Program. DHS partially disagreed with the conclusions and issued a formal objection letter in February 2021. In August 2022, DHHS issued a disallowance of \$24.9 million. DHS intends to appeal this decision, as described in Note 3A to the SEFA.

Supplemental Nutrition Assistance Program

The federal Families First Coronavirus Response Act granted additional flexibilities under SNAP, also known as FoodShare, that increased benefits provided through emergency allotments received by the State and also increased the number of individuals eligible for benefits. DHS reported \$823.7 million in emergency SNAP expenditures related to the public health emergency in the SEFA, including \$816.4 million in emergency SNAP benefits, during FY 2021-22.

Education Stabilization Fund

The ESF was created by the CARES Act, with additional funding provided by CRRSAA and ARPA. The purpose of the fund is to prevent, prepare for, and respond to the effects of the public health emergency on education. The ESF consists of four funds:

- Elementary and Secondary School Emergency Relief (ESSER) Fund;
- Emergency Assistance for non-Public Schools (EANS) Fund;

	 Governor's Emergency Education Relief (GEER) Fund; and
	 Higher Education Emergency Relief Fund (HEERF).
	During FY 2021-22, UW System and DPI reported in the SEFA that they expended a combined total of \$599.9 million under the ESF.
During FY 2021-22, UW System expended \$257.6 million under the ESF.	UW System expended ESF funds from the GEER Fund and HEERF. These funds were primarily used by UW institutions to provide grants to students affected by the public health emergency; recover lost revenues as a result of the public health emergency; provide COVID-19 testing; and to cover other costs associated with the public health emergency. UW System reported in the SEFA that it expended \$257.6 million from the ESF during FY 2021-22. In report 22-25, we completed a limited-scope review of UW System's administration of ESF funding.
During FY 2021-22, DPI expended \$342.3 million under the ESF.	DPI expended ESF funds from the ESSER Fund, the EANS Fund, and the GEER Fund. These funds were primarily provided to local educational agencies and private schools to address various needs related to the public health emergency, including personal protective equipment, sanitation, technology, and equipment. DPI reported in the SEFA that it expended \$342.3 million from the ESF during FY 2021-22.

Coronavirus State and Local Fiscal Recovery Funds

The CSLFRF was created by ARPA to distribute money directly to state, local, tribal, and territorial governments. The State was allocated \$3.0 billion in CSLFRF funding. In May 2021, the State was advanced \$1.5 billion, including \$205.8 million to distribute to local governments. In May 2022, the State was advanced the second round of funding, \$1.5 billion, including \$207.7 million to distribute to local governments. The amounts distributed to local governments are not reported on the State's SEFA. CSLFRF funding included certain stipulations, including that the funds must be used to:

- respond to the public health emergency or its negative economic effects;
- respond to the needs of workers performing essential work during the public health emergency;
- provide government services to the extent revenue losses due to the public health emergency reduced revenues; and
- make necessary investments in water, sewer, or broadband infrastructure.

During FY 2021-22, state agencies expended \$559.2 million under the CSLFRF.

As of February 2023, accounting records show a remaining balance of \$1.7 billion in CSLFRF funding.

During FY 2021-22, DPI expended \$505.2 million in funding related to the public health emergency under the Child Nutrition Cluster.

During FY 2021-22, state agencies expended \$469.1 million under the CRF. Further, federal regulations stipulate that eligible expenditures must be incurred between March 3, 2021, and December 31, 2024, and spent through December 31, 2026. State agencies reported in the SEFA that they expended \$559.2 million in funds from the CSLFRF during FY 2021-22. The largest portion of these expenditures were incurred by DHS, DOA, and the Department of Revenue (DOR). In report 22-11 we completed a limited-scope review of the Public Service Commission's use of CSLFRF funding for broadband expansion grants, and in report 22-21 we completed a limited-scope review of DOR's use of CSLFRF funding for the We're All In and Wisconsin Tomorrow programs.

As of February 28, 2023, accounting records show a remaining balance of \$1.7 billion, including \$35.7 million in interest earnings since inception of the program. As we stated in report 22-26, in December 2022 DOA indicated it had plans for using most of the remaining funds.

Child Nutrition Cluster

Under the federal Families First Coronavirus Response Act, the State received additional funding for the Child Nutrition Cluster to meet the additional demands and costs to serve school children. DPI administers the Child Nutrition Cluster, which traditionally funds free and reduced priced meals for children in attendance at local schools. In response to the public health emergency, the U.S. Department of Agriculture provided waivers for several program requirements under the Child Nutrition Cluster including a waiver of the operation deadlines for the Summer Food Service Program and National School Lunch Program, which allowed schools to choose which program to operate under through June 30, 2022. During FY 2021-22, DPI reported in the SEFA that it expended \$505.2 million in funding related to the public health emergency under the Child Nutrition Cluster.

Coronavirus Relief Fund

The federal CARES Act created the CRF to distribute money directly to state, local, tribal, and territorial governments. The federal government advanced \$2.0 billion in CRF funds to the State of Wisconsin in April 2020. The State was required to use the funds for expenses that were incurred in response to the public health emergency between March 1, 2020, and December 30, 2020. The federal Consolidated Appropriations Act of 2021 extended the time for expenditures to be funded by the CRF to December 31, 2021. The federal guidelines allowed expenditures to be recorded through September 30, 2022. CRF funds were expended in various ways to address the public health emergency, including on the statewide COVID-19 testing program; contact tracing; personal protective equipment and ventilators; assistance to local governments and businesses negatively affected by the public health emergency; and assistance to providers and hospitals

to compensate for additional expenditures to address the public health emergency.

In report 22-11 we completed a limited-scope review of the Public Service Commission's use of CRF funding for broadband expansion grants, and in report 22-21 we completed a limited-scope review of DOR's use of CRF funding for the We're All In and Wisconsin Tomorrow Programs. As reported in the SEFA, state agencies expended \$469.1 million in funds from the CRF during FY 2021-22. According to amounts reported by DOA in STAR, which is the State's accounting system, the full amount of CRF funds was expended by September 30, 2022.

Disaster Grants—Public Assistance (Presidentially Declared Disasters)

In February 2021, a presidential memorandum was issued extending certain federal support to increase the reimbursement and other assistance provided by the Federal Emergency Management Agency (FEMA) to states in order to combat COVID-19. The memorandum allowed FEMA to pay 100 percent of the costs of activities that had previously been determined to be eligible from the beginning of the public health emergency in January 2020 through the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant, which is administered by the Department of Military Affairs. In FY 2021-22, the State reported expending a total of \$347.0 million in funding related to the public health emergency under this grant. DOA and DHS received most of the funding under this program for expenditures related to the public health emergency, including for certain prior-year expenditures for which the funding source was changed in order to receive funding under this program. DOA reported in the SEFA that it expended \$174.5 million under this program during FY 2021-22 related to the public health emergency. DHS reported in the SEFA that it expended \$154.4 million under this program during FY 2021-22 related to the public health emergency

Unemployment Insurance

The federal CARES Act created several unemployment benefit programs to provide UI benefits to individuals whose employment was affected by the public health emergency. These programs, which began in March 2020, continued into FY 2021-22 and were extended by the federal Continued Assistance Act and ARPA. The CARES Act also established programs to provide relief to employers through federal reimbursement of certain regular unemployment benefits. During FY 2021-22, DWD reported in the SEFA that \$339.7 million of federal assistance was used to fund UI benefits for individuals whose employment was affected by the public health emergency. These federal unemployment benefits expired on September 4, 2021.

During FY 2021-22, the State expended \$347.0 million under the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant related to the public health emergency.

> During FY 2021-22, DWD expended \$339.7 million in federal funds to fund UI benefits for individuals whose employment was affected by the public health emergency.

Pandemic EBT Food Benefits Program

During FY 2021-22, DHS provided \$312.5 million in benefits under the Pandemic EBT Food Benefits program.

During FY 2021-22, DHS expended \$297.1 million in funding related to the public health emergency under the ELC program.

During FY 2021-22, DOA expended \$162.3 million under the ERA Program. Under the federal Families First Coronavirus Response Act, the Pandemic EBT Food Benefits program was created to provide nutrition assistance on EBT cards as temporary assistance for households with children affected by a school closure during the public health emergency. The federal government approved the State's plan to distribute these benefits for the 2021-2022 school year and approved the State's plan for the 2022-2023 school year. The federal government also approved the State's plan to distribute these benefits for both the summer of 2022 and 2023. DHS largely determined eligibility based on DPI student data for children eligible for the National School Lunch Program. DHS reported in the SEFA that it provided \$312.5 million in benefits for this program during FY 2021-22.

Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) Program

The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program assists states in protecting public health and safety by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging infectious diseases. DHS received a significant increase in funding for this program during the public health emergency. DHS, with the Wisconsin State Lab of Hygiene, expended ELC funds to increase the testing capacity for COVID-19, including payments to local public health agencies, testing sites, and laboratories. During FY 2021-22, DHS reported in the SEFA that it expended \$297.1 million in funding related to the public health emergency under the ELC program.

Emergency Rental Assistance Program

The Emergency Rental Assistance (ERA) Program was established under the federal Consolidated Appropriations Act of 2021 and further funded by ARPA to assist households that are unable to pay rent or utilities. The State was advanced \$322.2 million in ERA Program funding in January 2021 and \$112.5 million in June 2021. DOA is responsible for administering the program and reported in its eligibility and benefit determination system that a total of 31,224 individuals received rental and utility assistance benefit payments in FY 2021-22. In report 22-3, we completed a limited-scope review of the ERA Program. During FY 2021-22, DOA reported in the SEFA that it expended \$162.3 million under the ERA Program.

In February 2023, the U.S. Department of the Treasury (Treasury) provided DOA a \$31.4 million excess funds determination for the ERA funding received under ARPA for the quarter ended September 30, 2022. The amount was equal to the balance undrawn from Treasury as of the notification date. Treasury indicated the \$31.4 million will be deducted

During FY 2021-22, DCF expended \$161.7 million in funding related to the public health emergency under the CCDF Cluster.

During FY 2021-22, DOA expended \$109.1 million in funding related to the public health emergency under LIHEAP. from the remaining undisbursed ARPA ERA allocation for the State. DOA is appealing this decision, as described in Note 3E to the SEFA.

Child Care and Development Fund Cluster

The CCDF Cluster is the primary federal funding source to help certain low-income families access child care and to improve the quality of child care for all children. DCF was awarded additional federal funding for this program during the public health emergency, including \$51.6 million under the CARES Act, \$148.8 million under CRRSAA, and \$357.0 million under ARPA. As approved by the Joint Committee on Finance, this additional federal funding was primarily used for the Child Care Counts program, which provides assistance to child care providers affected by the public health emergency. During FY 2021-22, DCF reported in the SEFA that it expended \$161.7 million in funding related to the public health emergency under the CCDF.

Low-Income Home Energy Assistance Program

LIHEAP was established to provide energy assistance to eligible low-income home owners and renters to reduce the energy burden in heating and cooling individual's homes. DOA was awarded additional federal funding for this program during the public health emergency, including \$8.1 million under the CARES Act and \$150.6 million under ARPA. During FY 2021-22, DOA reported in the SEFA that it expended \$109.1 million in funding related to the public health emergency under LIHEAP.

Other Federal Funding for the Public Health Emergency

The remaining \$272.1 million in Table 4 related to other programs or clusters that received additional federal funding for the public health emergency as separately identified in the SEFA. The largest of these other expenditures included:

- \$48.8 million reported by DOT under the Highway Planning and Construction Cluster;
- \$37.9 million reported by DHS under the Immunization Cooperative Agreements program;
- \$23.0 million reported by DOT under the Formula Grants for Rural Areas and Tribal Transit Program;
- \$16.2 million reported by DOA under the Emergency Solutions Grant Program.

Public Health Emergency Expiration

Enhanced federal benefits provided during the public health emergency have begun to sunset in 2023. The U.S. Department of Health and Human Services has announced that it is planning for the public health emergency to expire on May 11, 2023. In addition, the Consolidated Appropriations Act of 2023, which was enacted in December 2022, began to change program benefits and flexibilities that were provided during the public health emergency. For example, emergency benefits provided under SNAP ended in February 2023, and the increased FMAP of 6.2 percent that had been in effect during the public health emergency will be phased out through December 2023. In addition, continuous enrollment requirements for the MA Program will end effective April 1, 2023, and DHS will begin the process of completing renewals and terminating enrollment for ineligible individuals. The "unwinding" period for continuous enrollment for the MA Program is expected to be completed by May 2024. We also note that some programs, such as the ERA Program, began to sunset in FY 2022-23.

Maximizing Federal Revenue— Medical Assistance Program

The U.S. Department of Health and Human Services provides funding to DHS for the MA Program. Participants in the MA Program may also be eligible for Medicare, and the State helps to pay for the Medicare premiums due from these participants. On a monthly basis, DHS receives invoices from the Centers for Medicare & Medicaid Services (CMS) that represent the State's share of participant premiums. Premium payments are due on the first of the month following receipt of the invoice and if amounts are not paid within the allowed grace period, CMS can issue a grant award notice to the State that reduces the State's MA Program award for the required payment amount.

In January 2021, DHS received invoices for Medicare premiums due to the federal government on February 1, 2021. The payment DHS made was not received by CMS within the allowed grace period. As a result, CMS issued an MA Program award reduction notice in March 2021 for \$43.0 million to cover the missed payments. Because DHS did, in fact, pay the February 1, 2021 invoices, DHS both paid the Medicare premiums and received an award reduction. DHS was unaware that this had occurred until we informed them in March 2023. We determined that DHS did not adequately review the award notice detailing the reduction and perform additional steps to assess if the award reduction was appropriate.

If DHS fails to pay Medicare premiums, the federal government can reduce the State's MA Program award.

DHS both paid Medicare premiums and received a \$43.0 million MA Program award reduction in 2021, but did not identify this until we informed it in March 2023.

☑ Recommendation

We recommend the Wisconsin Department of Health Services:

- work with the federal government to determine if the amount of the reduction for the federal fiscal year 2020-21 award for the Medical Assistance Program can yet be provided to the State; and
- implement procedures to review future Medical Assistance Program award notices and perform necessary follow-up to confirm the award amounts are appropriate.

DHS agreed with our recommendations and indicated the overpayment was the result of an infrequent occurrence where CMS reduced an award allocation in the amount of a missed payment. DHS indicated it will work with the federal government to obtain a credit on future Medicare premium invoices to effectively collect the overpayment. DHS also indicated it will add a reconciliation process improvement that will account for this exception, and it will work with the fiscal agent to ensure timely payment of the premiums.

Statewide Schedule of Expenditures of Federal Awards

DOA coordinates with the other state agencies to prepare the State of Wisconsin's Schedule of Expenditures of Federal Awards.

DHS agreed with our

\$43.0 million in lost

MA Program funding.

to work with the federal

government to recover the

recommendations and plans

Certain state agencies transferred prior-year expenditures between federal grant programs in FY 2021-22.

As a result of the transfer of prior-year expenditures, grant expenditures were underreported for certain grants. DOA is responsible for coordinating with the other state agencies to prepare the State of Wisconsin's SEFA. Each state agency prepares a SEFA for the federal programs that it administers, and DOA compiles the agency-level SEFAs into the statewide SEFA. DOA performs desk reviews of the agency-level SEFAs to ensure the expenditures reconcile to STAR.

During FY 2021-22, certain state agencies transferred FY 2019-20 and FY 2020-21 expenditures from the CRF and the ELC grant to the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant. In addition, during FY 2021-22 DOA transferred FY 2020-21 expenditures from the CSLFRF grant to the CRF grant. In the STAR General Ledger, the prior-year transferred expenditures resulted in a reduction in the CSLFRF, CRF, and ELC grant expenditures.

In compiling the FY 2021-22 statewide SEFA, DOA did not make a subsequent adjustment to remove the expenditure adjustments from the CSLFRF, the CRF, and the ELC grants. As a result, FY 2021-22 expenditures were underreported by \$192.1 million for the CSLFRF, by \$241.3 million the CRF, and by \$55.9 million for the ELC grant. Further, because the transfer of prior-year expenditures in the current year changed the prior-year total federal expenditures, there was a potential effect on the prior-year single audit results that could result in the need

to re-issue the prior-year single audit report. However, we assessed the revised total federal expenditures in FY 2019-20 and in FY 2020-21, and we determined that the audit results for FY 2019-20 and FY 2020-21 did not require an update.

After we had discussions regarding our concerns with the amounts reported in the draft SEFA, DOA corrected the under-reporting of expenditures for the CSLFRF, the CRF, and the ELC grants.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

- update its guidance and instructions to state agencies to reflect the need to evaluate adjustments of all prior-year expenditures and other material negative adjustments to current-year expenditures to ensure the current-year expenditures are reflected accurately; and
- consider if there are adjustments needed to its current desk-review procedures when evaluating the agency-level schedules of expenditures of federal awards.

DOA agreed with our recommendations and indicated plans to update its existing procedures when evaluating agency-level SEFA submissions. DOA also noted that it does not believe there is authoritative guidance regarding the treatment of transfers of prior-year expenditures in the SEFA and indicated plans to continue to seek federal confirmation on how to report this activity. Existing Uniform Guidance requires the State to report federal grant expenditures incurred in the fiscal year. The Bureau obtained confirmation from federal officials that reflecting the transfer of prior-year expenditures as a reduction of the current-year grant expenditures understates grant expenditures, and should be reflected in the notes to the SEFA, rather than as a reduction of current year grant expenditures. Further, training presented by federal officials in March 2022 also promoted this presentation of prior-year expenditure transfers.

Future Federal Funding

During FY 2022-23, and subsequent to our audit period, state agencies continued to spend federal funding provided to address the public health emergency. In addition, in November 2021 the federal government enacted the Infrastructure Investment and Jobs Act, which includes funding for transportation, drinking water programs, broadband programs, and cybersecurity initiatives. Portions of this funding will be received by the State through existing federal programs,

DOA indicated plans to update its existing procedures and plans to continue to seek federal confirmation on the reporting of prior-year expenditure transfers in the current SEFA.

22) INTRODUCTION

such as the Highway Planning and Construction grant and LIHEAP. We anticipate future single audits will also include audit work related to funding provided for new federal programs established under this federal law.

Auditor's Report

state of wisconsin Legislative Audit Bureau

Joe Chrisman State Auditor

22 East Mifflin Street, Suite 500 Madison, Wisconsin 53703 Main: (608) 266-2818 Hotline: 1-877-FRAUD-17 www.legis.wisconsin.gov/lab AskLAB@legis.wisconsin.gov

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters

Honorable Members of the Legislature

The Honorable Tony Evers, Governor

We have audited the financial statements and the related notes of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wisconsin, which collectively comprise the State's basic financial statements, as of and for the year ended June 30, 2022, and have issued our report thereon dated December 20, 2022.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States. The basic financial statements and related auditor's opinions have been included in the State of Wisconsin's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022.

Our report includes a reference to other auditors who audited the financial statements of the Environmental Improvement Fund, the Deferred Compensation Fund, the Wisconsin Housing and Economic Development Authority, the University of Wisconsin (UW) Hospitals and Clinics Authority, and the UW Foundation, as described in our report on the State of Wisconsin's basic financial statements. The financial statements of the Environmental Improvement Fund, the UW Hospitals and Clinics Authority, and the Wisconsin Housing and Economic Development Fund, the UW Hospitals and Clinics Authority, and the Wisconsin Housing and Economic Development Authority were audited in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that were reported on separately by those auditors. Although the financial statements of the Deferred Compensation Fund and the UW Foundation were audited in accordance with auditing standards generally accepted in the United States of America, they were not audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Deferred Compensation Fund and the UW Foundation were audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Deferred Compensation Fund or the UW Foundation.

Report on Internal Control over Financial Reporting

Management of the State of Wisconsin is responsible for establishing and maintaining effective internal control over financial reporting (internal control). In planning and performing our audit of the financial statements, we considered the State's internal control as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent misstatements, or to detect and correct misstatements on a timely basis. A *material weakness* is a

26) AUDITOR'S REPORT

deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the State's basic financial statements will not be prevented, or that a material misstatement will not be detected and corrected on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control that we consider to be significant deficiencies. Specifically, we consider the deficiencies in internal control, described in Section II of the Schedule of Findings and Questioned Costs as Findings 2022-001 through 2022-007, to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Responses to Findings

Government Auditing Standards require the auditor to perform limited procedures on the agency-specific written response to the findings identified in the audit and described in Section II of the Schedule of Findings and Questioned Costs. The corrective action plans for the findings identified in our audit are included in the Corrective Action Plans chapter. The responses and corrective action plans were not subjected to other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

This report is an integral part of an audit performed in accordance with Government Auditing Standards and should be used when considering the State's internal control and compliance. The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. Accordingly, this report is not suitable for any other purpose.

LEGISLATIVE AUDIT BUREAU

Legislative Andet Bream December 20, 2022

Auditor's Reports on Federal Programs

state of wisconsin Legislative Audit Bureau

Joe Chrisman State Auditor

22 East Mifflin Street, Suite 500 Madison, Wisconsin 53703 Main: (608) 266-2818 Hotline: 1-877-FRAUD-17 www.legis.wisconsin.gov/lab AskLAB@legis.wisconsin.gov

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by Uniform Guidance

Honorable Members of the Legislature

The Honorable Tony Evers, Governor

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited the State of Wisconsin's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the State of Wisconsin's major federal programs for the year ended June 30, 2022. The State of Wisconsin's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

The State of Wisconsin's basic financial statements include the operations of the following discretely presented component units, which expended federal awards that are not included in the State of Wisconsin's Schedule of Expenditures of Federal Awards for the year ended June 30, 2022: Wisconsin Housing and Economic Development Authority, Wisconsin Economic Development Corporation, and the University of Wisconsin Hospitals and Clinics Authority. Our audit, as described under the Auditor's Responsibility section of the report, did not include the operations of these discretely presented component units, because they engaged other auditors to perform an audit of compliance in accordance with audit requirements of Uniform Guidance.

Qualified Opinion on Emergency Rental Assistance Program

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the State of Wisconsin complied, in all material respects, with the types of compliance requirements referred to in the first paragraph that could have a direct and material effect on COVID-19—Emergency Rental Assistance Program (Assistance Listing number 21.023) for the year ended June 30, 2022.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Wisconsin complied, in all material respects, with the compliance requirements referred to in the first paragraph that could have a direct and material effect on each of its other major federal programs that are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2022.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those

30 AUDITOR'S REPORTS ON FEDERAL PROGRAMS

standards and Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the State of Wisconsin and to meet other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the State of Wisconsin's compliance with the compliance requirements referred to in the preceding section.

Matter Giving Rise to Qualified Opinion on Emergency Rental Assistance Program

As described in the accompanying Schedule of Findings and Questioned Costs, the State of Wisconsin did not comply with requirements for the COVID-19—Emergency Rental Assistance Program:

Assistance Listing Number	Major Federal Program	Compliance Requirement	Finding Number
21.023	COVID-19—Emergency Rental Assistance Program	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Eligibility	2022-102

Compliance with such requirements is necessary, in our opinion, for the State of Wisconsin to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management of each Wisconsin state agency is responsible for compliance with the requirements referred to in the first paragraph and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the State of Wisconsin's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to in the first paragraph occurred, whether due to fraud or error, and express an opinion on the State of Wisconsin's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Governmental Auditing Standards*, and Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the State of Wisconsin's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and Uniform Guidance, we exercised professional judgment and maintained professional skepticism throughout the audit. We also identified and assessed the risks of material noncompliance, whether due to fraud or error, and designed and performed audit procedures responsive to those risks. Such procedures included examining, on a test basis, evidence regarding the State of Wisconsin's compliance with the compliance requirements referred to in the first paragraph and performing such other procedures as we considered necessary in the circumstances.

In addition, we obtained an understanding of the State of Wisconsin's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the State of Wisconsin's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with Uniform Guidance and which are described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs as Findings 2022-001, 2022-100, 2022-101, 2022-103, 2022-104, 2022-300 through 2022-304, 2022-400, 2022-600, and 2022-700 through 2022-704. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Wisconsin state agencies' responses and corrective action plans to the noncompliance findings identified in our audit in the accompanying agency report narratives and in the Corrective Action Plans chapter, respectively. The responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs as Finding 2022-102 to be a material weakness.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying agency report narratives and in Section III of the Schedule of Findings and Questioned Costs as Findings 2022-001, 2022-007, 2022-100, 2022-101, 2022-103, 2022-104, 2022-302 through 2022-304, 2022-400, 2022-600, and 2022-700 to be significant deficiencies.

32) AUDITOR'S REPORTS ON FEDERAL PROGRAMS

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the Wisconsin state agencies' responses and corrective action plans to the internal control over compliance findings identified in our compliance audit described in the accompanying agency report narratives and in the Corrective Action Plans chapter, respectively. The responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on the Schedule of Expenditures of Federal Awards Required by Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for the State of Wisconsin as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the State of Wisconsin's basic financial statements. We have issued our report thereon dated December 20, 2022, which contains unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 20, 2022. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

LEGISLATIVE AUDIT BUREAU

Legislative Andet Breezen

March 29, 2023

Department of Administration

The Wisconsin Department of Administration (DOA) provides support services to other state agencies, manages certain housing and economic development activities, and performs other functions prescribed by law. DOA is also responsible for providing the Governor with fiscal management information and the policy alternatives required for preparing Wisconsin's biennial budget. In FY 2021-22, DOA administered approximately \$1.0 billion in federal financial assistance.

We tested DOA's internal controls and compliance with grant requirements for three type A programs: the Emergency Rental Assistance (ERA) Program (Assistance Listing number 21.023), Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) (Assistance Listing number 21.027), and Low-Income Home Energy Assistance Program (LIHEAP) (Assistance Listing number 93.568). We also tested the Home Investment Partnerships Program (Assistance Listing number 14.239), which is a type B program. We identified the following internal control and compliance concerns:

- Coronavirus State and Local Fiscal Recovery Funds—Unallowable Costs (Finding 2022-100);
- Low-Income Home Energy Assistance Program—Heating Benefit Calculation (Finding 2022-101);
- Emergency Rental Assistance Program—Documentation to Support Applicant Eligibility and Benefit Payments (Finding 2022-102);
- Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards (Finding 2022-103); and
- Low-Income Home Energy Assistance Program—Federal Funding Accountability and Transparency Act Reporting (Finding 2022-104).

