Provost or Authorized Representative: _____

[Refer to the guidelines for additional notifications]

Routing: Provost’s Office electronically submits completed forms to the Registrar’s Office, the Academic Dean or Director of Graduate Studies, the SOFAS, and the chair of unit initiating the request.

Support Documentation

Insert support documentation [syllabus, rationale, etc.] here:

As a matter of clarification, the PEA budgetary unit’s Executive Committee voted negative on a motion to merge our unit with the URS budgetary unit. The reasoning was that we would not have sought a merger between our unit and the URS budgetary unit and do not find it to be the most desirable course of action. On the other hand, given the administrative dictate that our units be merged due to budgetary and enrollment situations, we have already begun to work cooperatively with the URS unit (which voted in favor of merger) to develop means for moving forward as a merged unit and to do so in a collegial fashion for the benefit of our campus and its students.

UW-GREEN BAY
ACADEMIC UNIT ACTIONS

Joint meeting of AAC and PC support documentation 10/2/15:
We recommend that if the merger goes through, that URS and PEA, with all faculty participating, should clearly articulate the jointly agreed upon criteria for promotion, tenure, and merit and prepare a written document to that effect.

Insert support documentation that shows track changes [catalog page/s] here, following these instructions:
1. In the source document which shows track changes, select the text to transfer;

Faculty Senate New Business 4a 10/14/2015
RESOLUTION on CONCEALED CARRY IN CAMPUS BUILDINGS

A STATEMENT BY FACULTY AND STAFF AT THE UW COLLEGES IN OPPOSITION TO THE PROPOSED CONCEALED CARRY OF FIREARMS BILL ON CAMPUS

WHEREAS, the current proposed legislation (LRB-2653/1) in the Wisconsin Legislature would 1) exempt any college or university in the UW System and any technical college from the law that allows a university or college to prohibit a person from carrying a firearm in any building on its grounds if the person holds a license to carry a concealed weapon; 2) Repeal the provision in the administrative code in which the UW System generally prohibits persons from carrying, possessing, or using any dangerous weapon on university property or in university buildings or facilities, and

WHEREAS, allowing concealed carry permit holders to bring firearms on university grounds, buildings, or into classrooms threatens the progress of education and the expression of ideas and makes the university less safe, and

WHEREAS, law enforcement professionals believe that prohibiting firearms on college campuses, except by campus police and trained security officers, is an essential element of those schools’ safety plans, and

WHEREAS, the faculty and staff at the UW Colleges are responsible for being a voice for students, faculty, and staff on issues relating to campus safety and general well being, and

WHEREAS, all students, faculty, and staff at the UW Colleges have the right to learn and work in a safe environment free from concealed firearms, and

THEREFORE, be it resolved that the faculty and staff of the UW Colleges strongly oppose any bill put forth by the State of Wisconsin that could prohibit universities from banning the carrying of firearms by non-law enforcement officials in any building on our campus, and

BE IT FURTHER RESOLVED that the faculty and staff at the UW Colleges strongly encourages legislators to give high priority to campus safety, and

BE IT FURTHER RESOLVED THAT the faculty and staff at the UW Colleges urge legislators to vote against any such legislation.

References:

- Act to amend 943.13 (1m)(c) to allow for concealed carry of firearms in university buildings.
- "Joint Statement: UW System President Ray Cross and UW System Chancellors on Campus Concealed Carry Bill." UW System. 29 May 2015.
WHEREAS, the university is an institution devoted to the development and enlargement of students’ minds and abilities, to the free and open discussion of ideas, and to the creation and dissemination of knowledge; and

WHEREAS, the very presence of concealed weapons undermines the safe environment necessary for the exploration of controversial and challenging ideas; and

WHEREAS, the presence of concealed weapons on campus increases the possibility of accidents and interferes with campus safety plans; and

WHEREAS, the potential presence of concealed weapons threatens to cause fear and mistrust, interfering with everyday interactions among faculty, staff, and students; and

WHEREAS, the permitting of weapons into campus classrooms, offices, dining areas, residence halls, lounges, and other spaces would fundamentally change the nature of employment, enrollment, and residency at the university; and

WHEREAS, private businesses and institutions have the ability under state law to prohibit concealed weapons; and

WHEREAS, we stand in solidarity with other members of the public higher education community in Wisconsin, including [insert list of related resolutions],

THEREFORE, the Faculty Senate of the University of Wisconsin–Green Bay hereby declares our opposition to LRB-2653/1 or any such law that would require public colleges and universities in Wisconsin to allow the carrying of weapons in campus buildings by anyone other than authorized law enforcement officers.