In report 22-26 we evaluated DOA's internal controls over financial reporting for FY 2021-22. In Section II of the Schedule of Findings and Questioned Costs, which begins on page 83, we include three internal control concerns related to the State's information technology security controls managed by DOA (Findings 2022-002, 2022-003, and 2022-004).

In addition, we followed up on the progress of DOA in addressing Findings 2021-100 through 2021-105 of our FY 2020-21 audit (report 22-5). DOA implemented corrective actions to address Findings 2021-101 through 2021-105, and to partially address Finding 2021-100. We also followed up on the progress of DOA in addressing financial reporting concerns related to information technology security controls (Findings 2021-001 from report 22-5 and Finding 2020-001 from report 21-6). DOA implemented corrective actions to partially address Finding 2021-001 and Finding 2020-001. It will be important for DOA to continue to work to resolve these findings. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of these findings as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding 2022-100: Coronavirus State and Local Fiscal Recovery Funds—Unallowable Costs

Background:

The State was advanced \$1.3 billion in CSLFRF funding in May 2021 and another \$1.3 billion in May 2022. CSLFRF was created under the American Rescue Plan Act (ARPA) and is administered by DOA. CSLFRF funding has certain stipulations, including that the funds must be used to:

- respond to the public health emergency or its negative economic impacts;
- respond to the needs of workers performing essential work during the public health emergency;
- provide government services to the extent revenue losses due to the public health emergency reduced revenues; and
- make necessary investments in water, sewer, or broadband infrastructure.

Further, federal regulations stipulate that eligible expenditures must be incurred between March 3, 2021, and December 31, 2024, and funds must be spent through December 31, 2026.

DOA paid funds to other state agencies for programs they administered and spent funds on its own programs. Two of the programs established by DOA were the Live Event Small Business Grant Program and the Minor League Sports Team Grant Program. The Live Event Small Business Grant Program provided grants to eligible live event small businesses within the State of Wisconsin that generated 50.0 percent or more of their revenue through provision of goods and/or services to live venues. The Minor League Sports Team Grant Program provided grants to eligible Wisconsin-based minor league sports teams that had attendance of at least 30,000 and not more than 300,000 at events held in 2019. Applicants submitted application materials, including federal income tax information or total revenue, and awards were made after review and approval by DOA. Grant award amounts were determined based on the decrease in the applicant's federal taxable income or total revenue between calendar years 2019 and 2020, up to a maximum amount of \$200,000.

Criteria:

In accordance with 2 CFR s. 200.303, DOA is responsible for establishing and maintaining effective internal control over federal awards that provides reasonable assurance that it is managing federal awards in compliance with federal statutes, regulations, and the terms and conditions of federal awards. Further, under U.S. Department of the Treasury Final Rule (31 CFR Part 35), DOA must establish rigorous oversight and internal control processes to monitor compliance with any applicable requirements of CSLFRF funding.

Condition:

We identified that DOA made a payment of \$161,363 to an organization under both the Live Event Small Business Program and the Minor League Sports Team Grant Program. The applicant reported its 2019 and 2020 federal taxable income in both applications and its decrease in income from 2019 to 2020 was \$161,363. DOA paid the organization \$161,363 under the Minor League Sports Team Grant Program on January 5, 2022, and then paid the organization \$161,363 under the Live Event Small Business Program on January 12, 2022.

Context:

During FY 2021-22, DOA expended \$185.2 million in CSLFRF funding, including providing \$11.2 million to 96 organizations under the Live Event Small Business Grant Program and \$2.8 million to 17 organizations under the Minor League Sports Team Grant Program. We interviewed DOA staff, reviewed applications, and examined payment documentation for these programs.

Questioned Costs:

\$161,363

Effect:

Without adequate internal controls in place, DOA is at increased risk of making inappropriate payments using CSLFRF funding.

Cause:

When administering the CSLFRF grant, DOA did not establish effective internal controls to assess the appropriateness of making a payment to an applicant that applies under multiple programs. DOA staff indicated that such controls were implemented for certain programs where DOA anticipated an applicant might apply under more than one program. However, DOA indicated that it had not anticipated that an applicant would apply under both the Live Event Small Business Grant Program and the Minor League Sports Team Grant Program.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

- develop and implement controls to identify when an applicant applies for funding under multiple programs and to assess the appropriateness of whether it would be making payments to an applicant that applies under multiple programs; and
- review the specific payments made to the organization we identified and seek repayment of the amount that was made inappropriately.

Finding 2022-100: Coronavirus State and Local Fiscal Recovery Funds— Unallowable Costs

COVID-19–Coronavirus State and Local Fiscal Recovery Funds (Assistance Listing number 21.027)

<u>Award Number</u>	<u>Award Year</u>
None	2021
Questioned Costs: \$161,363	

Type of Finding: Significant Deficiency, Noncompliance

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

Finding 2022-101: Low-Income Home Energy Assistance Program— Heating Benefit Calculation

Background:

The U.S. Department of Health and Human Services (DHHS) provides funding to DOA's Division of Energy, Housing, and Community Resources (DEHCR) for LIHEAP. This program is used to provide energy assistance to eligible low-income home owners and renters to reduce the energy burden in heating their homes. DOA uses the Home Energy (HE) Plus computer system to determine eligibility for individuals applying for benefits, calculate heating benefits, and store information on applicants and beneficiaries. Program benefits are calculated based on applicant information that is entered into Home Energy (HE) Plus by DOA's local agency partners. DOA submits an annual state plan to DHHS for LIHEAP. This state plan includes the estimated program benefit levels, as well as other information. In the federal fiscal year 2022 state plan, DOA estimated a minimum program benefit award amount of \$30 and a maximum program benefit award amount of \$1,518.

Criteria:

Under 42 U.S. Code ch. 94, states are required to provide in a timely manner the highest level of assistance to those households with the lowest incomes and the highest energy costs or needs relative to income and family size.

Under 2 CFR 200.303, DOA is responsible for establishing and maintaining effective internal control over federal awards to provide reasonable assurance that federal awards are managed in compliance with federal statutes, regulations, and the award terms and conditions.

Condition:

After we asked questions about the calculation of the maximum heating benefit award amount, DOA informed us that it did not accurately calculate the maximum heating benefit award amount for inclusion in its state plan. Specifically, DOA did not include the adjusted benefit factor, which is used to estimate total caseload and total budget for the year to ensure that as many eligible applicants may be served as possible. As noted, DOA calculated a maximum heating benefit award amount of \$1,518. When the adjusted benefit factor was included in the calculation, the maximum heating benefit award amount increased to \$2,407.

Context:

In FY 2021-22, DOA expended \$205.6 million under the LIHEAP grant, including providing \$80.6 million in heating benefits to over 190,000 households. We inquired of DOA staff regarding the LIHEAP benefit calculation and how it is determined. We tested the heating benefit calculation and analyzed DOA's determination of the number of households affected by the error DOA made in calculating the maximum heating benefit amount.

Questioned Costs:

None.

Effect:

As a result of the error in calculating the maximum heating benefit award amount, DOA determined that it underpaid LIHEAP benefits for 605 households in FY 2021-22. DOA calculated that the 605 households were underpaid a total of \$130,352 in heating benefits. At the time of our fieldwork in February 2023, DOA was in the process of recalculating heating benefits and issuing supplemental heating benefit payments.

Cause:

DOA staff indicated that the underlying parameters for determining the LIHEAP heating benefit maximum are calculated using an external Microsoft Access database. DOA Division of Enterprise Technology staff manually load these parameters into the benefit factor table into Home Energy (HE) Plus. DEHCR staff indicated they perform a review of the parameters after they are loaded into Home Energy (HE) Plus. However, this review was not effective in identifying the error in the maximum heating benefit award amount, and DOA did not document the performance of the review.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

 establish and implement written procedures for making updates to the benefit calculation parameters in the Home Energy (HE) Plus application;

- reassess its existing procedures for performing a review of the benefit calculation parameters entered into the Home Energy (HE) Plus application, make adjustments to its existing procedures as necessary, and document the performance of each review; and
- complete its review of the 605 households that were underpaid heating benefits due to the error and issue supplemental heating benefit payments.

Finding 2022-101: Low-Income Home Energy Assistance Program— Heating Benefit Calculation

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

Finding 2022-102: Emergency Rental Assistance Program—Documentation to Support Applicant Eligibility and Benefit Payments

Background:

The ERA Program was established in FY 2020-21 under the federal Consolidated Appropriations Act of 2021 and was continued in FY 2021-22 under ARPA. The ERA Program is administered by the U.S. Department of the Treasury (Treasury) and was established to assist households that are unable to pay rent or utilities. In January 2021, DOA was advanced \$322.2 million in ERA 1 funding. In May and June 2021, DOA was advanced \$112.5 million in ERA 2 funding. Federal requirements under ERA 1 and ERA 2 are similar with some variation in the income eligibility requirements. DOA established the Wisconsin Emergency Rental Assistance (WERA) program using the federal ERA Program funding. According to DOA's *WERA Program Manual*, ERA 1 was fully expended as of February 24, 2022, and ERA 2 policies were established as of September 2, 2021.

To administer the WERA program, DOA contracted with community action agencies, including the Wisconsin Community Action Program (WISCAP) Association, and Energy Services, Inc. (ESI), to intake and review individual applications for eligibility. The community action agencies and ESI were responsible for entering the applications into

DOA's Home Energy (HE) Plus computer system, which was used to determine and process the benefit payment amount. To receive assistance through the WERA program, an individual must first apply for the Wisconsin Home Energy Assistance Program (WHEAP) and have an active application in Home Energy (HE) Plus.

We identified concerns with DOA's administration of the WERA program as part of our performance evaluation of the Emergency Rental Assistance and Emergency Solutions Grant programs (report 22-3) and our FY 2020-21 single audit (report 22-5). We made recommendations for DOA to make improvements (Finding 2021-104 in report 22-5). In response to our recommendations, DOA updated its policies and procedures in the *WERA Program Manual*, effective June 30, 2022, and provided training to the community action agencies and ESI.

Criteria:

Under Treasury guidance, to be eligible for DOA's WERA program a household must be obligated to pay rent on a residential dwelling and:

- at least one individual within the household must qualify for unemployment benefits or has experienced a reduction in household income, incurred significant costs, or experienced other financial hardship because of the public health emergency; and
- at least one individual within the household must be at risk of experiencing homelessness or housing instability; and
- the total household income must be 80 percent or less of the median income in the county where the household is located (ERA 1 funding), or the household must be a low-income family as defined in 42 U.S.C. 1437a(b) (ERA 2 funding).

Treasury guidance allows the State to rely on self-attestation for verification of an applicant's income. If a household meets the eligibility requirements based on a written attestation without further documentation, Treasury guidance indicates that the State must redetermine household income every three months by requesting that applicants submit documentation or a written attestation.

Treasury guidance indicates that applicants must provide a current lease that is signed by the applicant and the landlord identifying the rental unit and the rental payment amount. If a lease is unavailable, other documentation of residence should be obtained, such as a utility bill. Further, Treasury guidance indicates that if the applicant cannot present documentation of the amount of rent, a written attestation may be accepted for up to three months. If additional assistance is needed after that time, documentation of the rent amount is required.

Treasury guidance requires that all payments for utilities and home energy costs be supported by a bill, invoice, or evidence of payment to the utility provider or home energy service.

To make benefit payments under the WERA program, DOA requires:

 an income attestation form, which indicates that the applicant has been unable to pay rent and/or utilities and is at risk of losing housing or facing eviction due to COVID-related events, states that the applicant is not receiving other federally funded emergency rental assistance, and describes why income was impacted;

- a renter verification form, which indicates applicant name and applicant rental information, such as landlord, rent amount, and description of assistance requested; and
- supporting documentation, such as invoices, utility bills, a lease agreement, or other documentation.

Further, when recertifying an applicant for eligibility after three months, DOA's *WERA Program Manual* indicates that the client's current income must be reviewed, notes are required to be entered into Home Energy (HE) Plus indicating how the income eligibility was calculated, and an updated renter verification form is to be uploaded into Home Energy (HE) Plus.

Condition:

We tested a sample of 60 individuals who applied for and received benefits under the WERA program. In our testing, we found that DOA did not have sufficient documentation in Home Energy (HE) Plus to demonstrate that all of the applicants were eligible to receive benefits under the program or that the costs were allowable to be funded by the ERA Program. We found concerns with:

- the income attestation forms for 10 of 60 individuals, where DOA did not have documentation of a completed income attestation form or the income attestation form was at least 90 days old at the time of application;
- the income recertification documentation for 6 of 9 individuals in our sample where DOA did not have documentation that a timely income recertification was completed;
- the renter verification form for 7 of 60 individuals, where DOA did not have documentation of a completed form or the form was from a prior application for funding and was not updated; and
- utility assistance for 5 of 14 individuals in our sample where DOA did not have documentation to support the amounts paid.

We also identified other documentation concerns that were not material but that we verbally discussed with DOA staff.

Context:

In FY 2021-22, DOA processed \$135.5 million in ERA Program benefit payments, using Home Energy (HE) Plus, of which \$132.1 million was made to either landlords or tenants and \$3.4 million was made to utility companies. A total of 31,224 households were reported in Home Energy (HE) Plus as having received rental and utility assistance benefit payments under the ERA Program in FY 2021-22.

We evaluated Treasury guidance related to the ERA Program, discussed the application procedures with DOA staff, and reviewed DOA's *WERA Program Manual*. We selected

a random sample of 60 individuals who received ERA Program benefits in FY 2021-22 and reviewed available documentation in Home Energy (HE) Plus.

Questioned Costs:

We question \$52,562 in rental and utility assistance payments for which DOA did not have adequate supporting documentation in Home Energy (HE) Plus. We removed instances of duplication in the documentation concerns we identified and determined that questioned costs includes:

- \$30,258 in benefits paid for 10 individuals for whom DOA did not have documentation of a completed or timely income attestation form;
- \$10,878 in benefits paid for 4 individuals for whom DOA did not have documentation of a timely income recertification;
- \$9,150 in benefits paid for 3 individuals for whom DOA either did not have documentation of a renter verification form or did not have a current renter verification form; and
- \$2,276 in benefits paid for 5 individuals for whom DOA did not have documentation of payments made for utility assistance.

We also question an undetermined amount for individuals that we did not test.

Effect:

DOA provided rental and utility assistance to individuals who may have been ineligible to receive ERA Program benefits, which may have resulted in improper payments.

Cause:

During FY 2021-22, DOA did not provide sufficient oversight and training to ESI and the community action agencies that were responsible for entering the applicant information into Home Energy (HE) Plus and ensuring the appropriate supporting documentation was entered into the system. Further, DOA's *WERA Program Manual* did not clearly address all Treasury documentation requirements to determine eligibility or allowability of costs. For example, DOA's *WERA Program Manual* did not specify that a lease must be provided, if available, or the requirement that an applicant must provide documentation of rental amounts if assistance is requested for longer than three months. In response to our prior-year recommendation, DOA provided training to the community action agencies and ESI in June 2022, and updated the *WERA Program Manual* as of June 30, 2022.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

- obtain the required documentation for the 22 individuals we identified or seek to recoup improper benefit payments it made to these individuals;
- closely monitor the documentation being accepted by the community action agencies and Energy Services, Inc., and provide further training to address individual instances of noncompliance

with the Wisconsin Emergency Rental Assistance Program Manual and guidance from the U.S. Department of the Treasury; and

 regularly review and update its procedures to ensure that it is following the guidance from the U.S. Department of the Treasury in administering the Wisconsin Emergency Rental Assistance program.

Finding 2022-102: Emergency Rental Assistance Program–Documentation to Support Applicant Eligibility and Benefit Payments

COVID-19–Emergency Rental Assistance Program (Assistance Listing number 21.023)

<u>Award Number</u>	<u>Award Year</u>
None	2021

Questioned Costs: \$52,562

Type of Finding: Material Weakness, Material Noncompliance

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendation.

Finding 2022-103: Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards

Background:

The DOA State Controller's Office (SCO) is responsible for coordinating with the other state agencies to prepare the State of Wisconsin Schedule of Expenditures of Federal Awards (SEFA). The SEFA, which is required to be published in the State of Wisconsin single audit report, is a listing of all federal programs administered by an entity, includes the total expenditures for the reporting period, and identifies any amounts provided to subrecipients for each federal program.

Each state agency prepares a SEFA for the federal programs that it administers. For federal programs administered by DOA, the DOA Bureau of Financial Management (BFM) prepares the SEFA and provides this SEFA to DOA SCO. DOA SCO compiles the agency-level SEFAs into the statewide SEFA. DOA SCO performs desk reviews of the agency-level SEFAs to ensure the expenditures reconcile to the accounting records in STAR, which is the State's accounting system.

Criteria:

Under 2 CFR 200.510 (b), the State is required to prepare a SEFA for the period covered by the State's financial statements and the SEFA must include the total federal awards expended. Under 2 CFR 200.502, the determination of when a federal award is expended must be based on when the activity related to the federal award occurs. Finally, 2 CFR 200.514 indicates that the financial statements and SEFA must be for the same audit period.

Generally accepted accounting principles require that the correction of prior-period amounts in the financial statements should be reported as an adjustment to the opening fund balance and not be reported as an adjustment to the current-year activity. Further, the adjustment and its effects should be disclosed in the footnotes. These concepts are similarly applied to the preparation of the SEFA.

Condition:

During FY 2021-22, DOA BFM transferred FY 2020-21 expenditures from the CSLFRF grant to the Coronavirus Relief Fund (CRF) (Assistance Listing number 21.019). In addition, during FY 2021-22 DOA BFM transferred FY 2019-20 and FY 2020-21 expenditures from the CRF to the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant (Assistance Listing number 97.036). In the STAR General Ledger, the prior-year transferred expenditures resulted in a reduction in the CSLFRF and CRF grant expenditures. In reporting these amounts in the FY 2021-22 SEFA, DOA BFM did not make a subsequent adjustment to remove the expenditure adjustments from the CSLFRF and CRF grants.

Context:

The State administered and reported in its SEFA \$20.2 billion in federal financial assistance in FY 2021-22. DOA administered \$990.5 million in federal financial assistance in FY 2021-22. We reviewed DOA's SEFA to assess the reported expenditures, particularly for major programs.

Questioned Costs:

None.

Effect:

In preparing its FY 2021-22 SEFA, DOA BFM underreported expenditures for CSLFRF by \$192.1 million and for the CRF by \$241.3 million. Further, because the transfer of prior-year expenditures in the current year changed the prior-year total federal expenditures, there is a potential effect on the prior-year single audit results that could result in the need to re-issue the prior-year single audit report. However, we assessed the revised total federal expenditures in FY 2019-20 and in FY 2020-21 and we determined that the audit results for FY 2019-20 and FY 2020-21 did not require an update.

Cause:

DOA BFM sought to reflect the expenditures for DOA's grant programs based on the amounts recorded in the STAR General Ledger. However, DOA BFM did not consider that the negative expenditures, resulting from the transfers of FY 2019-20 and FY 2020-21 expenditures led to underreporting of the grant expenditures in the SEFA.

☑ Recommendation

We recommend the Wisconsin Department of Administration:

 further evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards and ensure it is adjusting expenditures for all prior-year transfers of expenditures in the current year; and

44) DEPARTMENT OF ADMINISTRATION

 carefully assess the transfer of prior-year expenditures in the current year to determine any potential effects on the total federal expenditures for the prior-year and the effect on the major program expenditures.

Finding 2022-103: Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards

COVID-19-Coronavirus Relief Fund (Assistance Listing number 21.019)

<u>Award Number</u>	<u>Award Year</u>

Questioned Costs: None

COVID-19–Coronavirus State and Local Fiscal Recovery Funds (Assistance Listing number 21.027)

Award Number	<u>Award Year</u>
None	2021

Questioned Costs: None

Type of Finding: Significant Deficiency, Noncompliance

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

Finding 2022-104: Low-Income Home Energy Assistance Program—Federal Funding Accountability and Transparency Act Reporting

Background:

DHHS provides funding to DEHCR for LIHEAP. This program is used to provide energy assistance to eligible low-income home owners and renters to reduce the energy burden in heating and cooling their homes.

LIHEAP subawards of \$30,000 or more are subject to Federal Funding Accountability and Transparency Act (FFATA) reporting. The intent of FFATA is to provide information about federal awards to allow the public access to the information to hold the government accountable for decisions. DEHCR developed a procedure to track subaward information for the LIHEAP grant, and this information was provided to the DOA Division of Executive Budget and Finance, which was responsible for entering the information into the FFATA Subaward Reporting System (FSRS).

Criteria:

Under 2 CFR s. 170, DOA is required to report in FSRS subawards of \$30,000 or more, including any amendments or modifications to a subaward. This reporting is to be submitted no later than the last day of the month following the month in which the creation or change to the subaward was made. For example, if the subaward was made on November 7, 2021, it must be reported in FSRS not later than December 31, 2021.

DOA identifies subawards required to be reported in FSRS for LIHEAP and tracks the subawards in a spreadsheet.

Condition:

We found that DOA did not complete FFATA reporting for any LIHEAP subawards in FY 2021-22. In its tracking spreadsheet, DOA reported the following LIHEAP subawards:

- 18 subawards were entered into in June 2021;
- 4 subawards were entered into in September 2021;
- 2 subawards were entered into in October 2021;
- 1 subaward was entered into in November 2021;
- 14 subawards were entered into in May 2022; and
- 4 subawards were entered into in June 2022.

However, DOA did not enter these subawards into FSRS until February 21, 2023 and March 2, 2023, at the time of our audit fieldwork.

Context:

During FY 2021-22, DOA expended \$205.6 million under LIHEAP of which \$17.2 million was provided to subrecipients. We interviewed DOA staff to gain an understanding of the procedures for compiling information for subawards and submitting the information in FSRS.

Questioned Costs:

None.

Effect:

DOA did not comply with FFATA requirements for the timely reporting of subawards in FSRS for the LIHEAP grant.

Cause:

DEHCR used an old LIHEAP federal award identification number (FAIN) when providing the subaward information to the DOA Division of Executive Budget and Finance, which resulted in the subaward information being rejected in FSRS. Staff in the Division of Executive Budget and Finance assumed the LIHEAP subaward information was rejected because the FAIN had not been established in FSRS by the federal government. In February 2023, when DOA conducted a review of FFATA reporting, it became aware that an incorrect FAIN for LIHEAP was used. In February and March 2023, DOA entered the subawards in FSRS with the correct FAIN.

☑ Recommendation

We recommend the Wisconsin Department of Administration improve its Federal Funding Accountability and Transparency Act reporting procedures to ensure:

- accurate award information, including the federal award identification number, is being used;
- rejected subaward information is reviewed and communicated to the appropriate program staff for investigation and resolution;
- documentation of rejected subaward information is maintained to demonstrate that the Department of Administration attempted to enter the subaward information; and
- all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and submitted to the Federal Funding Accountability and Transparency Act Subaward Reporting System in a timely manner.

Finding 2022-104: Low-Income Home Energy Assistance Program—Federal Funding Accountability and Transparency Act Reporting

Low-Income Home Energy Assistance Program (Assistance Listing number 93.568)

Award Numbers	Award Years
2101WILIEA	10/1/20-9/30/21
2201WILIEA	10/1/21-9/30/22

Type of Finding: Significant Deficiency, Noncompliance

Response from the Wisconsin Department of Administration: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

....

Department of Health Services

The Wisconsin Department of Health Services (DHS) provides services to clients in communities and institutions, regulates certain care providers, and supervises and consults with local public and volunteer agencies. It administers state and federal programs involving public health, mental health, substance abuse, long-term care, services to people with disabilities, and medical care. In FY 2021-22, DHS administered \$11.9 billion in federal financial assistance.

We tested DHS's internal controls and compliance with grant requirements for three type A programs: WIC Special Supplemental Nutrition Program for Women, Infants, and Children (Assistance Listing number 10.557), Immunization Cooperative Agreements (Assistance Listing number 93.268), and Medicaid Cluster (Assistance Listing numbers 93.775/93.777/93.778). In addition, we tested internal controls and compliance with grant requirements for two type A programs from which DHS received funding from other state agencies: the Disaster Grants—Public Assistance (Presidentially Declared Disasters) (Assistance Listing number 97.036) from the Department of Military Affairs, and the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) (Assistance Listing number 21.027) from the Department of Administration (DOA). We also tested Pandemic EBT Administrative Costs (Assistance Listing number 10.649), which is a type B program. We identified the following internal control and compliance concerns:

- Disaster Grants—Public Assistance (Presidentially Declared Disasters)—Unallowable Costs (Finding 2022-300);
- Medical Assistance Program—Home and Community Based Services Unallowable Costs (Finding 2022-301);
- Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards (Finding 2022-302);
- Federal Funding Accountability and Transparency Act Reporting— Immunization Cooperative Agreements (Finding 2022-303); and

 Coronavirus State and Local Fiscal Recovery Funds—Monitoring of Local and Tribal Health Department Response and Recovery Support Program Expenditures (Finding 2022-304).

In report 22-26, we evaluated DHS's internal controls over financial reporting for FY 2021-22. In Section II of the Schedule of Findings and Questioned Costs, which begins on page 83, we include two internal control deficiencies (Findings 2022-001 and 2022-005) related to internal controls over financial reporting for the MA Program. In addition, Finding 2022-001 is a significant deficiency related to DHS's internal controls over compliance and an instance of noncompliance with federal requirements, which requires reporting for the MA Program.

In addition, we followed up on the progress of DHS in addressing Findings 2021-300 through 2021-308 of our FY 2020-21 audit (report 22-5), as well as Findings 2020-301, 2020-303, 2020-304, 2020-306, 2020-307, and 2020-309 of our FY 2019-20 audit (report 21-6) and Findings 2018-303 of our FY 2017-18 audit (report 19-3). DHS implemented corrective actions to address Findings 2021-302, 2021-303, 2021-306, 2020-301, 2020-304, 2020-306, 2020-307, 2018-303, and to partially address Findings 2021-300, 2021-301, 2021-305, 2021-308, and 2020-303. DHS did not implement corrective actions to address Findings 2021-307, and 2020-309. It is important for DHS to work to resolve these findings. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding 2022-300: Disaster Grants—Public Assistance (Presidentially Declared Disasters)—Unallowable Costs

Background:

In February 2021, a presidential memorandum was issued extending certain federal support to increase the reimbursement and other assistance provided by the Federal Emergency Management Agency (FEMA) to states in order to combat COVID-19. The memorandum allowed FEMA to pay 100 percent of the costs of activities that had previously been determined to be eligible from the beginning of the public health emergency in January 2020. This funding was provided through the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant (Assistance Listing number 97.036). As a result, DHS changed the funding source of certain expenditures from a prior fiscal year by moving them to this grant in FY 2021-22.

Criteria:

Under 2 CFR 200.403, costs charged to a federal award must be necessary and reasonable for the performance of the federal award and be adequately documented. In addition, 2 CFR 200.402 requires that these costs must be reduced by any applicable credits, such as refunds for overpayments.

Condition:

In information submitted to FEMA to support reimbursement for costs related to personal protective equipment, we identified that DHS received reimbursements for transactions totaling \$855,368 that should not have been included in its reimbursement

request. Specifically, we found that DHS included a \$395,000 payment for which it received a refund from the vendor. In addition, we found that DHS included a payment for \$460,368 twice within the supporting documentation it provided to FEMA for its reimbursement request.

Context:

During FY 2021-22, DHS received reimbursements for costs associated with the public health emergency totaling \$154.4 million from the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant. We reviewed the supporting documentation for the two largest reimbursements and tested a selection of expenditures.

Questioned Costs:

\$855,368

Effect:

Because it received Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant funding for inappropriate expenditure transactions, DHS was not in compliance with federal requirements.

Cause:

The inappropriate expenditure transactions we identified were included in the first large reimbursement request prepared by DHS, which was based on information provided by another state agency. At the time of this reimbursement request, DHS did not have procedures in place to identify duplicate or refunded payments within the data used to support the reimbursement request. DHS staff indicated that subsequent reimbursement requests were prepared using DHS queries from STAR, which is the State's accounting system, that removed duplicated or refunded transactions. We did not identify issues in the other reimbursement request we reviewed.

☑ Recommendation

We recommend the Wisconsin Department of Health Services work with the federal government to resolve the \$855,368 in unallowable costs we identified.

Finding 2022-300: Disaster Grants—Public Assistance (Presidentially Declared Disasters)—Unallowable Costs

COVID-19–Disaster Grants–Public Assistance (Presidentially Declared Disasters) (Assistance Listing number 97.036)

Award Number Award Year

4650DR4520PA 2022

Questioned Costs: \$855,368

Type of Finding: Noncompliance

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendation.

Finding 2022-301: Medical Assistance Program—Home and Community-Based Services Unallowable Costs

Background:

The U.S Department of Health and Human Services (DHHS) provides funding to DHS for the Medical Assistance (MA) Program (Assistance Listing number 93.778). Funding under the MA Program is used to assist states in maintaining and expanding health care services to certain categories of low-income persons. Under the MA Program, a state may obtain a waiver to provide Home and Community-Based Services (HCBS). Such a waiver may permit an individual to receive services in their own home or community rather than in institutions or other isolated settings. Under 1915(c) of the Social Security Act, Wisconsin has an approved waiver to administer the Include, Respect, I Self-Direct (IRIS) program. This program provides services to MA-eligible adults that facilitates participant choice, direction, and control over services designed to provide HCBS services as an alternative to institutional care.

During FY 2021-22, DHS contracted with seven independent consulting agencies (ICA) that assisted IRIS participants in developing individual support and service plans that will meet each participant's needs within the participant's approved IRIS annual budget. Included in this plan are authorizations for specific services, the name of the entity or individuals to provide the goods or services, and the amount or frequency of goods or services. For example, a plan may include services that will be provided by a caretaker and could include the provider name, number of hours for a specific period, and the billing rate. These plans are approved by the ICA, with additional DHS approval required for certain services. DHS also contracted with four fiscal employer agents (FEAs) that are responsible for reviewing invoices in accordance with the approved individual support and service plan and for making payments. This review may include payments for services based upon an invoice or review of timesheets to support that the services were provided to the participant. The FEA submits to DHS information related to the approved payments, and DHS makes funds available to enable the FEA to make the payments. DHS reviews the total payment requests it received from each FEA before transferring funds to the FEA for payment to providers.

Criteria:

The approved waiver for IRIS requires the creation of an individual support and service plan and for services to be provided in accordance with this service plan. DHS has established the *IRIS Policy Manual*, which provides guidance to FEAs on determining allowed payments and requires a review of provider claims to ensure the claims are supported by documentation and the participant's approved individual support and service plan.

Condition:

We tested a sample of 26 payments and identified one payment for \$5.60 that DHS paid during FY 2021-22 for which it could not provide documentation to support that the payment was for services authorized in the participant's individual support and service plan.

Context:

Based on detailed payment data provided by DHS, there were approximately 12 million individual payments totaling \$711.9 million paid to providers for care or services to IRIS participants during FY 2021-22. Payments under the program were generally small and,

based upon the data provided, averaged \$59.33 per payment. We selected a random sample of 26 payments and requested supporting documentation to support the payment and the related participant's individual support and service plan authorizing the goods or services. We also interviewed DHS staff on the payment process and its oversight of the entities responsible for administering the IRIS program.

Questioned Costs:

We question the federal share of the unsupported \$5.60 payment identified, or \$3.70. Because our testing was based upon a sample of payments, it is likely there are additional cases where the payment is not supported. We estimate these additional questioned costs are likely over \$25,000, which is required to be reported under 2 CFR 200.516.

Effect:

DHS did not comply with its approved waiver and inappropriately paid an IRIS provider for amounts that were not supported for the participant.

Cause:

Although we found the FEA approved the payment, the FEA indicated that there was an error made in entering the payment because the payment was not associated with the participant identified within the claim documentation. DHS, in reviewing the payment file from the FEA, did not review the detailed support for each individual IRIS claim payment and, therefore, DHS did not detect the error.

☑ Recommendation

We recommend the Wisconsin Department of Health Services work with the fiscal employer agent that improperly approved the payment we identified to determine how this payment was made, assess whether changes to current processes are needed, document its assessment, and implement corrective actions, as appropriate.

Finding 2022-302: Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards

Background:

The DOA, State Controller's Office (SCO) is responsible for coordinating with the other state agencies to prepare the State of Wisconsin Schedule of Expenditures of Federal Awards (SEFA). The SEFA, which is required to be published in the State of Wisconsin single audit report, is a listing of all federal programs administered by an entity, includes the total expenditures for the reporting period, and identifies any amounts provided to subrecipients for each federal program. Each state agency, including DHS, prepares a SEFA for the federal programs that it administers and provides this to DOA SCO. DOA SCO compiles the agency-level SEFAs into the statewide SEFA. DOA SCO performs desk reviews of the agency-level SEFAs to ensure the expenditures reconcile to the accounting records in STAR, which is the State's accounting system.

Criteria:

Under 2 CFR 200.510 (b), the State is required to prepare a SEFA for the period covered by the State's financial statements and the SEFA must include the total federal awards expended. Under 2 CFR 200.502, the determination of when a federal award is expended must be based on when the activity related to the federal award occurs. Further, 2 CFR 200.514 indicates that the financial statements and SEFA must be for the same audit period. Finally, in accordance with *Office of Management and Budget (OMB) Compliance Supplement*, recipients and subrecipients of federal funding provided under the COVID-19 Emergency Acts, which includes funding the State received under the American Rescue Plan Act (ARPA), must separately identify the COVID-19 expenditures in the SEFA. Further, in its instructions to state agencies, DOA identified that separate reporting of COVID-19 Emergency Acts expenditures was required.

Condition:

We identified four concerns in our review of the DHS FY 2021-22 SEFA. First, we found DHS did not separately identify \$329.2 million in FY 2021-22 expenditures as COVID-19 MA Program expenditures related to the enhanced federal medical assistance percentage for home and community-based services authorized under ARPA.

Second, during FY 2021-22 DHS transferred \$55.9 million in FY 2020-21 expenditures from the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) grant (Assistance Listing number 93.323) to the Disaster Grants—Public Assistance (Presidentially Declared Disasters) grant. In the STAR General Ledger, the prior-year transferred expenditures resulted in a reduction in the ELC grant expenditures. In reporting these amounts in the FY 2021-22 SEFA, DHS did not make a subsequent adjustment to remove the expenditure adjustment from the total expenditures reported for the ELC grant.

Third, DHS did not report all CSLFRF expenditures it incurred in FY 2021-22. DHS requested reimbursement from DOA as it incurred expenditures under the CSLFRF grant. In its FY 2021-22 SEFA, DHS reported \$161.9 million in CSLFRF expenditures, which was the total expenditures for which it had received reimbursement from DOA. However, DHS had actually incurred \$173.6 million in CSLFRF expenditures in FY 2021-22.

Finally, DHS included a \$2.6 million repayment of a prior-year overpayment as an expenditure for the WIC Special Supplemental Nutrition Program for Women, Infants, and Children grant. This should have been excluded from total expenditures because it did not relate to FY 2021-22 program expenditures.

Context:

The State administered and reported in its SEFA \$20.2 billion in federal financial assistance in FY 2021-22. DHS administered \$11.9 billion in federal financial assistance in FY 2021-22. We reviewed the DHS SEFA to assess the reported expenditures, particularly for major programs.

Questioned Costs:

None.

Effect:

Although total expenditures for the MA Program were accurately reported, DHS did not accurately report \$329.2 million as COVID-19 expenditures separately in the SEFA. Further, DHS underreported expenditures by \$55.9 million for the ELC grant, underreported expenditures by \$11.7 million for CSLFRF, and overreported expenditure by \$2.6 million for the WIC Special Supplemental Nutrition Program for Women, Infants, and Children grant program.

Cause:

DHS did not consider the new enhanced federal funding it received for home and community-based services as amounts that should be identified as COVID-19 expenditures when compiling the SEFA. DHS sought to reflect the expenditures for the grant programs based on the amounts recorded in the STAR General Ledger. However, DHS did not consider that the negative expenditures resulting from the transfers of FY 2020-21 expenditures led to the underreporting of the ELC grant expenditures in the DHS SEFA. Further, for the CSLFRF grant, DHS indicated that it thought it was appropriate to report only what had been reimbursed by DOA. Finally, DHS overlooked the inclusion of a repayment of a prior-year overpayment when reporting its expenditures for the WIC Special Supplemental Nutrition Program for Women, Infants, and Children grant program.

☑ Recommendation

We recommend the Wisconsin Department of Health Services further evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards and ensure it is:

- properly identifying applicable COVID-19 expenditures;
- adjusting expenditures for prior-year transfers of expenditures in the current year;
- reporting all federal expenditures for each federal grant program, regardless of whether the agency has received reimbursement from the pass-through entity; and
- removing repayments of prior-year overpayments of expenditures from current-year expenditures.

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendations.

Finding 2022-303: Federal Funding Accountability and Transparency Act Reporting—Immunization Cooperative Agreements

Background:

The U.S. Department of Health and Human Services Centers for Disease Control and Prevention provides funding to DHS for the Immunization Cooperative Agreements program. DHS provided a portion of this program to subrecipients during FY 2021-22.

The Immunization Cooperative Agreements program subawards of \$30,000 or more are subject to Federal Funding Accountability and Transparency Act (FFATA) reporting. The intent of FFATA is to provide information about federal awards to allow the public access to the information to hold the government accountable for decisions.

Criteria:

Under 2 CFR s. 170, DHS is required to report in the FFATA Subaward Reporting System (FSRS) subawards of \$30,000 or more, including any amendments or modifications to a subaward. This reporting is to be completed no later than the last day of the month following the month in which the subaward was made. For example, if DHS signed a subaward contract on July 1, 2021, it must be reported in FSRS no later than August 31, 2021. During FY 2021-22, DHS staff would periodically identify subawards required to be reported using information compiled through queries of contracts established through DHS's Community Aids Reporting System (CARS) and queries of purchase orders established in STAR, which is the State's accounting system.

Condition:

We identified two concerns with DHS's FFATA reporting during FY 2021-22. First, we found that four of the five subawards we reviewed that DHS had initiated through a purchase order in STAR were not reported in FSRS prior to our request in March 2023. The one subaward that was reported in FSRS was reported one month later than required. Second, we found that seven of the eight subawards we reviewed that DHS had initiated through CARS were not reported in FSRS in a timely manner and one had not been reported. For example, we found that five of the seven subawards were submitted more than one month later than required.

Context:

During FY 2021-22, DHS expended \$94.8 million under the Immunization Cooperative Agreements program, of which \$16.9 million was provided to subrecipients. We interviewed DHS staff to gain an understanding of the procedures for compiling information for subawards and for reporting the information in FSRS. For FY 2021-22, we selected 5 of the 119 subawards over \$30,000 that DHS initiated through a purchase order in STAR and 8 of the 61 subawards over \$30,000 that DHS initiated through CARS. We requested screenshots from FSRS for each subaward to assess if the subaward was reported in an accurate and timely matter.

Questioned Costs:

None.

Effect:

DHS did not comply with FFATA requirements for the reporting of subawards in FSRS.

Cause:

The queries DHS used to identify the subawards it initiated through a STAR purchase order did not accurately identify all applicable subawards subject to FFATA reporting. DHS indicated that it did not prioritize FFATA reporting to identify or review information that was required to be reported in FSRS to ensure all subawards were reported in a timely manner.

☑ Recommendation

We recommend the Wisconsin Department of Health Services:

- update the queries used to identify subawards in the State's accounting system, STAR, that are subject to Federal Funding Accountability and Transparency Act reporting to ensure all required subawards are identified; and
- ensure all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and submitted to the Federal Funding Accountability and Transparency Act Subaward Reporting System in a timely manner.

Finding 2022-304: Coronavirus State and Local Fiscal Recovery Funds— Monitoring of Local and Tribal Health Department Response and Recovery Support Program Expenditures

Background:

The State was advanced \$1.3 billion in CSLFRF in May 2021 and another \$1.3 billion in May 2022. CSLFRF was created under the American Rescue Plan Act (ARPA) and is administered by DOA. CSLFRF funding has certain stipulations, including that the funds must be used to:

- respond to the public health emergency or its negative economic impacts;
- respond to the needs of workers performing essential work during the public health emergency;
- provide government services to the extent revenue losses due to the public health emergency reduced revenues; and
- make necessary investments in water, sewer, or broadband infrastructure.

Further, federal regulations stipulate that eligible expenditures must be incurred between March 3, 2021, and December 31, 2024, and funds must be spent through December 31, 2026.

DOA entered into a memorandum of understanding with DHS to administer the Local and Tribal Health Department Response and Recovery Support program, which provides grants to local and tribal health departments for costs incurred to respond to the public health emergency. DHS entered into contracts with 98 local and tribal health departments. The contracts stipulate the allowable uses of the funding and reporting requirements. After incurring expenditures, the health departments may request reimbursement on a monthly basis using DHS's CARS.

Criteria:

In accordance with 2 CFR s. 200.303, DHS is responsible for establishing and maintaining effective internal control over federal awards that provides reasonable assurance that it is managing federal awards in compliance with federal statutes, regulations, and the terms and conditions of federal awards. Further, under U.S. Department of the Treasury Final Rule (31 CFR Part 35), DHS must establish rigorous oversight and internal control processes to monitor compliance with any applicable requirements of CSLFRF funding.

The contracts between DHS and each of the public health departments require the health departments to submit a quarterly report. DHS indicated that the quarterly report includes a list of expenditures for the quarter, a list of payroll costs, and a description of the uses of the funds, and it is due within 30 days of the end of the

quarter. DHS tracks the receipt and review of the quarterly reports in a tracking spreadsheet. DHS indicated that it compares the reported expenditures in the quarterly report to the monthly reimbursement request data from CARS to ensure the amounts agree. Further, DHS indicated that it reviews the description of the uses of the funding from the quarterly report to evaluate the allowability of the reported expenses. DHS indicated that quarterly reports are required regardless of whether the public health department incurred expenditures during the quarter.

Condition:

DHS did not have documentation to support that it was reviewing the quarterly reports and following its procedures to provide oversight over the expenditures charged to the program in FY 2021-22. We attempted to review 20 quarterly reports filed in FY 2021-22 for 10 public health departments. We identified two concerns.

First, we found that the City of Milwaukee Public Health Department did not submit the two quarterly reports that were due in FY 2021-22. Therefore, DHS did not have documentation that it evaluated whether funding was expended on allowable activities under the grant program. The City of Milwaukee was reimbursed \$3.6 million in expenditures in January 2022. On March 3, 2023, DHS put a hold on any further reimbursements to the City of Milwaukee Public Health Department until the issues with the missing quarterly reports are resolved. Second, we found that 12 of the remaining 18 quarterly reports we reviewed were submitted to DHS more than six months after the due date. Five of the 12 reports were dated after we made our request for the reports in February 2023.

We also reviewed reports for the quarter ended June 30, 2022, for the 10 public health departments we selected for review. For three health departments, we found there were differences between the amounts reported to date on the quarterly reports and the total reimbursement provided by DHS as of the end of that quarter. DHS did not have documentation to show that it identified and resolved these differences.

Context:

DHS was awarded \$58.4 million in CSLFRF funds for the Local and Tribal Health Department Response and Recovery Support program. The public health departments are considered beneficiaries under the program and, as such, this funding is not subject to the local or tribal government single audits. In FY 2021-22, DHS reimbursed the public health departments \$6.7 million in expenditures for the program. The program ends on December 31, 2024. We reviewed the quarterly reports filed in FY 2021-22 for 10 of the 98 public health departments that were allocated funding for this program. We randomly selected 7 public health departments and selected the remaining three public health departments using a judgement sample based on a review of DHS's quarterly report tracking spreadsheet.

Questioned Costs:

None.

Effect:

Because DHS controls related to the quarterly report are not working effectively, there is an increased risk of improper payments made using the CSLFRF grant funding.

Cause:

DHS did not have written policies and procedures for the tracking and review of the reports. In addition, DHS did not have documentation to support that it was tracking the timely receipt and review of the quarterly reports in FY 2021-22.

At the end of FY 2021-22, DHS experienced turnover in staff responsible for administering the Local and Tribal Health Department Response and Recovery Support program. DHS indicated that the staff responsible for administering the program in FY 2021-22 did not document reviews of the quarterly reports. In a March 2, 2023 email to DHS, staff from the City of Milwaukee Public Health Department indicated that DHS staff had agreed to permit emails to explain the expenditure of funds in lieu of the quarterly reports. DHS did not provide these emails or other documentation to support this permission.

☑ Recommendation

We recommend the Wisconsin Department of Health Services:

- develop and implement written policies and procedures for the review and tracking of the quarterly reports used to monitor expenditures under the Local and Tribal Health Department Response and Recovery Support program;
- maintain the quarterly reports, document its review of the quarterly reports, and document its correspondence with the public health departments regarding resolution of reporting variances;
- review the contracts with the public health departments and determine whether any revisions are needed to clarify expectations for documentation and timeliness of filing the quarterly reports; and
- ensure it obtains quarterly reports to support the payments it made to the City of Milwaukee Public Health Department.

. . . .

Department of Public Instruction

The Wisconsin Department of Public Instruction (DPI) provides guidance and technical assistance to support public elementary and secondary education in Wisconsin. It also provides assistance for the development and improvement of public and school libraries. In FY 2021-22, DPI administered \$1.5 billion in federal financial assistance.

We tested DPI's internal controls and compliance with grant requirements for two type A programs: Supporting Effective Instruction State Grants (SEI) (formerly Improving Teacher Quality State Grants) (Assistance Listing number 84.367) and the Education Stabilization Fund (Assistance Listing number 84.425). In addition, we tested internal controls and compliance with grant requirements for a type B program from which DPI received funding from the Wisconsin Technical College System: the Career and Technical Education—Basic Grants to States (Assistance Listing number 84.048). We identified the following internal control and compliance concern: Supporting Effective Instruction State Grants—Federal Funding Accountability and Transparency Act Reporting (Finding 2022-400).

In addition, we followed up on the progress of DPI in addressing Finding 2021-400 and 2021-401 of our FY 2020-21 audit (report 22-5). DPI implemented corrective actions to partially address these findings. It will be important for DPI to continue to work to resolve these findings. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of the findings as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding 2022-400: Supporting Effective Instruction State Grants— Federal Funding Accountability and Transparency Act Reporting

Background:

The U.S. Department of Education provides funding to DPI through the SEI program in Title II, Part A of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA). The purpose of the grant program is to provide assistance to schools to increase student achievement and close achievement gaps by offering professional development opportunities in core academic areas.

SEI subawards of \$30,000 or more are subject to Federal Funding Accountability and Transparency Act (FFATA) reporting. The intent of FFATA is to provide information about federal awards to allow the public access to the information to hold the government accountable for decisions. In report 22-5, we reported concerns with DPI's procedures and controls over FFATA reporting for a different grant program (Finding 2021-401). We recommended that DPI improve its FFATA submission process to ensure all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and reported in a timely manner.

Criteria:

Under 2 CFR s. 170, DPI is required to report in the FFATA Subaward Reporting System (FSRS) subawards of \$30,000 or more, including any amendments or modifications to a subaward. This reporting is to be submitted no later than the last day of the month following the month in which the subaward was made. For example, if the subaward was made on November 7, 2021, it must be reported in FSRS not later than December 31, 2021. DPI identifies subawards required to be reported in FSRS using information from DPI's subaward tracking system.

Condition:

We found that none of the 40 SEI subawards we reviewed were reported in a timely manner in FSRS. All 40 subawards were made in July 2021 and should have been reported in FSRS by August 31, 2021. However, DPI did not report 38 of the subawards in FSRS until October 2021. In addition, we found 2 of the 40 SEI subawards we reviewed were not reported until February 2023 when we identified them to DPI.

Context:

During FY 2021-22, DPI expended \$32.8 million under SEI of which \$31.3 million was provided to subrecipients. DPI awarded 451 SEI subawards during FY 2021-22. We interviewed DPI staff to gain an understanding of the procedures for compiling information for subawards and submitting the information in FSRS. We requested screenshots from FSRS and subaward documentation from DPI to support the information reported for FFATA.

Questioned Costs:

None.

Effect:

DPI did not comply with FFATA requirements for the timely reporting of subawards in FSRS.

Cause:

Although DPI took corrective action in responding to Finding 2021-401, which was included in report 22-5, the improved internal controls were not in place for all of FY 2021-22. For example, DPI implemented improvements to its FFATA submission process by July 2022, which was subsequent to the 40 subawards we identified that DPI was required to report in FSRS in August 2021. These improvements included making enhancements to its grant tracking system to create a report identifying subawards required to be reported under FFATA and developing an approval tracking document that is reviewed monthly by a supervisor.

DPI completed initial subawards for SEI subrecipients in July 2021 and finalized the amounts for the subawards in September 2021. DPI then reported 38 of the SEI subawards in FSRS in October 2021. For the two SEI subawards we identified that were not reported until February 2023, DPI indicated that an error occurred during the October 2021 submission process that prevented these subawards from being uploaded to FSRS. Although subsequent manual entry was attempted, DPI staff indicated that follow-up on the two subawards did not occur when the manual entry was unsuccessful. At that time, other detective procedures were not in place to identify that FFATA reporting had not occurred for the two subawards.

☑ Recommendation

We recommend the Wisconsin Department of Public Instruction:

- report in a timely manner all applicable subawards greater than \$30,000 and subject to Federal Funding Accountability and Transparency Act reporting when initiated in the Federal Funding Accountability and Transparency Act Subaward Reporting System;
- ensure all rejected submissions are detected and corrected in a timely manner; and
- continue to enhance the internal controls it implemented to its Federal Funding Accountability and Transparency Act submission process to ensure all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified in a timely manner and submitted to the Federal Funding Accountability and Transparency Act Subaward Reporting System.

Finding 2022-400: Supporting Effective Instruction State Grants—Federal Funding Accountability and Transparency Act Reporting

Supporting Effective Instruction State Grants (formerly Improving Teacher Quality State Grants) (Assistance Listing number 84.367)

Award Number	Award Period
S367A210047	7/1/2021-9/30/2022

Questioned Costs: None

Type of Finding: Significant Deficiency, Noncompliance

Response from the Wisconsin Department of Public Instruction: The Wisconsin Department of Public Instruction agrees with the audit finding and recommendations.

....

Department of Workforce Development

The Department of Workforce Development (DWD) administers programs for unemployment insurance, workers' compensation, equal rights in employment and housing, apprenticeship job training, employment services and training, vocational rehabilitation, and other related programs. Excluding unemployment insurance benefits, federal grants funded \$274.3 million of DWD's FY 2021-22 expenditures. In addition, the Wisconsin Unemployment Reserve Fund paid \$339.0 million in regular unemployment insurance benefits and \$333.6 million in federally funded benefits.

We tested DWD's internal controls and compliance with grant requirements for two type A programs: Unemployment Insurance (UI) (Assistance Listing number 17.225) and Rehabilitation Services Vocational Rehabilitation Grants to States (Assistance Listing number 84.126). We also tested the Employment Service Cluster (Assistance Listing numbers 17.207/17.801), which is a type B program. We identified the following internal control and compliance concern: Unemployment Insurance Program—Reporting (Finding 2022-600).

In addition, we followed up on the progress of DWD in addressing Findings 2021-600 through 2021-602 of our FY 2020-21 audit (report 22-5) and Finding 2020-600 of our FY 2019-20 audit (report 21-6). DWD implemented corrective actions to address Findings 2021-601, 2021-602 and 2020-600 and to partially address 2021-600. We also followed up on the progress of DWD in addressing financial reporting concerns related to its use of predictive analytics for the UI program (Finding 2021-003 of report 22-5) and access controls over UI program systems (Finding 2021-004 of report 22-5). DWD implemented corrective actions to partially address Finding 2021-003, and it took corrective actions to address Finding 2021-004. It will be important for DWD to continue to work to resolve this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Finding 2022-600: Unemployment Insurance Program—Reporting

Background:

As a part of its administration of the UI program, DWD is required to complete and submit multiple performance and special reports to the U.S. Department of Labor (DOL), including the monthly ETA 9052, *Nonmonetary Determination Time Lapse Detection*. These reports contain information related to Wisconsin's UI program that assist DOL in evaluating the performance of the program and contain information that is of interest to DOL.