Resolution of the Faculty Senate of the University of Wisconsin Green Bay in support of the administrative reorganization of the University of Wisconsin Green Bay

November 11, 2015

WHEREAS, the political and economic environments of higher education are changing; and

WHEREAS, successful organizations change their leadership models to address threats and opportunities created by changes in their economic environment; and

WHEREAS, the University of Wisconsin-Green Bay has a leadership model designed for a very different economic environment; and

WHEREAS, the administrative reorganization proposed by the Chancellor will position the University to more efficiently address opportunities for educational and programmatic innovation, scholarship, community engagement, and growth; therefore, be it

RESOLVED, that the Faculty Senate of the University of Wisconsin-Green Bay hereby endorses the creation of separate colleges for Arts, Humanities, & Social Sciences; Business; Health, Education, & Social Welfare; and Science & Technology.

Faculty Senate New Business 5a 11/11/2015
RESOLUTION ON THE GRANTING OF DEGREES

Be it resolved that the Faculty Senate of the University of Wisconsin-Green Bay, on behalf of the Faculty, recommends to the Chancellor and the Vice Chancellor of the University that the students certified by the Registrar of the University as having completed the requirements of their respective programs be granted their degrees at the Fall 2015 Commencement.

Faculty Senate New Business 4a 12/9/2015
Whereas, WI Act 55 removed statutory protections for tenure and shared governance, and given effective authority to the University of Wisconsin Board of Regents and individual campus Chancellors, and

Whereas, state law has not removed the ability or responsibility of Regents and Chancellors alike to uphold the standards of tenure and academic freedom, in practice and policy, and

Whereas, draft documents from the Tenure Task Force meetings that have become public portend grave threats to tenure and academic freedom in the Wisconsin state university system in the wake of changes in state law;

Therefore, be it resolved that Faculty of the University of Wisconsin-Green Bay call upon UW System Chancellors and the Regents to affirm and practice the following principles in regard to probationary and tenured faculty, in maximal accordance with both the state standards established by law and administrative rules immediately previous to WI Act 55, as well as the national standards established by the American Association of University Professors (AAUP).

1. Tenured and probationary faculty should be terminated only for just cause, with a rigorous procedure of faculty review to uphold that standard.

2. Tenured and probationary faculty should not be laid off due to budgetary changes unless a financial emergency exists, as declared after detailed consultation with appropriate faculty governance bodies. A financial emergency is a severe financial crisis that fundamentally compromises the academic integrity of the institution as a whole and that cannot be alleviated by less drastic means.

3. The faculty as a whole, or an appropriate committee thereof, should primarily determine program changes for their campus, including any changes that might lead to layoffs. Program decisions should be based essentially upon educational considerations. Educational considerations do not include cyclical or temporary variations in enrollment, but rather must reflect long-range judgments that the educational mission of the institution as a whole will be enhanced by the change.

4. The principles and practices of tenure, and the academic freedom which they enact, should be upheld equally throughout the System, without differentiation between campuses.
Code Change on Graduate Academic Affairs Council

(under 53.12 Graduate Program of the Faculty Handbook)

E. Graduate Studies Council. Members of the Graduate Studies Council are elected from among the tenured members of the graduate faculty [as defined in 53.12A]. The Council is convened by the Associate Provost for Academic Affairs/Director of Graduate Studies and serves in an advisory capacity to the Provost and Vice Chancellor for Academic Affairs, Associate Provost for Academic Affairs/Director of Graduate Studies, and appropriate Dean(s).