In our prior audit, we found that DWD did not establish adequate procedures to ensure the accuracy of the performance and special reports. In April 2022, we recommended that DWD develop and implement adequate procedures for the preparation and review of the UI performance and special reports to ensure the accuracy of the amounts reported to the federal government. We also recommended that DWD retain documentation to support the amounts included in each report it submits to the federal government (Finding 2021-600).

Criteria:

Under 2 CFR s. 200.303, DWD is required to establish and maintain effective internal controls over its federal programs to provide reasonable assurance that the federal programs are administered in compliance with federal statutes and regulations as well as the terms and conditions of its federal awards. This includes effective internal controls over the preparation of reports for the federal government.

Condition:

During our current audit, and after April 2022, we found DWD improved its procedures for the preparation and review of the UI performance and special reports, and it retained documentation to support the amounts included in each report it submitted to the federal government. However, for those reports that DWD submitted to the federal government prior to our recommendations in April 2022, we continued to find that the supporting documentation DWD provided did not agree with the amounts it reported on the ETA 9052 performance report. Specifically, we identified that for the November 2021 ETA 9052 performance report we reviewed, the amounts reported for 35 of 110 key line items reviewed did not agree with the supporting documentation provided.

Context:

We interviewed DWD staff to gain an understanding of the procedures for preparing the UI program performance and special reports. During FY 2021-22, DWD was required to submit 12 ETA 9050 performance reports, 12 ETA 9052 performance reports, and 4 ETA 2208A special reports to DOL. We reviewed:

- the ETA 9050 performance reports submitted for the months of November 2021 and April 2022;
- the ETA 9052 performance reports submitted for the months of November 2021, April 2022, and May 2022; and
- the March 2022 quarterly ETA 2208A special report.

We also requested DWD's documentation to support the reported information for each section or amount identified by the federal government as a key section or key line item.

Questioned Costs:

None.

Effect:

DWD cannot be assured that it reported complete and accurate information during the entire fiscal year to enable DOL to assess the outcomes of Wisconsin's UI program.

Cause:

Prior to April 2022, which is when we communicated our concerns with the accuracy of the ETA 9052 performance report, DWD did not establish adequate procedures to ensure the accuracy of the report.

☑ Recommendation

We recommend the Wisconsin Department of Workforce Development continue to make progress in developing and implementing adequate procedures for the preparation and review of the Unemployment Insurance program's performance reports to ensure the accuracy of the amounts reported to the federal government.

....

University of Wisconsin System

The University of Wisconsin (UW) System provides postsecondary academic education for approximately 163,000 students. UW System includes 13 four-year universities, 13 two-year branch campuses associated with a university, and UW System Administration. Each of the 13 universities awards bachelor's and master's degrees, and several also confer doctoral degrees. The 13 two-year branch campuses offer general education associate degrees and course credits that transfer to other degree-granting universities. UW System Administration consists of the UW System President's staff who assist the Board of Regents in establishing and monitoring systemwide policies, financial planning for the system, and maintaining fiscal control. In FY 2021-22, UW System administered \$2.0 billion in federal financial assistance.

We tested UW System's internal controls and compliance with grant requirements for two type A programs: the Education Stabilization Fund (Assistance Listing number 84.425) and Research and Development Cluster (various Assistance Listing numbers). We identified the following internal control and compliance concerns:

- Research and Development Cluster—Physical Inventory Requirements for Federal Equipment (Finding 2022-700);
- Higher Education Emergency Relief Fund—UW-La Crosse Institutional Aid Allowable Costs (Finding 2022-701);
- Higher Education Emergency Relief Fund—UW-Platteville Institutional Aid Allowable Costs (Finding 2022-702);
- Higher Education Emergency Relief Fund—UW-Superior Institutional Aid Allowable Costs (Finding 2022-703); and
- Research and Development Cluster—Unallowable Costs (Finding 2022-704).

In report 22-26, we reported finding 2022-007 as significant deficiency for the State's FY 2021-22 Annual Comprehensive Financial Report (ACFR). This finding is also considered a significant deficiency in internal controls over compliance for the Research and Development Cluster. This finding included concerns with UW System's internal controls related to a new computer application implemented in April 2021. We found that UW System Administration lacked adequate policies for UW institution review of all access related to the new application during FY 2021-22. We also found that UW System Administration had not obtained a service organization audit report to assess the internal controls of a third-party vendor for the new application. We recommend UW System Administration develop policies to require such access reviews, monitor that the reviews are completed in a timely manner, and obtain and review service organization audit reports for third-party vendors.

In addition, we followed up on the progress of UW System Administration in addressing financial reporting concerns related to information technology security controls (Finding 2021-002 from report 22-5). UW implemented corrective actions to address Finding 2021-002. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of each finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

We also included the Wisconsin Humanities Council in our FY 2021-22 audit of UW System. The Wisconsin Humanities Council is a nonprofit organization associated with UW System, which is responsible for the fiscal and personnel administration of the Wisconsin Humanities Council. We tested internal controls and compliance with grant requirements for the Promotion of the Humanities—Federal/State Partnership (Assistance Listing number 45.129) grant.

Finding 2022-700: Research and Development Cluster—Physical Inventory Requirements for Federal Equipment

Background:

During FY 2021-22, UW institutions were awarded \$741.6 million in federal funding as part of the Research and Development Cluster, for which UW-Madison expended the majority of the funding. UW-Madison used a portion of these federal funds, and similar funding from prior years, to purchase equipment needed for research activities. When UW-Madison purchases equipment using federal funding (federal equipment), it must maintain comprehensive records of each federal equipment item, periodically conduct a physical inventory of the equipment, and reimburse the federal agency that originally funded the equipment purchase with any proceeds from the disposal of the equipment no longer needed for research activities.

Criteria:

Under 2 CFR s. 200.313 (d) (2), UW-Madison is required to biennially complete a physical inventory of all federal equipment and reconcile the results with its records. UW System Policy 334, *Accountability for Capital Equipment*, and UW-Madison Procedure 3008.6, *Physical Inventory Procedure*, require biennial physical inventories of federal equipment. To comply with these policies and procedures, UW-Madison has assigned central accounting staff the responsibility for tracking federal equipment and scheduling physical inventories. Staff within various UW-Madison departments are responsible for safekeeping the equipment, locating items during physical inventories,

and authorizing disposal when specific equipment is no longer useful. Under 2 CFR s. 200.313 (e) UW-Madison is required to potentially provide repayment to the federal agency that originally funded the equipment purchase when federal equipment is no longer needed for research activities.

Condition:

UW-Madison did not perform a physical inventory of all federal equipment during the period from July 1, 2020, through June 30, 2022.

Context:

Based on available records, UW-Madison reported a total federal equipment acquisition value of \$332.9 million as of June 30, 2022. Based on these records, and from July 1, 2020, through June 30, 2022, UW-Madison had 7,102 federal equipment items subject to the biennial physical inventory requirement. UW-Madison performed a physical inventory of 2,688 federal equipment items from July 1, 2020, through June 30, 2022, but during this period it did not perform a physical inventory of 4,414 federal equipment items (62.2 percent). We discussed UW-Madison's procedures with the central accounting staff responsible for scheduling physical inventories of UW-Madison departments, obtained documentation of physical inventories UW-Madison performed, and conducted other testing of UW-Madison's management of federal equipment.

Questioned Costs:

None.

Effect:

Without completion of regular physical inventories of federal equipment, UW-Madison is at increased risk of theft or loss of equipment, it cannot be assured that federal equipment records were accurately maintained, and it may not be aware of all equipment disposals or losses, which may result in a failure to reimburse the federal agency that originally funded the equipment purchase with any proceeds from its disposal.

Cause:

Due to staffing turnover of both central accounting staff and department staff, UW-Madison indicated that it waived the requirement to perform physical inventories of equipment items by June 30, 2022. However, UW-Madison did not provide documentation of the waiver or federal approval to waive this requirement. We found two of the four UW-Madison central accounting positions experienced turnover in spring 2021, which contributed to a backlog in the physical inventories UW-Madison had planned to complete during FY 2020-21. As a result, during FY 2021-22 UW-Madison central accounting staff stated that they focused on eliminating the backlog rather than on initiating new physical inventories at certain departments. Given the volume of equipment managed by UW-Madison and the various locations of the equipment, it is important that physical inventories are performed regularly to limit the risk of theft or loss of federal equipment.

☑ Recommendation

We recommend the University of Wisconsin-Madison conduct physical inventories of federal equipment as required by federal regulations and its existing policies and procedures, or seek a waiver from the federal cognizant agency.

Type of Finding: Significant Deficiency, Noncompliance

Response from the University of Wisconsin-Madison: The University of Wisconsin-Madison agrees with the audit finding and recommendation.

Finding 2022-701: Higher Education Emergency Relief Fund— UW-La Crosse Institutional Aid Allowable Costs

Background:

In prior fiscal years, UW institutions were awarded federal funding from the Higher Education Emergency Relief Fund (HEERF), which was established and funded by federal legislation. For example, in May 2021, the U.S. Department of Education allocated \$271.4 million in American Rescue Plan Act (ARPA) funds to UW institutions to be used for student aid (Assistance Listing number 84.425E) and institutional aid (Assistance Listing number 84.425F). UW-La Crosse received an allocation that totaled \$35.3 million, of which \$19.4 million could be used for institutional aid.

Criteria:

Under 2 CFR s. 200.303, UW-La Crosse is responsible for establishing and maintaining effective internal control over federal awards to provide reasonable assurance that federal awards are managed in compliance with federal statutes, regulations, and the award terms and conditions. Under ARPA, UW institutions are required to use a portion of the allocated HEERF funds to make direct aid payments to students and may use a portion of the allocated funds to defray institutional expenses associated with the coronavirus, including lost revenue. Section 314 of the Coronavirus Response and Relief Supplemental Appropriations Act, guidance from the Department of Education, the agreements each UW institution signed with the U.S. Department of Education, and the federal Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) prohibit UW institutions from using the funds to cover certain costs, including those for student recruitment.

Condition:

UW-La Crosse used a total of \$127,448 of its HEERF institutional aid allocation for consulting, advertising, and recruitment costs to increase student enrollment.

Context:

During FY 2021-22, UW-La Crosse used \$2.9 million of its total HEERF institutional aid allocation. We reviewed 151 transactions for which UW-La Crosse used HEERF institutional aid, including the largest 10 transactions made using funds appropriated by ARPA. We reviewed whether each transaction met the requirements of federal legislation, guidance from the U.S. Department of Education, the agreements UW-La Crosse signed with the U.S. Department of Education, and Uniform Guidance. To complete our testing, we requested information or supporting documentation for each transaction and interviewed UW-La Crosse staff.

Questioned Costs:

\$127,448

Effect:

Because unallowable costs were charged to HEERF, UW-La Crosse was not in compliance with federal requirements for the use of its HEERF institutional aid allocation. UW-La Crosse received federal reimbursement of \$127,448 for unallowable costs during FY 2021-22.

Cause:

UW-La Crosse interpreted the federal guidance to permit the costs for which it used its HEERF institutional aid allocation because the intention of the services was to increase enrollment that had declined during the public health emergency. After we questioned the use of HEERF funds, UW-La Crosse subsequently returned the funding.

☑ Recommendation

We recommend the University of Wisconsin-La Crosse ensure that all expenses charged to the Higher Education Emergency Relief Fund (HEERF) program are allowable, such as performing an additional review of those costs allocated to HEERF and document the performance of such a review.

Finding 2022-701: Higher Education Emergency Relief Fund—UW-La Crosse Institutional Aid Allowable Costs

Questioned Costs: \$127,448

Type of Finding: Noncompliance

Response from the University of Wisconsin-La Crosse: The University of Wisconsin-La Crosse agrees with the audit finding and recommendation.

Finding 2022-702: Higher Education Emergency Relief Fund— UW-Platteville Institutional Aid Allowable Costs

Background:

In prior fiscal years, UW institutions were awarded federal funding from HEERF, which was established and funded by federal legislation. For example, in May 2021, the U.S. Department of Education allocated \$271.4 million in ARPA funds to UW institutions to be used for student aid and institutional aid. UW-Platteville received an allocation that totaled \$26.4 million, of which \$14.5 million could be used for institutional aid.

Criteria:

Under 2 CFR s. 200.303, UW-Platteville is responsible for establishing and maintaining effective internal control over federal awards to provide reasonable assurance that federal awards are managed in compliance with federal statutes, regulations, and the award terms and conditions. Under ARPA, UW institutions are required to use a portion of the allocated HEERF funds to make direct aid payments to students and may use a portion of the allocated funds to defray institutional expenses associated with coronavirus, including lost revenue. Section 314 of the Coronavirus Response and Relief Supplemental Appropriations Act, guidance from the Department of Education, the agreements each UW institutions igned with the U.S. Department of Education, and Uniform Guidance prohibit UW institutions from using the funds to cover certain costs, including those for student recruitment and entertainment.

Condition:

UW-Platteville used \$23,500 of its HEERF institutional aid allocation to create online tours of its campuses for recruiting purposes and \$1,018 for student entertainment for a summer 2021 program.

Context:

During FY 2021-22, UW-Platteville used \$6.4 million of its total HEERF institutional aid allocation. We reviewed 13 transactions for which UW-Platteville used HEERF institutional aid, including the largest 10 transactions made using funds appropriated by ARPA. We reviewed whether each transaction met the requirements of federal legislation, guidance from the U.S. Department of Education, the agreements UW-Platteville signed with the U.S. Department of Education, and Uniform Guidance. To complete our testing, we requested supporting documentation for certain transactions and interviewed UW-Platteville staff.

Questioned Costs: \$24,518

Effect:

Because unallowable costs were charged to HEERF, UW-Platteville was not in compliance with federal requirements for the use of its HEERF institutional aid allocation. UW-Platteville received federal reimbursement of \$24,518 for unallowable costs during FY 2021-22.

Cause:

UW-Platteville indicated it used HEERF institutional aid funding for online tours in order to provide prospective students an alternative way to learn about the campus. UW-Platteville indicated it interpreted the federal guidance to permit such use of HEERF institutional aid. However, we found the tour content was predominately marketing because it included encouragement for viewers to enroll at UW-Platteville. We consider any activities that encourage enrollment to be recruiting activity prohibited under federal regulations. After we questioned the use of HEERF funds for the presemester entertainment event, UW-Platteville subsequently returned the funding for this expense.

☑ Recommendation

We recommend the University of Wisconsin-Platteville:

- work with the federal government to resolve the \$23,500 in unallowable costs that we identified; and
- ensure that all expenses charged to the Higher Education Emergency Relief Fund (HEERF) program are allowable, such as performing an additional review of those costs allocated to HEERF and document the performance of such a review.

Type of Finding: Noncompliance

Response from the University of Wisconsin-Platteville: The University of Wisconsin-Platteville agrees with the audit finding and recommendations.

Finding 2022-703: Higher Education Emergency Relief Fund— UW-Superior Institutional Aid Allowable Costs

Background:

In prior fiscal years, UW institutions were awarded federal funding from HEERF, which was established and funded by federal legislation. For example, in May 2021, the U.S. Department of Education allocated \$271.4 million in ARPA funds to UW institutions to be used for student aid and institutional aid. UW-Superior received an allocation that totaled \$8.8 million, of which \$4.9 million could be used for institutional aid.

Criteria:

Under 2 CFR s. 200.303, UW-Superior is responsible for establishing and maintaining effective internal control over federal awards to provide reasonable assurance that federal awards are managed in compliance with federal statutes, regulations, and the

award terms and conditions. Under ARPA, UW institutions are required to use a portion of the allocated HEERF funds to make direct aid payments to students and may use a portion of the allocated funds to defray institutional expenses associated with the coronavirus, including lost revenue. Section 314 of the Coronavirus Response and Relief Supplemental Appropriations Act, guidance from the Department of Education, the agreements each UW institution signed with the U.S. Department of Education, and Uniform Guidance prohibit UW institutions from using the funds to cover certain costs, including those for alcohol and entertainment.

Condition:

During FY 2021-22, UW-Superior used \$30,376 of its HEERF institutional aid allocation to offset lost revenue from the sale of alcohol at sporting and other events and \$1,500 for student entertainment for a presemester summer event.

Context:

During FY 2021-22, UW-Superior used \$2.4 million of its total HEERF institutional aid allocation. We reviewed 26 transactions for which UW-Superior used HEERF institutional aid, including the largest 10 transactions made using funds appropriated by ARPA. We reviewed whether each transaction met the requirements of federal legislation, guidance from the U.S. Department of Education, the agreements UW-Superior signed with the U.S. Department of Education, and Uniform Guidance. To complete our testing, we requested information or supporting documentation for each transaction and interviewed UW-Superior staff.

Questioned Costs:

\$31,876

Effect:

Because unallowable costs were charged to HEERF, UW-Superior was not in compliance with federal requirements for the use of its HEERF institutional aid allocation. UW-Superior received federal reimbursement of \$31,876 for unallowable costs during FY 2021-22.

Cause:

UW-Superior indicated it was aware that alcohol sales should be excluded from lost revenue calculations and agreed that it had incorrectly included a cost center for alcohol sales in its FY 2021-22 lost revenue calculation. When this issue was identified during the audit, UW-Superior subsequently adjusted the accounting records in November 2022 to make \$30,376 available to fund additional lost revenues under the HEERF program. In December 2022, UW-Superior also adjusted the accounting records to make the \$1,500 in costs for the student entertainment available to fund additional HEERF program expenses.

☑ Recommendation

We recommend the University of Wisconsin-Superior ensure that all expenses charged to the Higher Education Emergency Relief Fund (HEERF) program are allowable, such as performing an additional review of those costs allocated to HEERF and document the performance of such a review.

Finding 2022-703: Higher Education Emergency Relief Fund—UW-Superior Institutional Aid Allowable Costs

COVID-19—Higher Education Emergency Relief Fund (Assistance Listing number 84.425F)

Award Number Award Year

P425F202112 2021

Questioned Costs: \$31,876

Type of Finding: Noncompliance

Response from the University of Wisconsin-Superior: The University of Wisconsin-Superior agrees with the audit finding and recommendation.

Finding 2022-704: Research and Development Cluster—Unallowable Costs

Background:

During FY 2021-22, UW institutions were awarded \$741.6 million in federal funding as part of the Research and Development Cluster, for which UW-Madison expended the majority of the funding. UW-Madison purchases a variety of supplies and other goods or services to conduct its research activities.

Criteria:

Under 2 CFR s. 200.303, UW-Madison is responsible for establishing and maintaining effective internal control over federal awards that provides reasonable assurance that it is managing federal awards in compliance with federal statutes, regulations, and the terms and conditions of federal awards. Further, 2 CFR s. 200.405 (a) specifies that for a cost to be allocable to a federal award the cost must be incurred specifically for the federal award; benefit both the federal award and other work; be distributed in proportions; be necessary to overall institutional operations; and be assignable, in part, to the federal award.

Condition:

We found that UW-Madison charged two unallowable costs to two federal awards during FY 2021-22. First, we found that UW-Madison charged \$54 for facilities and maintenance expenses relating to a location not used for purposes related to the federal award. Second, we found that UW-Madison charged \$596 in software license fees to a federal award. However, it is UW-Madison's practice to charge such fees to a nonfederal project.

Context:

During FY 2021-22, UW-Madison expended \$86.9 million in certain nonpayroll expenses using federal Research and Development Cluster funding. There were 84,230 transactions comprising this amount with an average dollar amount of \$1,032. We reviewed 40 such transactions to determine if the expenses were allowable under

federal regulations. To complete our testing, we requested supporting documentation and information from UW-Madison for the transactions we reviewed.

Questioned Costs:

We questioned \$650 in known questioned costs and an undetermined amount for other expenses we did not review. Because our testing was based upon a sample of payments it is likely there are additional cases where the payment is inappropriately charged to a federal award. We estimate these additional questioned costs are likely over \$25,000, which is required to be reported under 2 CFR s. 200.516.

Effect:

UW-Madison used \$650 in federal funds from the Research and Development Cluster for unallowable costs during FY 2021-22. Because unallowable costs were charged to the Research and Development Cluster, UW-Madison was not in compliance with federal requirements for the use of federal funding.

Cause:

UW-Madison staff indicated that the charges were applied to incorrect accounting codes when the expenses were originally recorded. For example, the \$54 for facilities and maintenance expenses was charged to a federal award in the accounting system due to a limitation of certain billing codes for applying such expenses to the correct location of the work. These errors were not identified or corrected during the review of the payment or of other UW-Madison monitoring activities. In December 2022 and January 2023, UW-Madison corrected these accounting codes for these transactions and transferred the expenses to nonfederal projects.

☑ Recommendation

We recommend the University of Wisconsin-Madison provide guidance and training to staff to ensure all costs are properly charged to federal award accounting codes and only costs allowable under federal regulations are charged to federal funds.

Finding 2022-704: Research and Development Cluster–Unallowable Costs

. . . .

Other Agencies

In addition to the departments of Administration, Health Services, Public Instruction, Workforce Development, and the University of Wisconsin System, we also audited federal programs, followed up on the status of prior audit findings, or reported financial statement findings at nine other state agencies. The following is a summary of the work we performed at the departments of Children and Families, Military Affairs, Natural Resources, Revenue, Transportation, Veterans Affairs, Office of the Commissioner of Insurance, the Wisconsin Technical College System, and Board of Commissioners of Public Lands.

Department of Children and Families

The Wisconsin Department of Children and Families (DCF) administers programs such as adoption assistance, foster care, and child support enforcement. It also administers the Wisconsin Shares child care subsidy program and Wisconsin's work-based public assistance program, Wisconsin Works (W-2). In FY 2021-22, DCF administered \$781.8 million in federal financial assistance.

We tested DCF's internal controls and compliance with grant requirements for Every Student Succeeds Act/Preschool Development Grants (Assistance Listing number 93.434), which is a type B grant program.

Department of Military Affairs

The Wisconsin Department of Military Affairs (DMA) provides a military force through the Wisconsin National Guard, which is available for use in state and national emergencies. Through the Division of Emergency Management, DMA also implements statewide emergency preparedness plans and administers federal disaster and emergency relief funds. In FY 2021-22, DMA administered \$98.3 million in federal financial assistance.

We tested DMA's internal controls and compliance with grant requirements for two type A programs: National Guard Military Operations and Maintenance (O&M) Projects (Assistance Listing number 12.401) and Disaster Grants—Public Assistance (Presidentially Declared Disasters) (Assistance Listing number 97.036).

Department of Natural Resources

The Wisconsin Department of Natural Resources (DNR) administers programs related to protecting and enhancing Wisconsin's natural resources, including its air, land, water, forests, wildlife, fish, and plants. In FY 2021-22, DNR administered \$104.1 million in federal financial assistance.

We tested DNR's internal controls and compliance with grant requirements for the Fish and Wildlife Cluster (Assistance Listing numbers 15.605/15.611/15.626), which is a type A program.

Department of Revenue

The Department of Revenue (DOR) administers the State's major tax laws, including collecting individual income taxes, sales taxes, and corporate income taxes; programs that provide financial assistance to local governments; the Wisconsin Lottery; and the Unclaimed Property program. In FY 2021-22, DOR administered \$451.6 million in federal financial assistance. We tested DOR's internal controls and compliance with grant requirements for Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) (Assistance listing number 21.027), which is a type A program. DOA entered into memoranda of understanding with DOR to use CSLFRF funding to administer various programs to assist local governments and businesses to address the effects of the public health emergency.

Department of Transportation

The Wisconsin Department of Transportation (DOT) administers transportation programs, including those affecting highways, bridges, airports, harbors, and railroads. In FY 2021-22, DOT administered \$1.0 billion in federal financial assistance.

We tested DOT's internal controls and compliance with grant requirements for the Airport Improvement Program, COVID-19 Airports Programs, and Infrastructure Investment and Jobs Act Programs (Assistance Listing number 20.106), which is a type A program. We also tested Formula Grants for Rural Areas and Tribal Transit Program (Assistance Listing number 20.509), which is a type B program.

Department of Veterans Affairs

The Wisconsin Department of Veterans Affairs (DVA) provides benefits, programs, and services for veterans living in Wisconsin. DVA also operates three veterans homes that provide care for veterans. In FY 2021-22, DVA administered \$54.5 million in federal financial assistance.

We tested DVA's internal controls and compliance with grant requirements for Veterans State Nursing Home Care (Assistance Listing number 64.015) program, which is a type A program.

Office of the Commissioner of Insurance

The Wisconsin Office of the Commissioner of Insurance (OCI) supervises the insurance industry in Wisconsin. The office is responsible for examining insurance industry financial practices and market conduct, licensing insurance agents, reviewing policy forms for compliance with state insurance statutes and regulations, investigating consumer complaints, and providing consumer information. The office administers two segregated insurance funds: the State Life Insurance Fund and the Injured Patients and Families Compensation Fund. In FY 2021-22, OCI administered \$142.0 million in federal financial assistance. For our FY 2021-22 audit, no grants or subgrants administered by OCI were selected for audit based on risk factors established by Uniform Guidance. However, we followed up on the progress of OCI in addressing Finding 2021-900 of the FY 2020-21 audit (report 22-5). OCI implemented corrective actions to address this finding. The Summary Schedule of Prior Audit Findings, which is prepared by management, begins on page 111 and describes the status of this finding as of the end of our audit period as well as ongoing steps to address findings that were not fully corrected.

Wisconsin Technical College System

The Wisconsin Technical College System (WTCS) creates policy and provides direction for the 16 technical college districts in the State of Wisconsin, administers state and federal aids, coordinates vocational and technical programs with other state agencies, and coordinates adult education and family literacy services with technical college districts and community-based organizations. In FY 2021-22, WTCS administered \$21.6 million in federal financial assistance.

We tested WTCS's internal controls and compliance with grant requirements for Career and Technical Education—Basic Grants to States (Assistance Listing number 84.048), which is a type B program.