1. Council members are elected from among the tenured members of the graduate faculty and include two at-large members who serve for three years, with terms staggered to ensure continuity, and who may not be elected for consecutive terms. Graduate program chairs and the chairs of cooperative graduate programs shall also serve as voting members of the Council. The Associate Provost for Academic Affairs/Director of Graduate Studies, Dean of the College of Professional Studies, and Dean of the College of Liberal Arts and Sciences serve ex officio, non-voting. Additionally, a graduate student shall be selected by the Associate Provost for Academic Affairs/Director of Graduate Studies to serve as a nonvoting member of the Board for a one-year term.

2. The Committee on Committees and Nominations shall nominate members for vacancies on the Council, ensuring that the two at-large members do not belong to the same graduate program.

3. Upon the request of the appropriate Dean(s), the Graduate Studies Council shall approve or disapprove all new programs or modifications to existing programs and all new credit courses or modifications to existing credit courses at the graduate level.

4. The Graduate Studies Council shall have the responsibility and authority for review and approval of all credit courses and all academic programs at the graduate level. Its official decision shall be forwarded to the Faculty Senate through the University Committee. The Faculty Senate will publish all curricular decisions made by the Graduate Studies Council in the minutes of its monthly meetings and forward them along with copies of all official Graduate Studies Council correspondence to the Provost/Vice Chancellor for Academic Affairs.

5. In a case where the Graduate Studies Council does not approve a new course or program, the initiator of that new course or program may ask the Graduate Studies Council for reconsideration of the decision, providing new arguments or supplementary evidence in support of the proposal to address the Graduate Studies Council’s objections. If this appeal fails to produce a satisfactory conclusion, in the view of the initiator, an appeal to the University Committee can be made. In such cases the University Committee may investigate the
appeal themselves or establish an ad hoc committee to do so. If the University Committee chooses to overturn the decision of the Council, the results of that deliberation will be reported to the Senate, published in the Senate minutes, and forwarded to the Provost/Vice Chancellor for Academic Affairs.

6. On its own initiative, or upon request of the University Committee, the Graduate Studies Council may advise the Faculty Senate about issues of graduate level education policy and implementation that falls within the jurisdiction of the Faculty.

7. The Graduate Studies Council shall annually provide the Secretary of the Faculty and Staff, for inclusion in the Faculty Governance Handbook, a current list of graduate programs and graduate level certificate programs.

53.13 Amendments
Amendments of this chapter are under the jurisdiction of the Faculty and must carry by a two-thirds majority of the Faculty Senate.

UWGB CHAPTER 54 UNIVERSITY COUNCILS

54.01 University Councils Defined

The Personnel Council is a Faculty council which advises the Provost/Vice Chancellor for Academic Affairs and, as appropriate, the Dean(s).

The Academic Affairs Council, Graduate Academic Affairs Council and General Education Council are Faculty councils reporting to and working with the Faculty Senate and its executive committee, the University Committee.

54.02 Membership and Election of Members for each Council

A. The nomination of Council members shall be the responsibility of the Committee on Committees and Nominations.

B. For the Academic Affairs Council, Personnel Council, and General Education Council, the four domain voting districts shall be as follows: Natural Sciences, Social Sciences, Arts and Humanities, and Professional Studies. The representatives from these domain voting districts shall each be elected by members of the appropriate faculty group. At-large members shall be elected by the faculty as a whole.

C. For each Council, the Academic Affairs Council, Personnel Council, and General Education Council there shall be one member from each domain voting district. The Academic Affairs Council and the Personnel Council shall additionally each have one member at-large for a total membership of five. The General Education Council shall have two members at-large for a total membership of six.
D. The Graduate Academic Affairs Council members are elected from among the tenured members of the graduate faculty. The Council shall consist of one member from each of the colleges that house a graduate program who is elected by members of the faculty of the college being represented, plus one at-large member who is elected by the faculty as a whole. Additionally, a graduate student shall be selected by the Director of Graduate Studies to serve as a nonvoting member of the Council for a one-year term.

E. A faculty member may not serve on two Councils at the same time.

F. The length of each term shall be three years and staggered to provide continuity.

G. Professors and associate professors with tenure are eligible to serve on the Councils with the exception of those who are members of the University Committee or interdisciplinary unit chairpersons. Members of the Committee on Rights and Responsibilities or the Committee of Six Full Professors may not serve on the Personnel Council at the same time. If a faculty member has an appointment half-time or more in an administrative position, or one in which there is an apparent conflict of interest, as determined by the University Committee, this faculty member will not be eligible to be elected to, or serve on, any Council.

H. After serving for a term, a one year period must elapse before a person becomes eligible to serve again on the same Council.

I. The chairperson for each Council shall be elected by its members annually. The chairperson shall report annually to the Faculty.

J. When a vacancy occurs, the person with the next highest vote in the district will be appointed. If there are no available candidates or the next person down has received, in the opinion of the University Committee, too few votes, there will be an election for the vacant position.

54.03 Functions of the Councils

A. Academic Affairs Council

1. Upon request of the appropriate Dean(s), the Academic Affairs Council shall approve or disapprove of all new programs or on modification to existing programs (majors and/or minors), and on all new credit courses or modifications to existing credit courses at the undergraduate level.

2. The Academic Affairs Council shall have the responsibility and authority for review of all credit courses and all academic programs at the undergraduate level. Its official response, including its decision, shall be forwarded to the Faculty Senate through the University Committee. The Faculty Senate will publish all curricular decisions made by the Academic Affairs Council in the minutes of its monthly meetings and forward them along with copies of all official Academic Affairs Council correspondence to the Provost/Vice Chancellor for Academic Affairs.
In a case where the Academic Affairs Council does not approve a new course or program, the initiator of that new course or program may ask the Academic Affairs Council for reconsideration of the decision, providing new arguments or supplementary evidence in support of the claim or making appropriate modifications in the proposal to meet the Academic Affairs Council’s published objections. If this initial appeal fails to produce a satisfactory conclusion in the view of the initiator, a second appeal to the University Committee is possible. In such cases the University Committee may investigate the appeal themselves or establish an ad hoc committee to do so. If the University Committee chooses to overturn the second no approval decision, the results of that deliberation will be reported to the Senate, published in the Senate minutes and forwarded to the Provost/Vice Chancellor for Academic Affairs.

3. The Academic Affairs Council shall have the responsibility for examining the interrelationships among program areas in the University and for overseeing for the faculty the total academic plan and its various programs and components. This examining and overseeing function shall include, but not be limited to, the reviewing of course titles and content for duplication, and the monitoring of records pertaining to enrollments in lower division courses, upper division courses, and career and adult education courses. The final decision of the Council shall be forwarded to the Faculty Senate through the University Committee. The Faculty Senate will publish all curricular decisions of the Academic Affairs Council in the minutes of its monthly meetings and forward them along with copies of all official Academic Affairs Council correspondence to the Provost/Vice Chancellor for Academic Affairs.

4. On its own initiative, or upon request of the University Committee, the Academic Affairs Council may advise the Faculty Senate about issues of educational policy and implementation that fall within the jurisdiction of the Faculty.

5. The Academic Affairs Council shall annually provide the Secretary of the Faculty and Staff, for inclusion in the Faculty Governance Handbook, a current list of: 1) Interdisciplinary Units and 2) approved academic programs (including majors, minors, emphases, and certificate programs).

B. Personnel Council

1. The appropriate Dean(s) shall seek the advice of the Personnel Council whenever a candidate for appointment or promotion is to receive tenure.

2. The Council shall develop written criteria to be used in providing its advice.

3. While serving on the Personnel Council, a member shall not take part in the deliberations or voting on a candidate for promotion in any review body other than the Personnel Council.

4. On its own initiative, or upon the request of the University Committee, the Personnel Council may advise the Faculty Senate about issues of personnel policy
and implementation that fall within the jurisdiction of the Faculty.

C. **General Education Council**

1. The General Education Council shall provide advice to the Faculty Senate as well as to the Provost/Vice Chancellor, Associate Deans, and Deans on all aspects related to the general education curriculum.

2. The General Education Council will establish and manage the model for assessment and review of the general education curriculum.

3. The General Education Council may establish sub-committees for each General Education program component without an otherwise established governance or administrative structure. Such sub-committees will have delegated responsibilities as determined by the GEC.