Board of Commissioners of Public Lands

The Board of Commissioners of Public Lands (BCPL) administers various trust funds, including the Common School Fund, to support public schools and libraries. BCPL did not administer any federal financial assistance in FY 2021-22. However, as part of our audit of the State's financial statements we identified a significant deficiency in

82) OTHER AGENCIES

internal control over financial reporting related to obtaining and reviewing a service organization audit report (Finding 2022-006 of report 22-26). This finding is included in Section II of the Schedule of Findings and Questioned Costs, which begins on page 83.

....

Schedule of Findings and Questioned Costs

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires the auditor to prepare a schedule of findings and questioned costs that includes the following three sections:

- 1) a summary of the auditor's results;
- 2) findings relating to the financial statements, which are required to be reported in accordance with *Government Auditing Standards*; and
- 3) findings and questioned costs for federal awards.

Section I

Summary of Auditor's Results

As required by Uniform Guidance, the Wisconsin Legislative Audit Bureau is providing the following summary information related to the State of Wisconsin's single audit for FY 2021-22:

Financial Statements

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified?	No
Significant deficiencies identified?	Yes
Noncompliance material to financial	
statements noted?	No

Federal Awards

Internal control over major programs: Material weaknesses identified? Significant deficiencies identified? Type of auditor's report issued on	Yes Yes
compliance for major programs:	Unmodified for all major federal programs except for COVID-19— Emergency Rental Assistance Program (Assistance Listing number 21.023), which was qualified.
Any audit findings disclosed that are required to be reported in accordance with s. 200.516 (a) of Uniform Guidance?	Yes
Dollar threshold used to distinguish between type A and type B programs:	\$30.2 million
Auditee qualified as a low-risk auditee?	No

The following were major federal programs, determined in accordance with s. 200.518 (b) of Uniform Guidance:

Assistance Listing Number	Major Federal Program/Cluster
10.557	WIC Special Supplemental Nutrition Program for Women, Infants, and Children
10.649	Pandemic EBT Administrative Costs
12.401	National Guard Military Operations and Maintenance (O&M) Projects
14.239	Home Investment Partnerships Program
15.605, 15.611, 15.626	Fish and Wildlife Cluster
17.207, 17.801	Employment Service Cluster
17.225	Unemployment Insurance
20.106	Airport Improvement Program, COVID-19 Airports Programs, and Infrastructure Investment and Jobs Act Programs
20.509	Formula Grants for Rural Areas and Tribal Transit Program
21.023	Emergency Rental Assistance Program
21.027	Coronavirus State and Local Fiscal Recovery Funds
64.015	Veterans State Nursing Home Care
84.048	Career and Technical Education—Basic Grants to States
84.126	Rehabilitation Services Vocational Rehabilitation Grants to States
84.367	Supporting Effective Instruction State Grants (formerly Improving Teacher Quality Grants)
84.425A, 84.425B, 84.425D, and more	Education Stabilization Fund
93.268	Immunization Cooperative Agreements
93.434	Every Student Succeeds Act/Preschool Development Grants
93.568	Low-Income Home Energy Assistance Program
93.775, 93.777, 93.778	Medicaid Cluster
97.036	Disaster Grants—Public Assistance (Presidentially Declared Disasters)
Various	Research and Development Cluster

Section II

Financial Statement Findings

This schedule includes seven deficiencies in internal control over financial reporting that we consider to be significant deficiencies. These deficiencies in internal control over financial reporting are required to be reported by auditing standards generally accepted in the United States of America and *Government Auditing Standards*. We consider Finding 2022-001 to be an instance of noncompliance with federal requirements that is required to be reported in accordance with Uniform Guidance. We also consider Finding 2022-001 and Finding 2022-007 to be significant deficiencies in internal control over compliance. Findings 2021-002, 2021-003, and 2021-004 from the prior year (report 21-23) are no longer reportable. Repeat findings from report 21-23 are indicated with an asterisk (*).

Finding 2022-001: Medical Assistance Program Third-Party Liability

Background:

The U.S. Department of Health and Human Services provides funding to the Department of Health Services (DHS) for the Medical Assistance (MA) Program. Funding under the MA Program is used to assist states in maintaining and expanding health care services to certain categories of low-income persons. Services provided to participants include both inpatient and outpatient services that providers bill on a fee-for-service basis. Providers submit claims for services for eligible participants in the MA Program through the Medicaid Management Information System (MMIS), which is administered by the MA Program's fiscal agent. DHS works with the fiscal agent to ensure that the MMIS system is correctly processing claims, changes to the system are approved, and an audit of system controls related to claims is completed annually.

Criteria:

Under 42 CFR ss. 433.135 through 433.154, DHS is required to make reasonable efforts to determine the legal liability of third-party insurers for MA Program participants and have processes in place to identify and assess claims to determine if a third-party may be responsible for payment. For example, certain MA Program participants are also eligible for Medicare. If the services provided to a participant could be paid by Medicare, or any other third-party insurer, the claims should first be submitted to the third-party insurer by the provider before the claims are submitted to the MA Program.

To assess the validity of a claim prior to paying a provider the approved fee-for-service rate, DHS has established validity checks within MMIS called edits. These edits include cost avoidance rules, which are a series of rules within MMIS that identify claims meeting specific criteria related to whether a third-party insurer, including Medicare, could be responsible for payment of the services provided. These rules use claim information, including participant information and type of service, to determine if a third-party insurer may be responsible for payment. If the claim meets the criteria identified in these rules, the provider claim is denied. For claims that are denied through the cost avoidance rules, the MA Program may subsequently pay some claims if the third-party insurer ultimately does not cover the services provided to the participant.

Condition:

We found one MA Program payment of \$1,956 for outpatient services that was not properly identified and denied under the cost avoidance rules in MMIS. Based upon the outpatient services of this claim, the payment should have been denied because the participant was enrolled in Medicare at the time the service was provided, and Medicare may have been responsible for payment of the service.

Context:

During FY 2021-22, based upon MA Program payment information provided by DHS, a total of \$5.2 billion was paid to providers for fee-for-service claims. During FY 2021-22, there were \$324.5 million in MA Program payments for 586,522 claims for outpatient services. Of the 40 fee-for-service claims we reviewed, seven claims were for outpatient services that had payments totaling \$6,445.

Questioned Costs:

For the \$1,956 payment we identified, we question \$1,293 as the estimated federal share. We also question an undetermined amount for other claims DHS paid using MA Program funding during FY 2021-22 for participants also enrolled in Medicare.

Effect:

DHS inappropriately used MA Program funding to make a payment for an outpatient claim that may be covered by Medicare, resulting in an improper payment under the MA Program. Further, because the cost avoidance rules are applied to all claims, it is likely there are additional claims for services provided to participants who are also enrolled in Medicare that were improperly paid.

Cause:

The improper payment we identified occurred because the cost avoidance rules were not correctly established to deny this type of claim for a participant who was also enrolled in Medicare. According to DHS staff, in 2015 DHS reviewed cost avoidance rules in MMIS related to Medicare in an effort to simplify and clarify the rules. In making and testing changes to these rules, DHS did not identify errors in claims meeting criteria similar to the one selected for testing as a part of our audit. DHS indicated that no further testing specific to these rules was performed after these cost avoidance rules were tested and implemented in 2015.

☑ Recommendation

We recommend the Wisconsin Department of Health Services:

- review and update the Medicaid Management Information System cost avoidance rules to properly identify and deny payment for claims that may be covered by third-party insurers;
- identify payments made during FY 2021-22 that may have been improper due to inaccurate cost avoidance rules and seek to recover these amounts;
- return to the federal government recovered payments that may have been improper; and

 perform an assessment and implement additional procedures to review changes to cost avoidance rules in the future.

Type of Finding: Significant Deficiency, Noncompliance

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendations.

Finding 2022-002: Department of Administration/Division of Enterprise Technology Information Security Access Review Process

Background:

Under s. 16.971 (2), Wis. Stats., the Department of Administration (DOA) is responsible for the State's information technology (IT) services, including ensuring that all state data processing facilities develop proper privacy and security procedures and safeguards. As a part of DOA, the Division of Enterprise Technology (DET) operates data centers to provide a variety of services to state agencies, including managing the mainframe for all agencies; managing servers for DOA and other executive branch agencies; and maintaining DOA-related systems. In addition, DET performs programming and security functions, including maintaining the infrastructure for STAR, which is the State's enterprise resource planning system that includes accounting, payroll, and purchasing systems used by most state agencies.

We have reported access review concerns related to DET accounts since our FY 2015-16 audit and have made recommendations to DET to review and update access and retain documentation of such reviews. Although DET established a policy and standard regarding access reviews, it did not complete access reviews in accordance with the policy and standards for all hardware and software maintained by DET.

Criteria:

The Wisconsin Access Control Standard states that the privileges assigned to roles or classes of users must be reviewed annually to validate the need for such privileges. Further, the Standard states that access to privileged accounts must be reviewed at least every six months to determine whether the account is still required and access remains appropriate.

An effective access review process contains the following key elements:

- identification of all active user accounts, both standard and privileged, that should be reviewed;
- a timeline to review identified user accounts within appropriate time frames;
- approval of each user account's access by entity staff at an appropriate level within the entity that understands the user's access requirements; and
- a process to validate that access changes resulting from the review were completed.

In addition, it is important that access review documentation is maintained and that responsibilities for the access review process are communicated to the appropriate entity staff.

Condition:

During FY 2021-22, DET did not complete access reviews in accordance with the policy and standards for all DOA and DOA-managed user accounts. In addition, DET has not completed access reviews in some areas since we first made a recommendation as part of our FY 2015-16 audit.

Context:

We reviewed the State of Wisconsin *IT Security Policy Handbook* and related standards and made inquiries of senior management to gain an understanding of the process for reviewing access and to assess progress DET made in addressing our FY 2021-22 recommendations.

As noted, the areas of insufficient access reviews are pervasive across several different types of accounts. Further, these accounts have access to various hardware and software located in the DET data centers, which could affect all executive branch agencies.

Questioned Costs:

None.

Effect:

Access reviews are important to ensure access remains appropriate based on user responsibilities and the principle of least privilege. Because DET hosts and supports a significant number of executive branch agency systems at its data centers, users with inappropriate access have the ability to affect the computing resources and data of all state agencies with resources connected to the DET network.

Cause:

DET indicated that steps were taken in FY 2021-22 to attempt to complete user access reviews. However, DET indicated it was unable to develop clear and reproducible access reports that could be used for a regular access review process. DET indicated that in August 2022, it purchased an access management tool to automate the user access reviews and is developing plans to implement the tool in FY 2022-23. Although automating the access review process could be beneficial, this access management tool cannot be applied to all access types applicable to the DET network environment.

☑ Recommendation

We recommend the Wisconsin Department of Administration, Division of Enterprise Technology develop and complete a process by June 30, 2023, to perform access reviews in accordance with the State of Wisconsin IT Security Policy Handbook, including updating access based on the review and retaining documentation of the review and the updates made to access.

Type of Finding: Significant Deficiency

Response from Wisconsin Department of Administration, Division of Enterprise Technology: The Wisconsin Department of Administration agrees with the audit finding and recommendation.

Finding 2022-003: Department of Administration/Division of Enterprise Technology Information Security Policy Exception Process

Background:

Under s. 16.971(2), Wis. Stats., DOA is responsible for the State's IT services, including ensuring that all state data processing facilities develop proper privacy and security procedures and safeguards. Further, statutes require DOA to provide oversight and monitoring of state agency IT operations. As a part of DOA, DET operates data centers to provide a variety of services to state agencies, including managing the mainframe for all agencies; managing servers for DOA and other executive branch agencies; and maintaining DOA-related systems.

DOA implemented the State of Wisconsin *IT Security Policy Handbook*, which includes policies for IT security and the related standards. Executive branch agencies are expected to comply with these policies and standards, or obtain an approved exception to a policy or standard if compliance cannot be achieved. An exception is a known deviation from policies in the State of Wisconsin *IT Security Policy Handbook* and related standards. For example, DOA may approve an exception to allow an agency to deviate from an established IT security policy, such as a password policy.

We reported concerns with the process for requesting an exception during our FY 2018-19 audit and made recommendations to DET to improve its process. During our FY 2020-21 audit, we again made recommendations to DET to improve its exception process. However, DET did not make sufficient progress in addressing our recommendations in this area.

Criteria:

The compliance section of the State of Wisconsin *IT Security Policy Handbook* and related standards states that if compliance with particular policies or related standards is not feasible or technically possible, or if a deviation from a policy or standard is justifiable to support a business function, executive branch agencies can request an exception through the exception procedures established by the DOA/DET Bureau of Security. Further, the Security Policy and Standards Review and Maintenance section of the State of Wisconsin *IT Security Policy Handbook* and related standards states that the DOA/DET Bureau of Security is responsible for coordinating the review and tracking of exception requests to the IT security policies and standards.

An effective exception process contains the following key elements:

- identification of situations where established processes or configurations do not comply with established policies;
- a process to report exceptions to these policies by entity staff at an appropriate level within the entity;

- an assessment of the exception requested that considers risks to the entity of authorizing the exception and potential compensating controls that could be implemented;
- approval of exceptions at an appropriate level within the entity that understands the policies and risks; and
- regular review of approved exceptions, such as annually, to ensure risks remain acceptable and to consider if changes can be made to alleviate the need for an exception.

In addition, it is important that documentation of exception requests and approvals be maintained and that the responsibilities for the exception process are appropriately communicated.

Condition:

In response to recommendations from our FY 2020-21 audit, DET indicated it would review its new dashboard that identifies exceptions to the State of Wisconsin *IT Security Policy Handbook*, as self-reported by executive branch agencies. DET also indicated it would work with executive branch agencies to ensure any exceptions identified in this review were drafted and approved by September 30, 2022. However, as of June 30, 2022, DET completed a preliminary analysis of the dashboard, identified instances of noncompliance, and indicated that meetings were held to assist agencies in becoming compliant with the policies. However, DET did not provide sufficient documentation to support that these meetings were held, the discussions that occurred, and the steps that agencies were taking to become compliant. Further, there were no new exceptions drafted, even though agencies were not following all policies, standards, and procedures in the State of Wisconsin *IT Security Policy Handbook*. We followed up with DET in October 2022, and found that executive branch agencies were asked to draft exceptions and provide them to DET by November 30, 2022.

In response to recommendations from our FY 2020-21 audit, DET had indicated that by March 30, 2022, it would perform an assessment of current exceptions, identify the risks related to approving the exceptions, and consider potential compensating controls. In completing testing during our FY 2021-22 audit, we found DET remediated 2 of 13 policy exceptions we identified during our FY 2020-21 audit and prepared draft exceptions for 3 others.

DET also had indicated that it would review approved exceptions on a quarterly basis to assess if the approval of the exception should continue. Although DET provided a spreadsheet that indicated that it was tracking some exceptions, the documentation did not include evidence that DET consistently communicated with the agency regarding the continued need for the exception or an assessment of the risks related to the exception. For example, in December 2021 DET requested an agency provide additional information regarding an exception. However, DET did not provide a due date for its request. As of October 2022, there was no response from the agency, or documentation that DET had followed up with the agency on its request.

Finally, DET indicated it would review its exceptions procedure and forms, make revisions to ensure exceptions are properly submitted and approved, and communicate relevant procedures and responsibilities to DET and executive branch

agencies by March 30, 2022. DET did not complete a review or make updates to its exceptions procedure and forms by March 30, 2022, or before the end of FY 2021-22.

Context:

We reviewed the State of Wisconsin *IT Security Policy Handbook* and related standards, made inquiries of DET staff, reviewed approved exceptions, and evaluated the design of the existing exception process.

We evaluated the new dashboard for agency compliance with the State of Wisconsin *IT Security Policy Handbook* and related standards. We compared the dashboard results against the spreadsheet of approved and in progress exceptions. We identified concerns with the exception process across nine policy areas in the State of Wisconsin *IT Security Policy Handbook* and related standards.

Most state agencies use computer systems that are located on the mainframe or on servers maintained in the DET data centers. Therefore, IT weaknesses at one agency can affect IT security for other agencies.

Questioned Costs:

None.

Effect:

Without a strong information security policy exception process in place, DET does not have an appropriate awareness of areas where policies are not being followed. As a result, weaknesses in the overall security in the state network may not be identified or corrected.

In our review of compliance with nine policies and standards in the State of Wisconsin *IT Security Policy Handbook* and related standards, as reported in the Policy Standards and Procedures dashboard by four executive branch agencies, we identified 34 areas of noncompliance or partial noncompliance with the policies and standards for which there was not an approved exception.

Cause:

DET did not have adequate procedures in place for administering the exceptions process and did not develop an efficient training process to address agency staff turnover. Documentation provided by DET indicated that DET did not communicate regularly with executive branch agencies regarding the status of exceptions, establish timelines for agency responses to DET's inquiries, or escalate to senior management when an agency was not responding to DET's inquiries. In addition, DET did not have procedures for escalating executive branch agency noncompliance with the State of Wisconsin *IT Security Policy Handbook* and related standards, to senior management within the particular agency and within DOA.

DET staff indicated that other priorities, including resolving questions and issues arising from other third-party audits of DET, were assessed as higher priority than addressing the recommendations in this area.

☑ Recommendation

We recommend the Wisconsin Department of Administration, Division of Enterprise Technology:

- complete by January 31, 2023, a review of its existing IT security exception process and make revisions to the process, including developing a procedure for escalating noncompliance with established policies to senior management within the Department of Administration and within the particular executive branch agency;
- develop an exception process training program and communicate the relevant training program and exception process procedures and responsibilities to its staff and executive branch agency staff by January 31, 2023; and
- complete and document its review and assessment of processes and configurations that do not comply with established policies, complete approvals of exceptions when changes to processes cannot be made timely, maintain documentation of discussions and meetings with agency staff as the review and assessment of exceptions are completed, and complete this review and approval of exceptions by March 31, 2023.

Type of Finding: Significant Deficiency

Response from the Wisconsin Department of Administration, Division of Enterprise Technology: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

Finding 2022-004: Department of Administration Information Technology Oversight and Monitoring Responsibilities*

Background:

DOA is responsible for the State's IT services, including providing oversight and monitoring of executive branch agency IT operations. We first recommended that DOA develop and implement executive branch agency IT policies and standards and provide oversight and monitoring of executive branch agencies' IT operations seven years ago during our FY 2014-15 audit. During subsequent audits, we recommended that DOA take steps to identify, assess, and address risks for the State's IT environment. These steps were to include completion of a comprehensive risk management program across all executive branch agencies. DOA has taken steps including:

 implementing in FY 2018-19 the State of Wisconsin *IT Security Policy Handbook*, which includes policies for IT security and the related standards with which executive branch agencies are expected to comply;

- developing in FY 2019-20 a risk assessment plan, which contained a plan for improving vulnerability management and completing penetration testing;
- initiating efforts in FY 2020-21 to develop a baseline understanding of agency compliance, with the State of Wisconsin *IT Security Policy Handbook* and related standards; and
- implementing and configuring in FY 2021-22 a new vulnerability management tool.

During our FY 2020-21 audit (report 21-23), we found that DOA did not collect needed information from all executive branch agencies, and DOA did not establish a plan for other important monitoring steps, such as analyzing the effectiveness of the procedures established by executive branch agencies. At that time, we recommended that DOA improve its monitoring program, perform ongoing vulnerability assessments, and update its risk assessment program.

Criteria:

Wisconsin Statutes give DOA responsibility for the State's IT services. Under s.16.971 (2), Wis. Stats., DOA is required to work with executive branch agencies to establish IT policies, procedures, and planning processes. In addition, statutes require DOA to monitor adherence to these policies, procedures, and processes. Further, statutes require DOA to provide oversight and monitoring of executive branch agency IT operations, which includes ensuring:

- management reviews of IT organizations are conducted;
- all executive branch agencies develop and operate with clear guidelines and standards in the areas of IT systems development and employ good management practices and cost-benefit justifications; and
- all state data-processing facilities develop proper privacy and security procedures and safeguards.

Finally, s. 16.973 (3), Wis. Stats., states that DOA shall facilitate the implementation of statewide initiatives, including the development and maintenance of policies and programs to protect the privacy of individuals who are the subjects of information contained in the agency databases.

National Institute of Standards and Technology (NIST) 800-137 *Information Security Continuous Monitoring (ISCM) for Federal Information Systems and Organizations* indicates that ongoing monitoring is a critical part of an organization's risk management process. In addition, an organization's overall IT security architecture and accompanying security program should be monitored to ensure that organization-wide operations remain within an acceptable level of risk despite any changes that occur. Key steps in effective monitoring include:

- developing and communicating the policies, procedures, and standards that form the security framework;
- collecting information on the effectiveness of the policies, standards, and procedures;

- analyzing the information collected;
- responding to the results of the analyses; and
- reviewing and updating the monitoring program.

Condition:

During our FY 2021-22 audit, we found again that DOA did not have sufficient oversight and monitoring in place to ensure executive branch agency adherence to the State of Wisconsin *IT Security Policy Handbook* and related standards. DOA completed and published a baseline dashboard of agency compliance with the *IT Security Policy Handbook* and related standards, based on information self-reported by executive branch agencies. DOA completed a preliminary analysis of the dashboard, identified instances of noncompliance, and indicated that meetings were held to assist agencies in becoming compliant with the policies. However, DOA did not provide sufficient documentation to support that these meetings were held, the discussions that occurred, and the steps that agencies were taking to become compliant. We include recommendations in Finding 2022-003 for DOA to improve its information security policy exception process that will help address these concerns.

Given its statutory responsibilities, it would be expected that DOA would review agency procedures to assess the accuracy of the self-reported information, and the effectiveness of the procedures established by the executive branch agencies. However, DOA did not take sufficient steps to assess the accuracy of the agency-reported information. DOA indicated that it performed some reviews of agency procedures to assess compliance with the IT policies. However, DOA did not provide documentation to support that these reviews were completed, and DOA indicated it had no plans to conduct additional reviews. In our review of agency compliance with the State of Wisconsin *IT Security Policy Handbook* and related standards, we found that certain controls reported by four agencies in the dashboard as being compliant were not compliant based on our audit work. For example, two agencies assessed their personnel termination status as implemented. However, the agencies' timelines to disable access exceeded the timeline listed in the standard. Another agency assessed its business continuity plan test as implemented. However, upon discussion with the agency, the planned test was canceled due to lack of staff availability.

During FY 2021-22, DOA worked with executive branch agencies to implement a new vulnerability management tool. As of June 30, 2022, 14 of 19 agencies had implemented the new tool. However, a licensure issue resulted in changes to how DOA planned to use the vulnerability tool, at least in the short term. As a result, DOA did not establish plans for how ongoing vulnerability assessments would be performed, or how DOA would respond to those assessments and make changes to the State's IT environment.

Finally, due to the implementation issues with the new vulnerability tool, DOA did not make further progress in the development of its risk assessment plan. In addition, DOA did not update its risk assessment plan to include consideration of the risks related to known deviations from policies in the State of Wisconsin *IT Security Policy Handbook* and related standards. For example, DOA may approve an exception to allow an agency to deviate from an established IT security policy, such as a password policy. Although deviations from the policies have been approved, the deviations may bring additional risk that DOA should consider in its oversight and monitoring of the State's IT environment. In Finding 2022-003, we make recommendations for DOA to improve the information security policy exception process.

Context:

State agencies rely on computer systems to complete critical functions, including processing checks, accounting for cash receipts, preparing financial statements, and administering federal grant programs. DOA is responsible for ensuring these computer systems are properly secured. We interviewed key DOA staff to gain an understanding of the steps that were taken by June 30, 2022, to provide oversight and monitoring of executive branch agency IT operations and adherence to the State of Wisconsin *IT Security Policy Handbook* and related standards. We also interviewed key DOA staff to gain an understanding of DOA's plans for utilizing the new enterprise vulnerability management tool to identify vulnerabilities with security patch, configuration, and regulatory compliance issues. We evaluated the baseline dashboard of executive branch agency compliance with the State of Wisconsin *IT Security Policy Handbook* and related standards results against our review of agency compliance with certain IT policies and standards for four executive branch agencies.

Because DOA has responsibility to provide oversight and monitoring over IT operations for executive branch agencies, and because there are connections among agencies in the State's network, IT weaknesses at one agency can affect IT security for other agencies.

Questioned Costs:

None.

Effect:

For FY 2021-22, DOA did not comply with s.16.971 (2), Wis. Stats., which requires DOA to provide oversight and monitoring of executive branch agency IT operations and adherence to the State of Wisconsin *IT Security Policy Handbook* and related standards. Insufficient monitoring of agency IT environments can lead to vulnerabilities in the State's network, known or unknown, because there is no assurance that all systems are meeting the minimum level of security for the State's IT environment, as established in the State of Wisconsin *IT Security Policy Handbook* and related standards. Weaknesses in the security of the network can lead to inappropriate access to confidential or sensitive data, unauthorized changes to the data within the system, or a failure of the system.

Cause:

DOA indicated that executive branch agencies were not always responsive to requests to discuss noncompliance with the State of Wisconsin *IT Security Policy Handbook* and related standards, and the steps needed to address the noncompliance. However, DOA did not have procedures to assist its staff in understanding when and how to escalate to senior management within the particular agency and within DOA when agencies were not responsive.

DOA did not establish a monitoring process to analyze the accuracy of the agency-reported information or to assess the effectiveness of executive branch agency controls. DOA should develop a plan for the review of agency procedures. This plan could include different levels of review based on an assessment of risk to the State's IT environment and could be cycled to smooth the effort over a period of time.

Finally, DOA indicated that it encountered licensure issues in implementing the new vulnerability management tool, which delayed its comprehensive use of the tool for ongoing monitoring and precluded additional updates to its risk assessment program.

☑ Recommendation

We recommend the Wisconsin Department of Administration, Division of Enterprise Technology comply with its statutory responsibilities to provide oversight and monitoring of executive branch agency adherence to the State's IT policies by:

- using its statutory authority to ensure executive branch agencies conform with the State's IT policies and standards or obtain an approved exception by March 31, 2023;
- developing and communicating to executive branch agencies by March 31, 2023, a monitoring plan to review the effectiveness of agency-reported information in the dashboard, including how the Department of Administration will report results to the agency and expected timelines for agencies to correct the noncompliance with the State's IT policies and standards or obtain an approved exception;
- establishing detailed plans by June 30, 2023, for how it will perform ongoing vulnerability assessments with the new vulnerability management tool, respond to those assessments, and make changes to further strengthen the State's IT environment; and
- continuing to update its risk management program including considering the risks related to approved policy exceptions and remediating known vulnerabilities.