4. Changes in General Education requirements may be initiated by the General Education Council, after consultation with the faculty groups and sub-committees affected, and are subject to approval by the Faculty Senate.

D. **Graduate Academic Affairs Council**

1. Upon the request of the appropriate Dean(s), the Graduate Academic Affairs Council shall approve or disapprove all new programs or modifications to existing programs, and all new credit courses or modifications to existing credit courses at the graduate level.

2. The Graduate Academic Affairs Council shall have the responsibility and authority for review and approval of all credit courses and all academic programs at the graduate level. Its official decision shall be forwarded to the Faculty Senate through the University Committee. All curricular decisions made by the Graduate Academic Affairs Council will be published in the agenda of the Faculty Senate and forwarded along with copies of all official Graduate Academic Affairs Council correspondence to the Director of Graduate Studies and the Provost/Vice Chancellor for Academic Affairs.

3. In a case where the Graduate Academic Affairs Council does not approve a new course or program, the initiator of that new course or program may ask the Graduate Academic Affairs Council for reconsideration of the decision, providing new arguments or supplementary evidence in support of the proposal to address the Graduate Academic Affairs Council's objections. If this appeal fails to produce a satisfactory conclusion, in the view of the initiator, an appeal to the University Committee can be made. In such cases the University Committee may investigate the appeal themselves or establish an ad hoc committee to do so. If the University Committee chooses to overturn the decision of the Council, the results of that deliberation will be reported to the Senate, published in the Senate minutes, and forwarded to the Director of Graduate Studies and the Provost/Vice Chancellor for Academic Affairs.
4. The Graduate Academic Affairs Council shall have the responsibility for examining the interrelationships among graduate program areas in the University and for overseeing for the faculty the total graduate academic plan and its various programs and components. This examining and overseeing function shall include, but not be limited to, the reviewing of course titles and content for duplication, and the monitoring of records pertaining to enrollments in graduate programs. The final decision of the Council shall be forwarded to the Faculty Senate through the University Committee. All curricular decisions made by the Graduate Academic Affairs Council will be published in the agenda of the Faculty Senate and forwarded along with copies of all official Graduate Academic Affairs Council correspondence to the Director of Graduate Studies and the Provost/Vice Chancellor for Academic Affairs.

5. On its own initiative, or upon request of the University Committee, the Graduate Academic Affairs Council may advise the Faculty Senate about issues of graduate level education policy and implementation that fall within the jurisdiction of the Faculty.

6. The Graduate Academic Affairs Council shall annually provide the Secretary of the Faculty and Staff, for inclusion in the Faculty Governance Handbook, a current list of graduate programs and graduate-level certificate programs.

54.04 Joint Function of the Councils

A. When appropriate, the Councils will meet jointly to consider matters of mutual interest.

B. On their own initiative, or upon request, the joint Councils may advise on educational policy and its implementation.

54.05 Amendments

Amendments of this chapter are under the jurisdiction of the Faculty and must carry by a two-thirds majority of the Faculty Senate.

Faculty Senate Old Business 4a 1/27/2016
Proposal for M.S. in Health and Wellness Management

REQUEST FOR AUTHORIZATION TO IMPLEMENT A COLLABORATIVE ONLINE MASTER OF SCIENCE DEGREE IN HEALTH AND WELLNESS MANAGEMENT

University of Wisconsin-Green Bay
University of Wisconsin-Parkside
University of Wisconsin-River Falls
University of Wisconsin-Stevens Point
University of Wisconsin-Superior

With administrative and financial support from the University of Wisconsin-Extension

ABSTRACT

The University of Wisconsin-Extension, on behalf of the above-defined academic partners, proposes to establish an online Master of Science degree in Health and Wellness Management (M.S. in Health and Wellness Management). This program responds to recognized growth in the wellness market and the need to prepare trained managers to plan, implement, promote and evaluate comprehensive wellness programs within and across complex organizations and diverse communities. The program will equip students with the competencies required to successfully promote and advance the health and well-being of defined groups of people, to effectively lead wellness programs and to conduct research in the discipline. The program is unique from other programs in that it has an increased emphasis on management and leadership competency development and focuses on all dimensions of personal and organizational wellness.