Type of Finding: Significant Deficiency

Response from the Wisconsin Department of Administration, Division of Enterprise Technology: The Wisconsin Department of Administration agrees with the audit finding and recommendations.

Finding 2022-005: Financial Reporting for the Medical Assistance Program

Background:

The financial activity of programs administered by DHS, which includes the MA Program, is reported as part of the State's General Fund in the State's Annual Comprehensive Financial Report (ACFR). The MA Program provides health care services to certain categories of low-income persons. The MA Program is significant to the General Fund and, as a result, consideration of the activity of this program and changes in the program are critical to accurate financial reporting.

In FY 2021-22, DHS claimed additional federal funds for the MA Program, as allowed by Section 9817 of the American Rescue Plan Act of 2021. The claim amount was calculated based upon an increase in the federal medical assistance percentage (FMAP) rate by 10 percent for certain home and community-based services provided to participants during the period April 1, 2021, through March 31, 2022. To claim the increased FMAP rate, DHS made several adjustments primarily related to the allowable portion of monthly capitation payments. These adjustments resulted in the receipt of federal funds totaling \$329.2 million during FY 2021-22. Further, an additional \$75.5 million was received in FY 2022-23 that related primarily to certain services provided to participants on a fee-for-service basis during the period from April 1, 2021, through March 31, 2022.

Federal regulations require the funds derived from the increased FMAP to be reinvested in the MA Program to implement or supplement home and community-based services to participants. DHS is required to return to the federal government any remaining amount that is unexpended as of March 31, 2025. During FY 2021-22, DHS had reinvested \$50.6 million of these funds.

Criteria:

For use in preparing the financial statements of the State's General Fund as reported in the ACFR, DHS is responsible for preparing adjustments in accordance with Governmental Accounting Standards Board (GASB) standards and submitting this information to the Department of Administration State Controller's Office (DOA-SCO). The *Uniform GAAP Conversion Policies and Procedures Manual*, which is published by DOA-SCO, provides guidance to state agencies in preparing adjustments. Using the requirements of the accounting standards promulgated by GASB, Section V-18 of the manual includes requirements related to the appropriate reporting of amounts received related to a federal grant program.

Condition:

DHS did not consider whether the additional funds derived from the increased FMAP required an adjustment to properly report the activity in the General Fund financial statements. At our request, DHS reviewed the process used to claim and receive these funds as well as the federal requirements related to the use of these funds. From this analysis, DHS concluded that the \$75.5 million in federal funds it received in FY 2022-23 should have been accrued both as a receivable and as a federal revenue for FY 2021-22. In addition, because the federal government required the funds to be reinvested in certain MA Program services, the unspent balance of \$278.6 million as of June 30, 2022, as well as the \$75.5 million received in FY 2022-23, should have been reported as a restriction of the General Fund's fund balance in the financial statements.

Context:

We interviewed DHS staff to gain an understanding of the federal requirements related to the receipt of the funds derived from the increased FMAP and reviewed the federal regulations related to the future use of these amounts. We also reviewed claim adjustments processed throughout FY 2021-22 and adjustments subsequent to the end of FY 2021-22 to verify activity related to the funds.

Questioned Costs:

None.

Effect:

The Intergovernmental Revenue account on the Statement of Revenues, Expenditures, and Changes in Fund Balance and Due from Other Government account on the

Balance Sheet were understated by \$75.5 million for the General Fund. In addition, Fund Balance—Restricted was understated by \$354.1 million and Fund Balance— Unrestricted was overstated by \$354.1 in the General Fund Balance Sheet.

Cause:

DHS staff responsible for financial reporting discussed MA Program activity with staff responsible for accounting and monitoring the MA Program to identify potential adjustments that may have been needed to the FY 2021-22 General Fund financial statements. These discussions were not sufficient to identify the need for an adjustment related to the receipt and future use of the funds derived from the increased FMAP.

☑ Recommendation

We recommend the Wisconsin Department of Health Services:

- develop and implement additional procedures to evaluate the potential effects of changes in the programs that it administers; and
- use the additional procedures to evaluate changes that may require further consideration and adjustments for financial reporting purposes.

Type of Finding: Significant Deficiency

Response from the Wisconsin Department of Health Services: The Wisconsin Department of Health Services agrees with the audit finding and recommendations.

Finding 2022-006: Common School Fund—Service Organization Internal Controls

Background:

The Board of Commissioners of Public Lands (BCPL) administers the Common School Fund, which accounts for proceeds from the sale of land granted by the federal government to Wisconsin when it became a state. The state Constitution established that the proceeds from the sale of the public lands be invested and held in perpetuity in the Fund, and the investment income be distributed as library aids to school districts.

2015 Wisconsin Act 60 expanded BCPL's investment authority, which allowed it to consider a broader array of investments for the Common School Fund assets. Prior to this time, the Common School Fund assets were limited to investments in certain municipal bonds and notes. Since that time, BCPL has expanded its investments to include equities and limited partnerships.

Criteria:

Management is responsible for the proper design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial information that is free from material misstatement. This includes instances in which management contracts with a service organization, which is an organization that provides services to another entity and those services are relevant to the entity's internal controls over financial reporting. For example, an entity may use a service organization to process financial transactions or an entity may outsource some of its accounting functions to a service organization.

When using a service organization, the entity should gain assurances that the internal controls at the service organization are operating effectively because weaknesses in the service organization's internal controls could affect the financial activity of the entity. Such assurances could be gained through a service organization audit, which includes a report on the service organization's internal controls by an independent auditor. One type of audit that may be completed includes an opinion on the fairness of management's description of the internal controls in place at the service organization, whether the auditor believes the service organization's internal controls are suitably designed to achieve the internal control objective, and whether the service organization's internal control objective.

If an entity relying on a service organization does not obtain a service organization audit report, the entity should ensure it has assessed the work being completed by the service organization, and has implemented procedures to ensure the accuracy of processing completed by the service organization and of the information provided by the service organization.

Condition:

BCPL maintains a service agreement with a custodian bank, which is responsible for conducting purchases and sales of investments as authorized by BCPL. The custodian bank makes wire transfers for capital calls for limited partnership investments, collects income, and keeps cash and investment holdings for the Common School Fund. BCPL also relies on accounting and investment reports prepared by the custodian bank, including reporting the fair value of investments to BCPL, which are used for financial reporting. The custodian bank performs certain services for BCPL that classify it as a service organization.

Although BCPL relies on the custodian bank, it did not document its assessment of its reliance on the custodian bank, it did not obtain a service organization audit report from its custodian bank, nor did it perform other procedures sufficient to reduce risk. For example, BCPL could request its custodian bank to provide a SOC 1, Type 2 service organization audit report, which would provide an independent auditor's opinion on the design and effectiveness of the custodian bank's internal controls that are important to BCPL's financial reporting. BCPL could also assess the reliance placed on its custodian bank and reduce its risks by performing other procedures, such as reviewing the investment valuation provided by its custodian bank to provide assurance of its accuracy.

Context:

We reviewed BCPL's investment records for the Common School Fund and discussed its investment procedures, including the services provided by its custodian bank. When we inquired about the internal controls related to the custodian bank, we learned that BCPL did not obtain a service organization audit report from its custodian bank. The Common School Fund investment assets have increased from \$496.4 million as of June 30, 2015, to \$981.1 million as of June 30, 2022, an increase of \$484.7 million, or 97.6 percent.

Questioned Costs:

None.

Effect:

The custodian bank may have internal control deficiencies about which BCPL is unaware that could affect the investments or financial reporting for the Common School Fund.

Cause:

BCPL staff indicated that the custodian bank would provide a service organization audit report. However, BCPL staff did not know which specific internal controls at the custodian bank were important and, therefore, needed to be tested by a service organization auditor.

Because a service organization audit report provides an opinion on whether internal controls of the service organization are operating effectively, BCPL could obtain a service organization audit report as an additional tool to assess whether its custodian bank has effective internal controls in place and to assess whether any identified deficiencies should be further discussed and addressed with respect to BCPL transactions and holdings. In addition, BCPL could use the service organization audit report to assess whether appropriate and sufficient internal controls are in place at BCPL to complement the internal controls at the custodian bank.

☑ Recommendation

We recommend the Wisconsin Board of Commissioners of Public Lands:

- complete and document an assessment of its reliance on its custodian bank; and
- determine and implement internal controls as appropriate to ensure the accuracy of information it receives from the custodian bank; or
- obtain a service organization audit report from its custodian bank, assess and document its review of the effectiveness of the custodian bank's internal controls as reported in the service organization audit report, and assess and document its review of the service organization audit report to ensure appropriate and sufficient internal controls are present at the Board of Commissioners of Public Lands to complement the internal controls at the custodian bank.

Type of Finding: Significant Deficiency

Response from the Board of Commissioners of Public Lands: The Wisconsin Board of Commissioners of Public Lands agrees with the audit finding and recommendations.

Finding 2022-007: UW System Information Technology Internal Control Deficiencies

Background:

In April 2021, the University of Wisconsin (UW) System implemented ShopUW+ (SUW) as a new procure-to-pay procurement system that integrates approval of purchases among all 13 UW institutions. Similar to other systemwide applications, UW System Administration was responsible for administering SUW, including developing systemwide polices and ensuring adequate internal controls. SUW is a cloud-based system, and some SUW activities are integrated with UW System's accounting system, the Shared Financial System (SFS). For example, SUW system roles responsible for providing approvals on UW purchases are authorized by designated individuals at each UW institution. Certain other roles are provisioned through a formal process within SFS. The process to provide SUW approval access, and subsequently monitor this access, was different than with SFS.

Criteria:

Under s. 36.09 (1), Wis. Stats., the Board of Regents is vested with the primary responsibility for the governance of UW System. In discharging this responsibility, compliance with local, state, and federal regulations is necessary to protect institutional and research data. UW System Administrative Procedure 1031.B Information Security: Data Protections requires that information technology systems follow operating system-specific best practices for system management and security. Such best practices include limiting access to those individuals who need access to complete properly separated job duties and periodically reviewing the access provided to ensure it remains appropriate.

According to the National Institute of Standards and Technology (NIST) *Cybersecurity Framework and NIST 800-53 Release 5*, when an entity uses a cloud-based third-party to process financial transactions or it outsources some of its information technology functions, the entity should consider whether assurances are needed to ensure the third-party internal controls are operating effectively. Weaknesses in the third-party's internal controls could affect the financial activity of the entity. These assurances are typically provided through a service organization audit report, which is a report on the service organization's internal controls by an independent auditor.

A service organization audit report is intended to meet the needs of management of user entities, such as UW System Administration, and user entities' auditors. One type of audit that may be completed includes an opinion on the fairness of management's description of the internal controls in place at a service organization, whether the auditor believes those controls are suitably designed to achieve the internal control objective, and whether the internal controls are effective at achieving the control objective.

Condition:

We identified two concerns with the internal controls over SUW. First, we found that UW System Administration had not formally documented that UW institutions should periodically review approval access authorized within the SUW application. We also note that these approval roles within SUW were not included in the SFS access review process conducted by UW institutions. UW System Administration provides weekly reports of employee job changes to assist UW institutions in monitoring SUW approval access. Although UW System Administration staff indicated that certain UW institution staff were responsible for conducting a review of this report to monitor SUW-authorized access, there was no established procedure nor any systemwide monitoring to ensure that each UW institution completed such a review. We contacted four UW institutions and only one UW institution identified the weekly job change report provided by UW System Administration as part of their process to review SUW approval access.

Second, UW System Administration did not obtain a service organization audit report from its third-party SUW vendor during FY 2021-22 to provide assurances that the vendor had appropriate internal controls in place and that they were operating effectively. Because UW System Administration did not obtain the annual service organization audit report, it also did not consider the adequacy of certain activities that UW System should have in place to ensure reliance on the third-party vendor's internal controls, such as reviewing SUW access authorized by UW institutions.

Context:

We reviewed the SFS and SUW systems, which include internal controls over certain UW institution expenses reported in the FY 2021-22 financial statements and certain federal grant programs. During FY 2021-22, UW System approved \$1.3 billion in payments through access authorized within SUW. We also assessed established UW systemwide policies requiring adequate internal controls and procedures to ensure that each UW institution complied with these policies. In addition, we reviewed a UW System Office of Internal Audit report on certain SUW internal controls that was completed in March 2022. We further discussed the SFS and SUW access review process with UW System Administration and certain UW institutions. We performed transaction testing to review a sample of payments, including those approved through SUW, to ensure the transactions were appropriately approved. We discussed management of service organization audit reports with UW System Administration staff.

Questioned Costs:

None.

Effect:

Access reviews are important to ensure access remains appropriate based on user responsibilities and the principle of least privilege. Failure to monitor access can lead to inappropriate access to sensitive data or inappropriate transaction approvals. Although it can be difficult to determine how information security concerns affect the financial statements and material compliance areas, ineffective information security controls may permit controls over individual systems to operate improperly and may allow financial statement misstatements and noncompliance to occur and not be detected.

Cause:

UW System Administration had emphasized with UW institutions that each UW institution was responsible for granting appropriate access for SUW approvers. However, UW System Administration had not communicated in writing the responsibility of UW institutions to conduct periodic access reviews for SUW approval roles nor did UW System Administration include SUW approval roles in the SFS access review process due to the large number of approvers. UW System Administration is currently working on the Administrative Transformation Program (ATP), which will replace certain systemwide information technology applications, and it currently plans to retain SUW when the ATP project is completed. Therefore, UW System Administration should take further steps to clarify and monitor UW institution review requirements for SUW approval access.

UW System Administration performed a risk assessment in 2019 prior to contracting with the cloud-based third-party vendor to assess the vendor's internal controls, including security provisions. In addition, UW System's contract with the cloud-based third-party vendor provides for a service organization audit report. However, no UW System Administration staff were assigned the responsibility or requirement to annually obtain and review such a report. As the application owner, UW System Administration should obtain and review a service organization audit report at least annually. Because UW System's current ATP project is planning to rely on additional cloud-based third-party vendors to administer aspects of these new systemwide applications, it is important for UW System Administration to establish systemwide policies to adequately monitor cloud-based third-party vendor internal controls.

☑ Recommendation

We recommend the University of Wisconsin System Administration improve its oversight of the ShopUW+ application by:

- developing a written requirement for University of Wisconsin institutions to periodically review ShopUW+ approval access and communicating this requirement to all University of Wisconsin institutions;
- developing a procedure to monitor the compliance of all University of Wisconsin institutions with the requirement for periodic review of ShopUW+ approval access;
- developing a policy to require periodic review of the adequacy of certain cloud-based third-party vendors' internal controls, such as by assigning the responsibility to obtain a service organization audit report and ensuring such reports are reviewed; and
- annually obtaining and reviewing relevant service organization audit reports.

Type of Finding: Significant Deficiency

Response from the University of Wisconsin System Administration: The University of Wisconsin System Administration agrees with the audit finding and recommendations.

Section III

Federal Award Findings and Questioned Costs

Uniform Guidance requires that audit findings be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action, and for federal agencies and pass-through entities to make a management decision. The specific information that Uniform Guidance requires in audit findings can be found in the agency narratives on the page numbers referenced in this section. The agency narratives also include the agencies' responses. Agencies' corrective action plans for audit findings are included in the Corrective Action Plans chapter, which begins on page 251.

Federal Program: Medical Assistance Program (Assistance Listing number 93.778) COVID-19—Medical Assistance Program (Assistance Listing number 93.778)

Status of Audit Finding: Partially Corrected

DHS implemented changes to its weekly report to accurately identify all instances in which payments were made to providers who were subsequently identified to be ineligible, including identifying all claims where providers were terminated between the beginning and ending date of a service range.

DHS has not recouped improper Medical Assistance Program payments it made to five ineligible providers during FY 2020-21 for services provided after their effective termination dates. DHS Office of Legal Counsel determined that before DMS can actively recover from terminated providers, the Department needs to update its recovery process. DHS needs to ensure the Department is in compliance in cases of changes in ownership, which is the most common example of terminated providers being reimbursed. Recoupment from these providers will be attempted once this project is implemented. The project is scheduled to be implemented prior to September 30, 2022.

Federal Program: COVID19—Coronavirus Relief Fund (Assistance Listing number 21.019)

Status of Audit Finding: Partially Corrected

The Coronavirus Relief Fund - Nursing Incentive Program was a one-time program; therefore, an approach for ongoing documentation specific to this program is not needed. The Bureau did create additional documentation for this specific program while gathering documentation for the Legislative Audit Bureau. Between the issuance of 2021-305 and the end of June, we met with our IT coordinator and management team to think through the best way to integrate processes, policies, and approvals. Planning for a work tracking system had already been underway since January of 2022. Since June, we have rolled out the work tracking system for testing to our managers before we roll out to all Bureau staff. We have and will continue to refine this system. We have scheduled a Bureau wide meeting to roll out the work tracking system to all staff on February 28, 2023. In addition, we have engaged our IT Bureau to implement an additional layer of approval in the PRISM system that the Bureau of Rate Setting uses to approve payments to capture the record of section manager approval. This is expected to be completed sometime in 2023, with user acceptance testing planned for March, 2023.

Finding: Children's Health Insurance Program Participant Age (2020-303)

Federal Program: Children's Health Insurance Program (Assistance Listing number 93.767)

Status of Audit Finding: Partially Corrected

On June 10, 2022, DHS implemented a restriction in our manual certification system that prevents workers from certifying members for CHIP when they do not meet the age requirements for CHIP. If a worker tries to certify a person aged 19 or older for CHIP, the system will provide the following edit: "The Medical Status Code you have selected is not allowed for the age range of the member for the certification dates entered. Please select an appropriate Medical Status Code to proceed." This change was completed by Gainwell Technologies in collaboration with DHS staff under Change Order 119008.

DHS still plans to evaluate and correct any existing cases in which someone age 19 or older may be certified for CHIP. However, because of our implementation of continuous coverage during the public health emergency, in which BadgerCare Plus members maintain their coverage unless they pass away, move out of state, or voluntarily request to be disenrolled, we do not plan to complete this evaluation and correction process until after the federal public health emergency ends.

Finding: Medical Assistance Program Payments for Ineligible Services to Inmates (2018-303)

Federal Program: Medical Assistance Program (Assistance Listing number 93.778)

Status of Audit Finding: Corrective Action Taken

DHS has completed the corrective action plan for this finding. The identified claims have been sent for adjustment and the federal share of the claims has been repaid. A system project was implemented on June 30, 2021, that automates the identification and denial of claims for incarcerated members. This was done with the creation of a member status to suspend members that are incarcerated and only allow inpatient services during the time of their incarceration.

DHS has implemented improvements in the communication of inmates MA program eligibility and payment with the Department of Corrections. DHS implemented a systems change in October 2020 to collect DOC facility type when incarceration information is entered during application for benefits, renewal of benefits, or when there is a change entered on an open case. The facility type data is exchanged with MMIS and DMS staff in the EM CAPO unit update the agency/site code to appropriately apply DOC pricing.

Summary of OCI's Corrective Action

The Legislative Audit Bureau (LAB) recommended modifications to the WIHSP phase I and phase II verification audit processes. Those modifications have been implemented. The updated processes are applicable beginning with the plan year (PY) 2021 verification audit, currently underway as of May 26, 2022. A summary of the modifications is provided below.

Random Samples

An Excel template programed with the Excel RANDARRAY¹ function determines enrollees to be sampled. This same template will be used to determine which claims require proof of payment as part of the phase II audit.

Number of Enrollees Reviewed

OCI will select at least 60 enrollees for review during the phase I audits and has updated WIHSP policies and procedures to reflect a requirement that at least two enrollees are reviewed for each insurer. The number of enrollees pulled per insurer continues to be based on insurer WIHSP claim volume, however, at least two from each insurer will be reviewed. In some years, this will lead to an overall sample size of over 60 enrollees. For PY 2021, this process resulted in 65 enrollee samples.

Beginning with the PY 2021 phase II verification audit, OCI will require insurers to provide proof of payment for two claims associated with each of the individuals reviewed during phase I.

Secondary Review

OCI has implemented a secondary review process applying to a select number of enrollees and claims during both phases of the audit process.

Status of Prior Year Audit Findings

Finding: Department of Administration Information Technology Oversight and Monitoring Responsibilities (2021-001, 2020-002, 2019-003, 2018-004, 2017-005)

Status of Audit Finding:

Partially Corrected

Planned Corrective Action:

DET continues to work with executive branch agencies that are not in compliance with the State of Wisconsin IT Security Policy Handbook and related Standards. An updated Policy, Standards and Procedures (PSP) template will be issued on August 1, 2022, to monitor agency progress towards compliance as well as ensure compliance with the new policies and standards that were added during the last annual review. Agency response of the PSP template is requested by September 30, 2022. If an agency is not in compliance with a policy or standard, agencies will submit an exception, following the Enterprise Exception Procedure, to DET by November 30, 2022.

DET has procured and implemented a vulnerability management tool. Standard operating procedures and roles and responsibilities have been established for performing vulnerability management assessments per the established schedule and timeline. DET will continue to work with the executive branch agencies to update the Risk Assessment Plan and ensure that agencies are in compliance with the Risk Assessment Policy and related Standard. Anticipated Completion Date for the updated Risk Assessment Plan is December 30, 2022.

Person responsible for corrective action: Alan Greenberg, CISO Division of Enterprise Technology Alan.Greenberg@wisconsin.gov

Finding: Implementation of IT Procedures by the Department of Administration Division of Enterprise Technology (2020-001, 2019-002, 2018-003, 2017-004, 2016-011)

Status of Audit Finding: Partially Corrected

Planned Corrective Action:

DET is in the process of procuring an Active Directory audit tool to perform access reviews more efficiently for privileged and non-privileged accounts. Privileged account review is anticipated to be performed by December 30, 2022. Non-privileged account review is anticipated to be performed by June 23, 2023.

In May 2022, DET purchased a Security Incident and Event Management (SIEM) tool to enhance its audit logging capabilities. A project has been created to collect security event logs required by the Audit and Accountability Policy and related Standard and to retain the logs per the required state and/or federal data retention policies. Anticipated project completion date is July 31, 2023. Subsequent projects will be defined to integrate the logs from existing SIEM tools into the new tool to be able to better correlate investigations of security incidents.

DET continues to work with executive branch agencies to remove unsupported devices from the network. The last Windows 2003 server is scheduled to be decommissioned no later than September 30, 2022.

140 SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

UNIVERSITY OF | Office of Information Security 780 Regent Street Suite 300 Madison, Wisconsin 53715 608-262-1605 emurphy@uwsa.edu www wisconsin.edu

Status of Prior Year Audit Findings

Finding: Information Security Controls at the University of Wisconsin System (2021-002)

Status of Audit Finding: Corrective Action taken

University Wisconsin System Administration (UWSA) has developed and implemented a systemwide policy monitoring program for Information Security (IS) policies, effective July 1, 2021. UW institution expectations for this effort were detailed in a February 8, 2021, memo by former President Tommy Thompson and UW System Board of Regents President Andrew Petersen.

Institutions are required to complete bi-monthly compliance reports detailing their status of compliance with existing IS policies. The formats for these reports are developed and updated by UWSA's Office of Information Security (OIS) on an annual basis based on UW System's largest areas of policy risk and to incorporate new or revised policies and policy requirements.

OIS reviews these compliance reports and makes them available to UW System leadership. The results of these reports, supplemented by policy compliance verification efforts from internal audit, influence systemwide security discussions, strategy, and resource allocation through direct and indirect means. For example, UWSA hosts the Technology and Information Security Council, a group of UW System security leaders that meet monthly to discuss ways to enhance information security practices and share strategies on meeting policy objectives. OIS has also been conducting campus visits to better understand challenges with policy compliance and to help identify and remove barriers.

Policy compliance is a never-ending journey for the UW System community as policies are continuously updated to align with evolving industry standards and regulations. The policy compliance monitoring system is one of the tools used to reduce the UW System's attack surface and risk posture.

Person responsible for corrective action: Edward Murphy, Associate Vice President for Information Security Office of Information Security emurphy@uwsa.edu

Status of Prior Year Audit Findings - Financial

Finding: Monitoring and Use of Predictive Analytics for the Unemployment Insurance Program (2021-003)

Federal Program: Unemployment Insurance (Assistance Listing number 17.225)

COVID-19—Unemployment Insurance (Assistance Listing number 17.225)

COVID-19—Presidential Declared Disaster Assistance to Individuals and Households - Other Needs (Assistance Listing number 97.050)

Recommendation 1: Seek written assurance from the U.S. Department of Labor that the predictive analytics program is meeting federal requirements for DWD to review the facts and circumstances when making decisions that affect whether or not an individual is eligible to receive benefits.

Status of Audit Finding: Partially Corrected

In 2021, DWD leadership met with US DOL leadership and explained DWD's use of Google's predictive artificially intelligent (AI) technology to develop confidence scores on the eligibility probability of the claims backlog, allowing DWD staff to work through the pending claims more strategically. During that conversation, DWD leadership asked if DOL would provide written support for DWD's use of predictive analytics in this manner. While impressed with the project, US DOL responded to the request during a subsequent call that US DOL declined to provide written assurance regarding Wisconsin's use of analytics because that was outside the role of DOL. Rather, DOL would issue guidance in the form of an Unemployment Insurance Program Letter (UIPL) that would be applicable to all states. To date, the UIPL has not been issued by DOL.

Notes to the State of Wisconsin Schedule of Expenditures of Federal Awards

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose

The Schedule of Expenditures of Federal Awards presents a summary of the State of Wisconsin's expenditures funded by the federal government for the fiscal year ended June 30, 2022. For purposes of the schedule, federal programs have been classified as follows: 1) Individual Programs and Other Clusters, including grants received directly from the federal government and subawards received from other organizations; 2) the Research and Development (R&D) Cluster, including R&D grants received directly from the federal government and R&D subawards received from other entities; and 3) the Student Financial Assistance (SFA) Cluster.