The degree has been designed to prepare professionals to assume senior leadership positions in the wellness management field. It is not designed to train specialists in areas common to the wellness field such as health education, nutrition and exercise science. The program is expected to attract practitioners possessing bachelor’s degrees in these and other specialty disciplines who are seeking management positions within or outside their current organizations or are interested in a career change. The program features a multidisciplinary curriculum that draws primarily from psychology, health, nursing/healthcare, communication and management, and represents a fixed curriculum comprising 36 credits (12 three-credit courses) to include a required capstone course which represents the culminating experience for students.

The field of worksite wellness was born several decades ago and initially was considered an employee perk or recruitment tool. However, over the past 30 years, wellness has developed into a primary business strategy as these programs, when managed effectively, have documented successes in addressing key business issues such as health care cost containment, productivity, absenteeism, and risk management. The worksite represents a primary delivery venue for wellness programs as it provides a controlled environment and a captured audience in which to deliver targeted wellness education and intervention programs in such areas as health consumerism, health risk management, disease management, physical inactivity, weight control, stress management,
and tobacco cessation. In addition to worksites, wellness managers work in a variety of support settings to include managed care organizations, insurance companies, hospitals, health systems, health management firms, community health organizations, health and benefits consulting firms, and health and wellness service providers/vendors.

**PROGRAM IDENTIFICATION**

**Institution Names**
University of Wisconsin-Green Bay  
University of Wisconsin-Parkside  
University of Wisconsin-River Falls  
University of Wisconsin-Stevens Point  
University of Wisconsin-Superior

**Title of Proposed Program**
Master of Science in Health and Wellness Management

**Degree/Major Designations**
Master of Science/Health and Wellness Management

**Mode of Delivery**
Collaborative online degree program

**Projected Enrollments by Year Five**
Table 1 represents enrollment and graduation projections for students entering the program over the next five years and is based, in part, on experience with similar University of Wisconsin online programs. It is also assumed that the majority of students will enroll part-time. As shown, we are anticipating strong enrollments with 181 new students enrolling in the program and 36 students having graduated from the program by the end of year five. For the purpose of this model, it is anticipated that the annual attrition will be low.

*Continuing Students are defined as students who entered into the program as new students, or those who were previously enrolled at the partner institution and transferred into this degree program from another degree program.

**Tuition Structure**
Program tuition for the M.S. in Health and Wellness Management program will be set at $725/credit for 2016–2017 and will be identical at all five partner institutions. This fixed tuition rate is based on market demand estimates as well as comparisons with other online programs in the University of Wisconsin (UW) System and nationally, and will be charged outside the credit plateau. This amount represents an all-inclusive fixed tuition, and students will not be charged any additional fees (such as segregated fees) as part of the program, except for the costs of their books. There is no tuition differential for out-of-state students. However, they will not be
required to pay these fees if they do not take advantage of associated resources. This tuition pricing approach and structure follows the current UW System pricing guidelines for distance education programs (ACIS-5.4 Revised: Programming for the Non-Traditional Market in the University of Wisconsin System1).

Department, College, School, or Functional Equivalent

This is a highly collaborative, interdisciplinary program that follows a home campus model (i.e. students identify/select a home campus to receive academic supports and from which the degree is conferred). The departments and schools/colleges that will offer courses for this program at each institution are as follows:

- At the University of Wisconsin-Green Bay, the M.S. in Health and Wellness Management degree will be housed in the Department of Nursing within the College of Professional Studies.

- At the University of Wisconsin-Parkside, the M.S. in Health and Wellness Management degree will be housed in the Department of Health, Exercise Science and Sport Management in the College of Natural and Health Sciences.

- At the University of Wisconsin-River Falls, the M.S. in Health and Wellness Management degree will be housed in the Department of Health and Human Performance in the College of Education and Professional Studies.

- At the University of Wisconsin-Stevens Point, the M.S. in Health and Wellness Management degree will be housed in the School of Health Promotion Human Development within the College of Professional Studies.