Direct federal awards and subawards are presented for each federal agency by the Assistance Listing number (ALN) when available in the grant agreements or determinable based on an award's source and purpose. For grants that did not clearly state an ALN, the schedule includes the award, or a total for several awards, with an ALN that ends in "N/A" for not available. An "other identifying number," when available, is required to be shown if the ALN is not available. In order to separately identify expenditures associated with the response to the Novel Coronavirus (COVID-19), the designation of "COVID-19" has been added as a prefix to the applicable grant program names for grants that were fully or partially funded by COVID-19 legislation. For grants that had both COVID-19 and non-COVID-19 related expenditures, the COVID-19 and non-COVID-19 related expenditures are presented on separate lines in the schedule.

Because the schedule presents only a selected portion of the activities of the State, it is not intended to and does not present the financial position or results of operations of the State.

B. Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards has been prepared from the accounting and inventory records of Wisconsin state agencies, including the University of Wisconsin (UW) System, and from federal reports submitted by the state agencies to the various federal grantor agencies. The State's accounting records are maintained on a budgetary basis, in accordance with Wisconsin Statutes. State statutes and state accounting policies require that disbursements be recognized in the fiscal year in which they are recorded for payment, except for certain state employee fringe benefits and selected other items that are recognized in the period to which the payments relate, regardless of when paid. The State's centralized accounting records remain open for a period of time after June 30 to permit the recording of expenditures applicable to the fiscal year ended June 30, in accordance with Wisconsin Statutes. Expenditures and amounts provided to subrecipients in the schedule are presented in accordance with the budgetary basis of accounting as described in this paragraph, except for amounts related to Unemployment Insurance (UI) (Assistance Listing number 17.225), which are reported on the accrual basis of accounting (Note 7), and the Supplemental Nutrition Assistance Program (SNAP) (Assistance Listing number 10.551), which are reported based on settlement and issuance data (Note 17).

A timing variance may exist between the recording of federal grant expenditures in the accounting records and the reporting of the expenditures to the federal government or other pass-through entities.

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires the Schedule of Expenditures of Federal Awards to include the amount provided to subrecipients under each federal program. The amount provided to subrecipients under each federal program was determined by the state agencies. Amounts provided to subrecipients on the schedule reflect subawards made by a state agency to another entity outside of the State's reporting entity.

To eliminate double counting of subawards between state agencies, the schedule includes expenditures reported by the state agency that received and ultimately expended the subawarded funds but does not include these expenditures in the reported totals of the pass-through state agency. For subawards between state agencies, the pass-through state agency is cited within parentheses after the program name.

C. State Agencies Included

The following state agencies were included in the scope of the federal compliance portion of the audit. State agencies that administered a major federal program audited during the FY 2021-22 single audit are indicated in **bold**.

- 1. Board for People with Developmental Disabilities (BPDD)
- 2. Board on Aging and Long-Term Care (BALTC)
- 3. Child Abuse and Neglect Prevention Board (CANPB)
- 4. Department of Administration (DOA)

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS \langle 241

- 5. Department of Agriculture, Trade and Consumer Protection (DATCP)
- 6. Department of Children and Families (DCF)
- 7. Department of Corrections (DOC)
- 8. Department of Financial Institutions (DFI)
- 9. Department of Health Services (DHS)
- 10. Department of Justice (DOJ)
- 11. Department of Military Affairs (DMA)
- 12. Department of Natural Resources (DNR)
- 13. Department of Public Instruction (DPI)
- 14. Department of Revenue (DOR)
- 15. Department of Safety and Professional Services (DSPS)
- 16. Department of Tourism (Tourism)
- 17. Department of Transportation (DOT)
- 18. Department of Veterans Affairs (DVA)
- 19. Department of Workforce Development (DWD)
- 20. District Attorney (DA)
- 21. Educational Communications Board (ECB)
- 22. Elections Commission (Elections)
- 23. Employee Trust Funds (ETF)
- 24. Employment Relations Commission (ERC)
- 25. Kickapoo Reserve Management Board (KRMB)
- 26. Office of the Commissioner of Insurance (OCI)
- 27. Office of the Governor (GOV)
- 28. Office of the State Treasurer (OST)
- 29. Public Defender Board (PDB)
- 30. Public Service Commission (PSC)
- 31. Secretary of State (SOS)
- 32. State of Wisconsin Investment Board (SWIB)
- 33. University of Wisconsin System
- 34. Wisconsin Court System (Courts)
- 35. Wisconsin Historical Society (WHS)
- 36. Wisconsin Technical College System (WTCS)

The Wisconsin Humanities Council is a nonprofit organization associated with UW System. Through a contract with the Wisconsin Humanities Council, UW System is responsible for fiscal and personnel administration of the Council. At the request of the Wisconsin Humanities Council, the Council was included as a unit within UW System.

Federal awards administered by the Wisconsin Housing and Economic Development Authority, the Wisconsin Economic Development Corporation, and the University of Wisconsin Hospitals and Clinics Authority were not included in the scope of this audit. These entities had single audits performed by other auditors, as necessary.

2. USE OF DE MINIMUS COST RATE

DVA elected to use the 10 percent de minimis cost rate for indirect costs during FY 2021-22. No other state agencies elected to use the 10 percent de minimis cost rate permitted under 2 CFR s. 200.414 of Uniform Guidance.

3. FEDERAL SANCTIONS AND DISALLOWANCES

There are actual or potential federal sanctions and disallowances for the Medical Assistance (MA) Program (Assistance Listing number 93.778), the Community Development Block Grants/State's program and Non-Entitlement Grants in Hawaii (CDBG) (Assistance Listing number 14.228) program, the E-Rate program from the federal Universal Service Fund (USF), the AmeriCorps Volunteers in Service to America (VISTA) program (Assistance Listing number 94.013), and the Emergency Rental Assistance (ERA) Program (Assistance Listing number 21.023).

A. Reporting and Refunding the Federal Share of Medicaid-Related Settlements and a Judgment

On August 14, 2018, DHS received a draft report from the U.S. Department of Health and Human Services (DHHS) Office of Inspector General (OIG) recommending a disallowance related to the Medicaid Program. The OIG review covered the period from October 2008 through September 2016. The OIG concluded that DHS did not report and refund the full federal share of Medicaid-related settlements in the amount of \$27.6 million. DHS partially disagreed with the report. The Centers for Medicare & Medicaid Services (CMS) reviewed the report and determined that the DHHS OIG underreported the settlement and requested that DHS refund \$31.0 million to the federal government. DHS submitted a formal objection letter to CMS in February 2021. On August 17, 2022, CMS issued a disallowance in the amount of \$24.9 million. DHS intends to appeal this disallowance.

B. Disallowances for Community Development Block Grant/State's Program and Non-Entitlement Grants in Hawaii

The U.S. Department of Housing and Urban Development (HUD) provided funding to the State through the CDBG Cluster. In FY 2015-16, HUD issued a finding of noncompliance related to the State's closeout system and directed the State to undertake a review of old, open activities. DOA took corrective action to close out activities as possible, reporting the status of its efforts to HUD on a periodic basis. In late FY 2017-18, HUD performed an on-site review of those activities. In FY 2018-19, HUD advised that it would require DOA to reimburse the State's local account with nonfederal funds in the amount of \$7.3 million, and to continue to collect \$2.2 million that is being repaid by the units of local government. In February 2020, the State requested that HUD approve a \$7.3 million voluntary grant reduction over a two-year period to satisfy the reimbursement requirement from HUD. In January 2021, HUD notified the State of a grant reduction of \$3.7 million, which was applied to each of the federal fiscal year 2021 and 2022 grants and satisfied the reimbursement requirement.

C. E-Rate Federal Funds Disallowance

The federal e-rate program provides funding from the federal universal service fund (USF) to reimburse the state for a percentage of funds used to support telecommunications availability in schools and libraries, provided primarily through the state's Technology for Educational Achievement (TEACH) program administered by DOA. On December 30, 2022, the Universal Service Administrative Company ("USAC"), acting on behalf of the Federal Communications Commission (FCC or Commission), notified TEACH that it had received improper payments of \$1,206,542 from the Universal Service Fund and that the amount must be repaid by March 31, 2023. DOA intends to repay the amount as required.

D. Volunteers in Service to America Disallowance

Serve Wisconsin, the National and Community Service Board of the State of Wisconsin attached to the Department of Administration, sponsors the AmeriCorps Volunteers in Service to America (VISTA) program for the State of Wisconsin. The Corporation for National and Community Service, operating as AmeriCorps, notified Serve Wisconsin that it has disallowed \$46,846 of costs as a result of a pre-employment criminal history background check failing to meet the National Service Criminal History Checks (NSCHS) standards required by the National and Community Service Act of 1990, as amended by the Serve America Act (SAA). Serve Wisconsin has requested that AmeriCorps reduce a future grant by the amount of the disallowance in lieu of repayment.

E. Emergency Rental Assistance Excess Funds Determination

The ERA Program, a program of the U.S. Department of the Treasury (Treasury) established under the Consolidated Appropriations Act of 2021 and continued under the American Rescue Plan Act (ARPA) as "ERA2," is administered by DOA. In February 2023, Treasury provided notification to DOA of an ERA2 Quarter 3 (September 30, 2022) Assessment Excess Funds Determination of \$31,374,234, an amount equal to the balance undrawn from Treasury as of the notification date. In March 2023, DOA appealed the determination under the bases that Treasury was considering incomplete data and that the State would voluntarily reallocate any amount subject to an Excess Funds Determination. DOA provided additional information to Treasury and is awaiting its review of that information.

4. FOOD COMMODITIES

Food commodities distributed during the fiscal year are reported as expenditures in the Schedule of Expenditures of Federal Awards under the various federal programs that distributed the commodities. The value of food commodities distributed during the fiscal year and the amount of food commodities on hand as of June 30, 2022, are shown in Table A for each program distributing food commodities.

Table A

Food Commodity Assistance

Total		\$43,061,870	\$1,581,371	
10.569	Emergency Food Assistance Program	21,622,729	1,545,942	
10.565	Commodity Supplemental Food Program	3,382,271	0	
10.559	Summer Food Service Program for Children	185,704	0	
10.555	National School Lunch Program	\$ 17,871,166	\$ 35,429	
Assistance Listing Number	Federal Program	Distributed	Inventory Balance June 30, 2022	

5. WIC SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN REBATES

During FY 2021-22, DHS received \$18,604,682 in cash rebates from infant formula manufacturers from the sale of formula to participants in WIC Special Supplemental Nutrition Program for Women, Infants, and Children (Assistance Listing number 10.557). Rebate contracts with infant formula manufacturers are authorized by 7 CFR s. 246.16 (m) as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. Applying the rebates received to such costs enabled DHS to extend program benefits to 27,918 more people than could have been served during FY 2021-22 in the absence of the rebate contracts.

6. COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

CDBG provides funds to local units of government to complete infrastructure and facility projects or to grant or loan funds to businesses to assist with job creation and retention, or to homeowners or landlords to assist with housing rehabilitation and homebuyer assistance. Loan repayments received by units of local government in excess of certain limits must be returned to the State. Included in the Schedule of Expenditures of Federal Awards as expenditures of the program is a total of \$2,520,240 that was supported by funds returned to the State.

7. UNEMPLOYMENT INSURANCE

UI is a joint federal-state program financed by federal taxes under the Federal Unemployment Tax Act and by state payroll taxes under the State Unemployment Tax Act. The underlying framework of the UI system is contained in the Social Security Act (SSA). Title III of the SSA authorizes grants to states for the administration of state UI laws; Title IX authorizes the various components of the federal Unemployment Trust Fund. All reserves must be held by the federal Unemployment Trust Fund and cannot be commingled with other state funds. With limited exceptions, reserves may be used only to pay unemployment benefits. For this reason, the Wisconsin Unemployment Reserve Fund is accounted for outside of the State's central accounting system, and expenditures for UI are reported on the accrual basis of accounting, which recognizes expenditures in the period incurred, regardless of when the payment is made.

FY 2021-22 expenditures in the Schedule of Expenditures of Federal Awards for UI (Assistance Listing number 17.225) include \$338,968,857 in benefits funded by the Wisconsin Unemployment Reserve Fund; \$1,857,811 in federally funded benefits; \$331,770,408 in COVID-19 federally funded benefits; \$98,708,279 in federally funded administrative costs; \$7,910,881 in COVID-19 federally funded administrative costs; AM \$1,483,088 in American Recovery and Reinvestment Act (ARRA) federally funded costs.

8. HIGHWAY PLANNING AND CONSTRUCTION

Expenditures in the Schedule of Expenditures of Federal Awards for Highway Planning and Construction (Assistance Listing number 20.205) include \$276,786 in project charges that have been incurred in excess of the federally approved project budget amount. DOT will seek federal approval for increases to project budgets, and federal reimbursements are expected in the next fiscal year.

9. DONATION OF FEDERAL SURPLUS PERSONAL PROPERTY

DOA is responsible for administration of the Donation of Federal Surplus Personal Property program (Assistance Listing number 39.003). DOA receives and distributes the federal surplus property. Reported federal expenditures of \$112,807 in the Schedule of Expenditures of Federal Awards for this program represent the fair market value of property distributed by DOA during FY 2021-22. During FY 2021-22, property with a fair market value of \$112,807 was received by DOA and, as of June 30, 2022, property with a fair market value of \$0 was on hand. The fair market value of the property is calculated at 23.34 percent of the property's original acquisition cost based on guidance provided by the U.S. General Services Administration.

10. CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS AND CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS

The Environmental Improvement Fund (EIF) is an enterprise fund of the State of Wisconsin and is jointly administered by DNR and DOA. Included in the EIF is the Clean Water Fund Program, which is funded primarily by the federal government under the Capitalization Grants for Clean Water State Revolving Funds (Assistance Listing number 66.458), and the Safe Drinking Water Loan Program, which is funded primarily by the federal government under the Capitalization Grants for Drinking Water State Revolving Funds (Assistance Listing number 66.458).

Federal reporting requirements for the Clean Water Fund Program and the Safe Drinking Water Loan Program include financial statements prepared in accordance with generally accepted accounting principles, as well as information regarding loan recipients, loan amounts, loan terms, project categories of eligible costs, and similar details on other forms of assistance. DNR and DOA provided this information to the U.S. Environmental Protection Agency in audited financial statements and other documents. New federally funded loans provided under these programs are included as expenditures in the Schedule of Expenditures of Federal Awards. Table B shows the balance of loans outstanding as of June 30, 2022.

Table B

Assistance Listing Number	Federal Program	Outstanding Balance ¹ June 30, 2022
66.458	Capitalization Grants for Clean Water State Revolving Funds	\$1,796,471,995
66.468	Capitalization Grants for Drinking Water State Revolving Funds	392,891,001

Clean Water and Safe Drinking Water Revolving Loan Funds

¹ Outstanding balance amounts shown are comprised of both federal and state funding.

11. IMMUNIZATION COOPERATIVE AGREEMENTS

The value of vaccines distributed on behalf of the Wisconsin Immunization Program during FY 2021-22 was \$53,770,891. This amount is included as expenditures in the Immunization Cooperative Agreements (Assistance Listing number 93.268) program in the Schedule of Expenditures of Federal Awards.

12. FEE-FOR-SERVICE PROGRAMS AND FIXED-PRICE CONTRACTS

State agencies may receive fees for services or reimbursement under fixed-price contracts with the federal government or other subgrantor organizations. Actual costs to provide the services are not required to be reported to the federal government or other subgrantor organizations. The schedule includes actual amounts charged to the fixed-price contracts. These amounts may be more than, equal to, or less than the contract funds received from the federal grantor agency or other subgrantor organizations.

13. FEDERAL STUDENT LOAN PROGRAMS ADMINISTERED BY THE UNIVERSITY OF WISCONSIN SYSTEM

The federal student loan programs shown in Table C are administered by UW System, and balances and transactions related to these programs are included in the UW System Fund financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the expenditures presented in the Schedule of Expenditures of Federal Awards. The following table shows the balance of loans outstanding as of June 30, 2022.

Table C

Total		\$ 78,368,155
93.364	Nursing Student Loans	6,311,567
93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	4,776,211
93.264	Nurse Faculty Loan Program (NFLP)	1,930,482
84.038	Federal Perkins Loan Program—Federal Capital Contributions	\$ 65,349,895
Assistance Listing Number	Federal Program	Outstanding Balance June 30, 2022

Federal Student Loan Programs

14. OTHER STUDENT LOAN PROGRAMS

UW System participates in Federal Direct Student Loans (Assistance Listing number 84.268), a program that makes interest-subsidized or unsubsidized Stafford loans available to students, or PLUS loans available to graduate or professional students or to parents of dependent students. Loan funds are provided by the U.S. Department of Education, and UW institutions are responsible for disbursing the loans. The Federal Direct Student Loans amounts disbursed to students during FY 2021-22 are reported in the Schedule of Expenditures of Federal Awards. However, the total outstanding loan balance for the Federal Direct Student Loans program is maintained by the U.S. Department

248) notes to the schedule of expenditures of federal awards

of Education, which is responsible for loan collection. Therefore, the outstanding loan balance is not included in the Schedule of Expenditures of Federal Awards.

15. STUDENT FINANCIAL ASSISTANCE CLUSTER ADMINISTRATIVE COST ALLOWANCE

Included in the Schedule of Expenditures of Federal Awards are the total expenditures for the administrative cost allowance provided by Federal Supplemental Educational Opportunity Grants (Assistance Listing number 84.007), the Federal Work-Study Program (Assistance Listing number 84.033), the Federal Perkins Loan Program—Federal Capital Contributions (Assistance Listing number 84.038), and the Federal Pell Grant Program (Assistance Listing number 84.063). The actual administrative cost allowance amount earned during the award year is not always determined by each UW institution for each program. These amounts are reported as either "Administrative Cost Allowance" or included with the individual program in the Schedule of Expenditures of Federal Awards.

16. PROGRAM INCOME

In some cases, program income related to federal grants is deposited in federal grant accounts and is spent for activities related to the grants. Certain program income accounts were identified by the state agencies, including UW System, and excluded from the Schedule of Expenditures of Federal Awards. However, the Schedule of Expenditures of Federal Awards includes an unknown amount of expenditures funded by program income sources and not funded directly by federal grants.

17. SNAP EBT BENEFITS REPORTING

The total amount of Supplemental Nutrition Assistance Program (Assistance Listing number 10.551) benefits reported on the Schedule of Expenditures of Federal Awards is calculated from electronic benefits transfer (EBT) settlement data available to DHS. However, the amount reported for the COVID-19 portion of SNAP is based on EBT issuance data. Issuance data was used to approximate the relevant COVID-19 expenditures in the Schedule of Expenditures of Federal Awards due to the unavailability of SNAP EBT settlement data specific to the COVID-19 amounts.

18. COST SWAPS

In February 2021, a presidential memorandum was issued extending certain federal support to increase the reimbursement and other assistance provided by the Federal Emergency Management Agency (FEMA) to states in order to combat the COVID-19 pandemic. This memorandum allowed FEMA to pay 100 percent of the costs of activities that have previously been determined to be eligible, from the beginning of the pandemic in January 2020. During FY 2021-22, the State of Wisconsin received reimbursement from FEMA for expenditures that were previously covered using funding available through the Coronavirus Relief Fund

(Assistance Listing number 21.019), Immunization Cooperative Agreements (Assistance Listing number 93.268), and Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) (Assistance Listing number 93.323). During FY 2021-22, expenditures from prior fiscal years were transferred from the programs outlined in Table D to the Disaster Grants—Public Assistance (Assistance Listing number 97.036) and are reflected in the total expenditures reported for the Disaster Grants—Public Assistance on the FY 2021-22 Schedule of Expenditures of Federal Awards. The FY 2021-22 Schedule of Expenditures of Federal Awards does not reflect a reduction of the expenditures transferred out of the programs outlined in Table D.

Assistance		
Listing		Total Swapped
Number	Federal Program (FY Original Expenditures Incurred)	Expenditures
	Coronavirus Relief Fund–(FY 2020)	\$ 43,355,058
21.019	Coronavirus Relief Fund—(FY 2021)	197,917,569
93.268	Immunization Cooperative Agreements—(FY 2021)	92,711
93.323	Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)—(FY 2021)	55,869,690
Total		\$ 297,235,028

During FY 2021-22, expenditures from a prior fiscal year were transferred from the Coronavirus State and Local Fiscal Recovery Funds (Assistance Listing number 21.027) to the Coronavirus Relief Fund (Assistance Listing number 21.019) and are reflected in the total expenditures reported for the Coronavirus Relief Fund (Assistance Listing number 21.019) on the FY 2021-22 Schedule of Expenditures of Federal Awards. The FY 2021-22 Schedule of Expenditures of Federal Awards does not reflect a reduction of expenditures transferred out of the program as outlined in Table E.

Corrective Action Plans

State of Wisconsin Department of Health Services

Tony Evers, Governor Karen E. Timberlake, Secretary

DATE:	November 16, 2022
TO:	Lisa Kasel, Assistant Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Medical Assistance Program Third-Party Liability

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-001: Medical Assistance Program Third-Party Liability. This is the department's Corrective Action Plan.

I Recommendation (2022-001): Medical Assistance Program Third-Party Liability

We recommend the Wisconsin Department of Health Services:

• <u>Review and update the Medicaid Management Information System cost avoidance rules to</u> properly identify and deny payment for claims that may be covered by third-party insurers.

Wisconsin Department of Health Services Planned Corrective Action:

DHS has completed an assessment of Medicaid Management Information System (MMIS) cost avoidance rules and will implement changes by December 31, 2022, necessary to properly identify and deny outpatient services when a participant is enrolled in Medicare or other third-party insurance at the time the service was provided.

We recommend the Wisconsin Department of Health Services:

- Identify payments made during FY 2021-22 that may have been improper due to inaccurate cost avoidance rules and seek to recover these amounts;
- <u>Return to the federal government recovered payment that may have been improper; and</u>

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin Memo to Lisa Kasel November 16, 2022 Page 2

Wisconsin Department of Health Services Planned Corrective Action:

DHS will attempt to recover \$1,956 in improper payments for outpatient services not properly identified and denied under cost avoidance rules in MMIS by December 31, 2022, and return to the federal government the estimated federal share of \$1,293.

DHS will complete an assessment and identify paid claims by March 31, 2023, where cost avoidance rules were not appropriately applied for outpatient services when a participant was enrolled in Medicare or other third-party insurance with a date of service after July 1, 2021, and return to the federal government recovered payments that were improper.

We recommend the Wisconsin Department of Health Services:

 <u>Perform an assessment and implement additional procedures to review changes to cost</u> <u>avoidance rules in the future.</u>

Wisconsin Department of Health Services Planned Corrective Action:

DHS will implement processes and procedures by December 31, 2022, for conducting production validation on any configuration changes impacting cost avoidance rules.

Anticipated Completion Date: March 31, 2023

Tony Evers, Governor Karen E. Timberlake, Secretary

DATE:	December 5, 2022
TO:	Lisa Kasel, Assistant Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Financial Reporting for the Medical Assistance Program

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-005: Financial Reporting for the Medical Assistance program. This is the department's Corrective Action Plan.

Recommendation (2022-005): Financial Reporting for the Medical Assistance Program

We recommend the Wisconsin Department of Health Services:

• Develop and implement additional procedures to evaluate the potential effects of changes in the program that it administers; and

Wisconsin Department of Health Services Planned Corrective Action:

DHS staff responsible for preparing the financial statements will improve their current procedures by meeting in smaller groups with program accountants annually to identify significant new programs, changes to existing programs, and other notable changes. They will obtain a more complete understanding of the financial reporting process of new programs and ensure that all account balances, including fund balance, are appropriately reported and classified.

We recommend the Wisconsin Department of Health Services:

• Use the additional procedures to evaluate changes that may require further consideration and adjustments for financial reporting purposes.

Corrective Action Plan

Finding 2022-006: Common School Fund—Service Organization Internal Controls

Planned Corrective Action:

- BCPL has recognized the value of Service Organization Internal Control ("SOC") Reports as BCPL first raised this issue with LAB.
- BCPL will annually request from Charles Schwab, a Type 1 and Type 2 SOC Report.
- BCPL staff have already considered their reliance on Schwab and have reviewed the Suggested "Complementary User Entity Control Considerations" identified in Schwab's SOC Reports.
 - BCPL staff agree that these suggested controls are appropriate for BCPL's use of Schwab's services and reliance upon Schwab. BCPL staff asserts that they have been consistently exercising virtually all of these controls for an extended period of time.
 - The only suggested user control that had not been previously adopted by BCPL was a systematic analysis of the publicly traded asset pricing provided by Schwab. In order to obtain additional assurances that the pricing provided by Schwab (or it's vendor) on such assets is accurate, BCPL will, on a quarterly basis, BCPL select a sampling of approximately 5% of the publicly traded assets custodied at Schwab and will compare the values of such assets as reported by Schwab against valuations provided by Bloomberg or another nationally recognized financial valuation entity. It should be noted that BCPL had already instituted quarterly pricing reviews of private investment funds custodied at Schwab.
- Annually upon receipt of such SOC Reports, BCPL will distribute copies of such reports to the members of BCPL's Investment Committee and schedule a committee discussion regarding:
 - BCPL's reliance upon the services provided by Schwab;
 - BCPL's control processes compared with the suggested Complementary User Entity Control Considerations set forth in Schwab's SOC report;
 - Any weaknesses identified in the SOC Reports and any subsequent actions which should be taken by BCPL.
- BCPL shall then document such review and any subsequent actions which should be taken.

Anticipated Completion Date:

- BCPL has already requested and received such latest SOC reports described above and provided copies of such Reports to LAB.
- BCPL has already considered their reliance on Schwab and has reviewed the Suggested User Complementary Controls identified in Schwab's SOC 1 Report and furthermore has had virtually all such suggested controls in place for an extended period of time.
- BCPL has already implemented the additional systematic valuation testing identified above for the fiscal quarters ended on June 30, 2022 and September 30, 2022 and shall continue such valuation testing within 15 days after fiscal quarters ending December 31, March 31, June 30 and September 30.
- BCPL has already emailed (and mailed) copies of such latest SOC reports to the members of the BCPL Investment Committee.
- Prior to January 10. 2023, BCPL will schedule the committee discussion described above. BCPL shall document the matters identified above on or before January 15, 2023.

Tom German, BCPL Executive Secretary shall be responsible for implementing this action. His contact information is as follows:

Tom.german@wisconsin.gov (608) 267-2233

Office of Financial Administration 608-262-1313 | 608-262-5316 (fax) 780 Regent Street Suite 255 Madison, WI 53715 www.wisconsin.edu/financial-administration/

Corrective Action Plan

Finding 2022-007: UW System Information Technology Internal Control Deficiencies

Planned Corrective Action: The UW System has adequate processes in place for reviewing access to ShopUW+ but agrees to better document these processes. UW System Administration (UWSA) has revised the disbursement internal control template, which all UW universities use in developing their internal control plans, to document the UW System's security reviews. UWSA will also update the language surrounding its weekly access reports, to explain their purpose and importance. To monitor this control, the UW System will add a statement to this effect in the universities' annual delegation agreement and certifications.

UWSA is actively taking steps to mature its third-party risk management practices, including the development of guidance and best practices for UW universities. Current efforts are focused on optimizing available resources to provide the highest return on value.

UWSA currently performs periodic reviews of cloud-based third-party internal controls during precontract evaluations and at the time of contract renewals. This includes obtaining and reviewing service organization audit reports, if available. UWSA will evaluate the efficacy of increasing the periodicity of these reviews to an annual basis. UWSA will also evaluate means for communicating identified expectations systemwide, up to and including the creation of a new policy.

Anticipated Completion Date: June 30, 2023

Person responsible for corrective action: Julie Gordon, Senior Associate Vice President Finance, UW System Administration jgordon@uwsa.edu

Corrective Action Plan

Finding 2022-100: Coronavirus State and Local Fiscal Recovery Fund—Unallowable Costs

Auditor Recommendation:

Develop and implement controls to identify when an applicant applies for funding under multiple programs and to assess the appropriateness of whether it would be making payments to an applicant that applies under multiple programs.

Planned Corrective Action:

The Wisconsin Department of Administration (DOA or Department) will develop and implement controls to identify when an applicant applies for funding under multiple programs and to assess the appropriateness of whether it would be making payments to an applicant that applies under multiple programs. The controls will be documented in the Department's *Grants Management Guide* and will consider, among other things, the purpose of the assistance being awarded and the criteria for the award.

As the auditors noted specific to this finding and recommendation, DOA implemented controls for certain programs where it was anticipated an applicant might apply under more than one program. For programs where the controls were not implemented prior to award, the Department has subsequently reviewed to verify that an applicant was not paid for the same losses under more than one program, and none aside from that which was the condition for this finding were identified.

Anticipated Completion Date: June 30, 2023

Auditor Recommendation:

Review the specific payments made to the organization we identified and seek repayment of the amount that was made inappropriately.

Planned Corrective Action:

DOA has reviewed the specific payments made to the organization identified by the auditors and sought repayment of the amount that was not properly paid.

Anticipated Completion Date: March 31, 2023

Person responsible for corrective action:

Colleen Holtan, Director Bureau of Financial Management Division of Enterprise Operations colleen.holtan@wisconsin.gov

Tony Evers, Governor Kathy Blumenfeld, Secretary Susan Brown, Division Administrator

Corrective Action Plan

Finding 2022-101: Low-Income Home Energy Assistance Program—Heating Benefit Calculation

Auditor Recommendation:

Establish and implement written procedures for making updates to the benefit calculation parameters in the Home Energy (HE) Plus application.

Planned Corrective Action:

The Wisconsin Department of Administration (Department or DOA) will establish and implement written procedures for entering and updating the benefit calculation parameters related to the Wisconsin Home Energy Assistance Program (WHEAP) in the HE Plus (HE+) System. The Department's procedures will reflect that it incorporated a module for determining the LIHEAP heating maximum benefit in the HE+ System and eliminated the use of an external Microsoft Access database for that purpose subsequent to the period under audit (i.e., in state fiscal year [SFY] 2022-23).

Anticipated Completion Date: May 1, 2023

Auditor Recommendation:

Reassess its existing procedures for performing a review of the benefit calculation parameters entered into the Home Energy (HE) Plus application, make adjustments to its existing procedures as necessary, and document the performance of each review.

Planned Corrective Action:

The Department necessarily reassessed its procedures for reviewing the entry of benefit calculation parameters into the HE+ System when it incorporated a module for determining the LIHEAP heating maximum benefit in the HE+ System and eliminated the use of an external Microsoft Access database for that purpose subsequent to the period under audit (i.e., in state fiscal year [SFY] 2022-23). The development and implementation of the new system functionality, which was used for the determining the federal fiscal year (FFY) 2023 WHEAP program benefits, improved program integrity through the elimination of manual data entry of end result benefit factors and proxy values. Program integrity will be further strengthened through the creation of a form to document the review of the benefit calculation parameters entered into HE+. The form will be created by May 1, 2023, and implemented with the FFY24 benefit formula calculation scheduled to be completed in July 2023.

Anticipated Completion Date: May 1, 2023

Auditor Recommendation:

Complete its review of the 605 households that were underpaid heating benefits due to the error and issue supplemental heating benefit payments.

Planned Corrective Action:

DOA completed its review of the households that were underpaid heating benefits and will issue the supplemental heating benefit payments as soon as practical.

Anticipated Completion Date: June 30, 2023

Person responsible for corrective action:

Susan Brown, Administrator Division of Energy, Housing and Community Resources susan.brown@wisconsin.gov

STATE OF WISCONSIN

Tony Evers, Governor Kathy Blumenfeld, Secretary Susan Brown, Division Administrator

Corrective Action Plan

Finding 2022-102: Emergency Rental Assistance Program—Documentation to Support Applicant Eligibility and Benefit Payments

Auditor Recommendation:

Obtain the required documentation for the 22 individuals we identified or seek to recoup improper benefit payments it made to these individuals.

Planned Corrective Action:

The Wisconsin Department of Administration (Department or DOA) will request from the auditors the cases identified, review available documentation in its eligibility and benefit determination system to determine that all of the applicants were eligible to receive benefits under the program or that the costs were allowable to be funded by the Wisconsin Emergency Rental Assistance (WERA) Program, and obtain the required supporting documentation. Should DOA determine that it provided rental and utility assistance to individuals who were ineligible to receive WERA Program benefits, it will identify alternate eligible Department funding sources or seek to recoup improper benefit payments made, as appropriate.

Anticipated Completion Date: June 30, 2023

Auditor Recommendation:

Closely monitor the documentation being accepted by the community action agencies and Energy Services, Inc., and provide further training to address individual instances of noncompliance with the *Wisconsin Emergency Rental Assistance Program Manual* and guidance from the U.S. Department of the Treasury.

Planned Corrective Action:

The Department will monitor the documentation accepted by the community action agencies and Energy Services, Inc. (ESI), and provide further training to address individual instances of noncompliance with the *WERA Program Manual* and guidance from the U.S. Department of the Treasury. As the auditors noted, DOA provided training to the community action agencies and ESI in June 2022, and updated the *WERA Program Manual* as of June 30, 2022. The Department further notes that, after serving nearly 40,000 households with close to \$250 million of assistance for rent, utilities and home internet bills, and preventing thousands of evictions across the state, the WERA Program closed to new applications as of January 31, 2023, but housing stability services remain available.

Anticipated Completion Date: June 30, 2023

Auditor Recommendation:

Regularly review and update its procedures to ensure that it is following the guidance from the U.S. Department of the Treasury in administering the Wisconsin Emergency Rental Assistance program.

Planned Corrective Action:

The Department will continue to review and update its procedures to ensure that it is following the guidance from the U.S. Department of Treasury in administering the WERA program. As the auditors noted, in response to its prior recommendation, DOA updated the *WERA Program Manual* as of June 30, 2022.

Anticipated Completion Date: June 30, 2023

Person responsible for corrective action:

Susan Brown, Administrator Division of Energy, Housing and Community Resources susan.brown@wisconsin.gov

Corrective Action Plan

Finding 2022-103: Multiple Grants—Reporting in the Schedule of Expenditures of Federal Awards

Auditor Recommendation:

Further evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards and ensure it is adjusting expenditures for all prior-year transfers of expenditures in the current year.

Planned Corrective Action:

The Wisconsin Department of Administration (DOA or Department) Bureau of Financial Management (BFM) will evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards (SEFA) and ensure it is adjusting expenditures for material prior-year transfers of expenditures in the current year in a manner consistent with requirements of the Office of Management and Budget *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance or Guidance) and additional guidance, if any, provided by the Department's State Controller's Office (SCO).

The Uniform Guidance requires the preparation of a SEFA for the period covered by the State's financial statements that includes total federal awards expended [ref. 2 CFR 200.510 (b)]; the determination of when a federal award is expended to be based on when the activity related to the federal award occurs [ref. 2 CFR 200.502]; and that the financial statements and SEFA are for the same audit period [ref. 2 CFR 200.514].

As the auditors noted, in preparing DOA's SEFA, DOA BFM sought to reflect the amount of federal awards expended for DOA's grant programs based on the amounts reported in the STAR general ledger. Together with reporting negative expenditures resulting from the transfers of FY 2019-20 and FY 2020-21 expenditures within the Notes to the SEFA, which are an integral part of the SEFA and required by 2 CFR 200.510 (b)(6), and absent OMB guidance that prescribes a uniform method for reporting a transfer of prior year grant expenditures, DOA BFM believed its approach was consistent with the requirements of 2 CFR 200.502 and 2 CFR 200.510 (b), more generally.

DOA BFM later modified its SEFA to exclude negative expenditures resulting from the transfers of FY 2019-20 and FY 2020-21 expenditures consistent with the manner in which a prior period adjustment would be reflected within current-year activity in financial statements prepared in accordance with generally accepted accounting principles (GAAP), as described in the criteria and recommended by the auditors. The increased expenditures for the Coronavirus Relief Fund (Assistance Listing number 21.019) and Coronavirus State and Local Fiscal Recovery Funds (Assistance Listing number 21.027) in the SEFA of \$241.3 million and \$192.1 million, respectively, together with any future exclusions of negative expenditures resulting from the transfer of prior-year expenditures, will cause the lifetime expenditures

270 CORRECTIVE ACTION PLANS

on the SEFA schedule for these programs to reflect more expenditures than federal funding received. The Notes to the SEFA were also modified to indicate that the SEFA does not reflect a reduction for the prior-year transferred expenditures.

Anticipated Completion Date: Concurrent with the submission of the FY 2022-23 SEFA, which is anticipated to be November 2023

Auditor Recommendation:

Carefully assess the transfer of prior-year expenditures in the current year to determine any potential effects on the total federal expenditures for the prior-year and the effect on the major program expenditures.

Planned Corrective Action:

DOA BFM will assess the transfer of prior-year expenditures in the current year to determine any potential effects on the total federal expenditures for the prior-year and the effect on the major program expenditures. It has been the practice of DOA BFM to assess the transfer of prior year expenditures in the current year and DOA BFM will continue to prioritize decisions with respect to the same to allow the Department to maximize the availability of federal funding for the purposes intended.

Anticipated Completion Date: June 30, 2023

Finding 2022-104: Low-Income Home Energy Assistance Program—Federal Funding Accountability and Transparency Act Reporting

Auditor Recommendation:

Improve Federal Funding Accountability and Transparency Act reporting procedures to ensure accurate award information, including the federal award identification number, is being used.

Planned Corrective Action:

The Wisconsin Department of Administration's (Department or DOA) Bureau of Financial Management (BFM) and Division of Energy, Housing and Community Resources (DEHCR) will work together to implement procedures to ensure the accuracy of the award information that is transmitted to the Division of Executive Budget and Finance (DEBF), Systems, Operations and Federal Funds Team (Federal Funds Team) for Federal Funding Accountability and Transparency Act (FFATA) reporting. The procedures may include, among other things, DEHCR's provision of the federal award document containing the federal award identification number (FAIN) to BFM concurrent with the request to establish the award for reporting.

Anticipated Completion Date: June 30, 2023

Auditor Recommendation:

Improve Federal Funding Accountability and Transparency Act reporting procedures to ensure rejected subaward information is reviewed and communicated to the appropriate program staff for investigation and resolution.

Planned Corrective Action:

The Department will improve FFATA reporting procedures to ensure rejected subaward information is reviewed and communicated to the appropriate program staff for investigation and resolution. DEBF's Federal Funds Team will communicate error messages it receives for rejected reports in a timely manner to agency and program staff originating the reports, and the error log received from the FFATA Subaward Reporting System (FSRS) will be made available electronically for agency program staff as well as maintained for documentation purposes.

Anticipated Completion Date: June 30, 2023

Division of Energy, Housing and Community Resources, PO Box 7970, Madison, WI 53707-7970 DOA.WI.GOV

Auditor Recommendation:

Improve Federal Funding Accountability and Transparency Act reporting procedures to ensure documentation of rejected subaward information is maintained to demonstrate that the Department of Administration attempted to enter the subaward information; and

Planned Corrective Action:

The Department will improve FFATA reporting procedures to ensure documentation of rejected subaward information is maintained to demonstrate that the Department attempted to enter the subaward information in FSRS. As previously noted, the Federal Funds Team will communicate to agency and program staff the error messages received for rejected reports and make available and maintain for archival purposes error logs received from FSRS. Additionally, the Federal Funds Team will record in the Wisconsin FFATA reporting system if an upload of the subaward information cannot be completed during the intended reporting period due to reasons that are beyond its control, such as delays in the federal government's assignment of federal award identification numbers (FAINs) for new grant awards.

Anticipated Completion Date: June 30, 2023

Auditor Recommendation:

Improve Federal Funding Accountability and Transparency Act reporting procedures to ensure all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and submitted to the Federal Funding Accountability and Transparency Act Subaward Reporting System in a timely manner.

Planned Corrective Action:

The Department takes seriously its responsibility to ensure all required subawards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and submitted to FSRS in a timely manner. The Federal Funds Team in fulfilling its enterprise role related to FSRS reporting, delivered agency and program staff training on the requirements of 2 CFR s. 170, in February 2023, concurrent with the introduction of its new Wisconsin FFATA reporting system, and will highlight FFATA reporting requirements in its monthly reporting timeline communications.

As previously noted, BFM and DEHCR will work together to implement improved procedures to ensure the accuracy of the award information that is transmitted to DEBF. They will also implement procedures to verify the completeness of the data that is uploaded to FSRS, including confirming the availability of the data in USAspending.gov.

DATE:	March 21, 2023
TO:	Lisa Kasel, Assistant Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Medical Assistance Program – Home and Community-Based Services Unallowable Costs

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-301: Medical Assistance Program – Home and Community-Based Services Unallowable Costs. This is the department's Corrective Action Plan.

Recommendation (2022-301): Medical Assistance Program – Home and Community-Based Services Unallowable Costs

We recommend the Wisconsin Department of Health Services:

• work with the fiscal employer agency that improperly approved the payment we identified to determine how this payment was made, assess whether changes to current processes are needed, document its assessment, and implement corrective actions, as appropriate.

Wisconsin Department of Health Services Planned Corrective Action:

Based on the LAB findings, the DMS Bureau of Quality and Oversight (BQO) will implement a Corrective Action Plan (CAP) with the IRIS Fiscal Employer Agent (FEA), iLIFE. A review of the LAB findings indicates that iLIFE inadvertently issued a payment to an IRIS participant-hired worker (PHW) based on a service authorization associated with a participant that the PHW did not support.

The IRIS provider agreement indicates that FEA's are responsible for verifying invoices, timesheets, and other claims for payment for services and periods of time authorized by participants' service plans.

iLIFE indicated their system's optical character recognition (OCR) misread a PHW's employee identification number causing the payment to be sent to the wrong PHW resulting in an overpayment.

iLIFE will be required to fix their OCR and review process to complete the CAP. BQO will issue a CAP notification to iLIFE by March 27, 2023. BQO will work with iLIFE to ensure the system errors are corrected to prevent further occurrences and anticipates the CAP will remain open for approximately 6 months.

DATE:	March 27, 2023
TO:	Carolyn Stittleburg, Deputy State Auditor for Financial Audit Legislative Audit Bureau
FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Multiple Grants – Reporting in the Schedule of Expenditures of Federal Awards

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-302: Multiple Grants - Reporting in the Schedule of Expenditures of Federal Awards. This is the department's Corrective Action Plan.

Recommendation (2022-302): Multiple Grants – Reporting in the Schedule of Expenditures of Federal Awards

We recommend the Wisconsin Department of Health Services further evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards and ensure it is:

• adjusting expenditures for prior-year transfers of expenditures in the current year.

Wisconsin Department of Health Services Planned Corrective Action:

DHS adjusted the expenditures for prior-year transfers of expenditures as recommended by LAB though DHS believes that there is no clearly defined direct authoritative guidance provided by OMB mandating a uniform method for reporting a transfer of prior year grant expenditures. Because of this, DHS believes it is prudent to seek confirmation of this treatment from the federal government going forward.

LAB, in describing the effect, indicates that "the State under-reported expenditures for the ELC grant by \$55.9 million." These expenditures were previously reported in prior fiscal years. Upon approval of the State's FEMA project workbook, and in accordance with the compliance supplement, these previously reported expenditures were reported in FY 2021-22 under the Disaster Grants—Public Assistance (Presidentially Declared Disasters) (Assistance Listing number 97.036) grant. Without a matching reduction in expenditures to the ELC grant by \$55.9 million, DHS is concerned that the lifetime expenditures on the SEFA schedule for these grant programs are going to reflect more expenditures than

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin

278 CORRECTIVE ACTION PLANS

Memo to Carolyn Stittleburg March 27, 2023 Page 2

federal funding received. Additionally, because there is not direct authoritative guidance currently provided by OMB mandating a uniform method for reporting a transfer of prior year grant expenditures,

DHS will work with DOA to seek clarification from the Federal Government on the proper treatment and reporting of transfers of prior year expenditures on the SEFA.

Anticipated Completion Date: November 1, 2023

We recommend the Wisconsin Department of Health Services further evaluate federal grant expenditures reported in the STAR General Ledger as it prepares its schedule of expenditures of federal awards and ensure it is:

- properly identifying applicable COVID-19 expenditures;
- reporting all federal expenditures for each federal grant program, regardless of whether the agency has received reimbursement from the pass-through entity; and
- removing repayments of prior-year overpayments of expenditures from current-year expenditures.

Wisconsin Department of Health Services Planned Corrective Action:

DHS will ensure that it reviews the instructions that are received from DOA and present the proper amounts in the SEFA. This will include a review of adjustments made to grants open in prior state fiscal years and verification that they have not already been reported on the SEFA in a prior year, such as the WIC adjustment identified.

Anticipated Completion Date: November 1, 2023

TO:	Lisa Kasel, Assistant Financial Audit Director Legislative Audit Bureau
FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Federal Funding Accountability and Transparency Act Reporting – Immunization Cooperative Agreements

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-303: Federal Funding Accountability and Transparency Act Reporting – Immunization Cooperative Agreements. This is the department's Corrective Action Plan.

 <u>Recommendation (2022-303): Federal Funding Accountability and Transparency Act Reporting</u> <u>– Immunization Cooperative Agreements</u>

We recommend the Wisconsin Department of Health Services:

- <u>Update the queries used to identify subawards in the State's accounting system, STAR, that are subject to Federal Funding Accountability and Transparency Act reporting to ensure all required subawards are identified; and</u>
- Ensure all required subwards of \$30,000 or more, including any amendments or modifications to a subaward, are identified and submitted to the Federal Fund Accountability and Transparency Act Subaward Reporting System in a timely manner.

Wisconsin Department of Health Services Planned Corrective Action:

BFS agrees that the circumstances shaped by the COVID emergency required BFS to prioritize tasks critical to essential functions over those with little to no financial impact. Furthermore, during this same period, there was turnover in this position. Lack of priority and new staffing led to late reporting. Additionally, procedural misunderstandings contributed to continued reporting delays of the correcting items identified in the first finding.

The summer and early Fall of 2022 allowed for additional research, clarification, and catching up. Since November of 2022 there have been timely monthly uploads of collected data and it has continued to be reported monthly.

BFS also agrees that LAB identified several contracts not yet reported. Upon discovery, BFS made it a priority to take steps necessary to immediately report the missing contracts on the FSRS site.

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin

280 CORRECTIVE ACTION PLANS

Investigations into the missing contracts revealed that there was an issue with the query being used to pull the STAR data. Investigations into the CARS query led to discovery of the incorrect usage of the date parameters.

DHS will correct the query errors and modify the FFATA procedures for accurate, complete, and timely reporting.

FROM:	Barry Kasten, Director Bureau of Fiscal Services Department of Health Services
SUBJECT:	Corrective Action Plan – Coronavirus State and Local Fiscal Recovery Funds – Monitoring of Local and Tribal Health Department Response and Recovery Support Program Expenditures

Department staff has reviewed the Legislative Audit Bureau's (LAB) interim audit memo for Finding 2022-304: Coronavirus State and Local Fiscal Recovery Funds – Monitoring of Local and Tribal Health Department Response and Recovery Support Program Expenditures. This is the department's Corrective Action Plan.

Recommendation (2022-304): Coronavirus State and Local Fiscal Recovery Funds – Monitoring of Local and Tribal Health Department Response and Recovery Support Program Expenditures

We recommend the Wisconsin Department of Health Services:

• Develop and implement written policies and procedures for the review and tracking of the quarterly reports used to monitor expenditures under the Local and Tribal Health Department Response and Recovery Support program.

Wisconsin Department of Health Services Planned Corrective Action:

As beneficiaries, the Treasury Guidance indicates that Local and Tribal Health Departments are not subject to subrecipient monitoring and reporting requirements. The designation of beneficiary is unique to the CSLFRF and thus is not as familiar to DHS as the subrecipient designation and subsequent reporting requirements. The uncertainty surrounding this designation resulted in DPH not following the best practices described in the DPH Contract Management Manual.

DPH's Contract Management Manual outlines requirements and best practices for contract management. This Manual describes how to best review and track expenditures to monitor expenditures. The Manual encourages the best practice of requesting enhanced expenditure reporting from agencies, in addition to the reporting required for CARS payments. The Manual describes the role of the contract administrator in reviewing the expenditure information against the approved budget to ensure expenses are reasonable and allowable. The Manual also suggests maintaining copies of submitted reports and verifying the amounts in the submitted reports correspond to CARS reports. Examples of expenditure

1 West Wilson Street • Post Office Box 7850 • Madison, WI 53707-7850 • Telephone 608-266-9622 • www.dhs.wisconsin.gov Protecting and promoting the health and safety of the people of Wisconsin

Memo to Carolyn Stittleburg March 23, 2023 Page 2

tracking are provided as is a description of how this tracking and other fiscal monitoring supports bureaus within DPH and DHS. DHS will review the existing policies and procedures in the Contract Management Manual to ensure that the level of detail is sufficient to prevent further non-compliance.

We recommend the Wisconsin Department of Health Services:

 <u>Maintain the quarterly reports, document its review of the quarterly reports, and document its</u> <u>correspondence with the public health departments regarding resolution of reporting variances.</u>

Wisconsin Department of Health Services Planned Corrective Action:

DPH hired a position in June 2022 to manage and track expenditures and reporting for its Coronavirus State and Local Fiscal Recovery Funds granted to locals and tribal public health departments. DPH will continue to review, track, and maintain quarterly reports, and document correspondence with the local and tribal public health departments per best practices in the DPH Contract Management Manual.

We recommend the Wisconsin Department of Health Services:

 <u>Review the contracts with the public health departments and determine whether any revisions</u> are needed to clarify expectations for documentation and timeliness of filing the quarterly reports; and

Wisconsin Department of Health Services Planned Corrective Action:

DPH will review its contracts with the local and tribal public health departments and ensure timely filing of quarterly reports. Specific areas of non-compliance have been identified and division staff will review and draft updated scope of work language to mitigate delays in reporting from our local partners.

We recommend the Wisconsin Department of Health Services:

• Ensure it obtains quarterly reports to support the payments it made to the City of Milwaukee <u>Public Health Department.</u>

Wisconsin Department of Health Services Planned Corrective Action:

DPH has now obtained quarterly reports from the City of Milwaukee Public Health Department and is in the process of reviewing them. Division staff will work with the City of Milwaukee Health Department to ensure future compliance.

Finding 2022-700: Research and Development Cluster—Physical Inventory Requirements for Federal Equipment

Planned Corrective Action: The University agrees with the condition that we did not perform a physical inventory of all federal equipment during the period from July 1, 2020, through June 30, 2022, because of staffing issues and backlog in the FY 2020-21 physical inventories. Much of the staffing issues were related to Covid-19 both physical availability and turnover. As operations have since normalized, we do not believe a corrective action plan to our procedures is needed. However, we do recognize that we need to catch up on the backlog of inventory. Since June 30, 2022, Property Control has hired three new employees and is now fully staffed. We are in the middle of conducting the FY 2022-23 physical inventories. We selected 45 departments and a total of 6089 assets. Of the total asset count 5295 were federal equipment, which is 62% of all federal equipment for FY 2022-23. We have received 19 departments' inventory submissions and have completed 4 of them. The Property Control team along with campus staff are working diligently to get these inventories completed by year-end June 30, 2023. We have every confidence that rest of the 38% of federal equipment will be inventoried as required under 2 CFR s. 200.313 (d) (2) by fiscal year end 2024.

Corrective Action Plan

Finding 2022-704: Research and Development Cluster—Unallowable Costs

Planned Corrective Action: We agree with the condition that expenditures noted by the auditors were posted to federal awards in error. Our institution has robust policies and procedures in place along with multiple levels of review for transactions that post to awards. However, there may be rare instances where a transaction posts to an award for which it is not allowable or allocable. As noted by the auditors, they sampled from a population of \$86.9 million from certain expenditure codes and only questioned \$650 in costs. These expenditures have now been transferred off the awards to non-sponsored funding.

To help Research Administrators manage Research and Development Awards, RSP (Research and Sponsored Programs) offers a variety of tools. RSP maintains a website that houses policies and procedures related to all relevant Research Administration topics. In addition to this, the RSP website has FAQ (Frequently Asked Questions) pages on a variety of Research Administration topics. RSP also offers a comprehensive training program called RED (Research Education Development). We offer courses that include topics such as a basic introduction to research administration, closeout of awards, cost-share, cost-transfers, and many others. We will remind administrators and their staff of all the relevant information our website houses and that they should take any pertinent RED. Lastly, we will remind staff that they can retake courses if they haven't taken them recently and want to refresh their knowledge.