- At the University of Wisconsin-Superior, the M.S. in Health and Wellness Management degree will be housed within the Department of Business & Economics.

UW-Extension Division of Continuing Education, Outreach and E-Learning provides administrative and financial support for the program. UW-Superior will serve as the lead institution to coordinate the consortial agreement application process to seek approval through the Higher Learning Commission (HLC).

Proposed Date of Implementation

September 2016 pending approval by UW System and the Board of Regents and subsequent approval by the HLC.

INTRODUCTION

Rationale and Relation to Mission

The online M.S. in Health and Wellness Management degree program contributes directly to the institutional mission of the University of Wisconsin System which clearly defines a commitment to “discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses.” Inherent in this mission are methods of instruction, research, extended education, and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.2
The online M.S. in Health and Wellness Management provides a degree in a recognized high-need area as supported by research that included extensive input from employers throughout the state and region, and develops competencies that will enable graduates to contribute immediately to serve this important function and role within the Wisconsin workforce. It is a degree targeted at adult and nontraditional students possessing a bachelor’s degree, and thus broadens access for alumni and others to the university environment.

The online M.S. in Health and Wellness Management also supports the institutional missions of the five partner campuses by contributing to the core of liberal education by developing communication, critical thinking, problem solving, analytical skills, leadership, teamwork, and collaboration skills. Furthermore, this will be a multidisciplinary degree that helps build bridges between disciplines and develops students’ abilities to think in terms of systems and interrelationships, and within complex organizations.

Need as Suggested by Current Student Demand

In 2011, the UW System approved the collaborative Bachelor of Science degree in Health and Wellness Management. This program launched in spring of 2012 and has experienced impressive growth. In the spring 2015 academic semester, the program served approximately 150 students representing over 370 course enrollments. An analysis of the prospect pool for this program (those individuals expressing formal interest but not enrolling in the program) supports the need for an advanced degree in this area. Of the over 6000 prospects in the program database for whom we have education level data, almost 50 percent have an earned bachelor’s degree. By comparison, approximately 8 percent of our current students enrolled in the undergraduate program have an earned bachelor’s degree. Enrollment advisors have identified this situation as a barrier-to-action for these individuals who have significant interest in joining or advancing in the field and want a UW degree, however, are questioning the value of a second baccalaureate degree. This group makes up a sizable pool of prospective students for the proposed online graduate program in Health and Wellness Management. Based on a recent survey of this audience, 86 percent of those responding \( (n=508) \) identified an interest in learning more about and potentially enrolling in the program.

Based on input received from members of the established UW Health and Wellness Management Program Advisory Board representing 18 regional wellness professionals, and interviews with additional health and wellness experts, there is a recognized need for wellness professionals with advanced training in key areas of management to include, but not limited to, program and organizational budgeting, legal/policy issues, strategic planning, change management, systems thinking, marketing and communication. These individuals also acknowledged that the majority of their recent job applicants held completed undergraduate degrees in the areas of community health, health education, kinesiology, exercise science, nutrition, health promotion, recreation management, human resources and social work, and had limited education and training in the management field. They also shared that they were familiar with a number of professionals in the field, to include their current employees, who would benefit from this advanced degree. All of the industry contacts communicated that they would refer employees, as appropriate, to the program, and some expressed a personal interest in the advanced degree. Finally, the majority of the industry contacts identified having some level of tuition reimbursement support available through their organization.

One of the many recognized and significant benefits of the collaborative program model is the extended reach or scope of contacts provided through the involvement of multiple
academic partners located within unique markets throughout the state. Our academic partners have established significant relationships, reputation, and strength-of-brand within their individual regions, which has proven valuable in identifying regional interest in the program and will help raise awareness of this opportunity throughout the state and expand program reach. This will ultimately result in greater success in reaching and serving students, supporting student and regional business needs and interests, and promoting program growth and positioning it for sustainability.

**Need as Suggested by Current Market Demand**

Typical positions/job titles for wellness professionals include Chief Wellness Officer, Employee Wellness Director, Wellness Program Director, Wellness Administrator, Corporate Wellness Account Executive and Health and Wellness Benefits Manager. It is also recognized that, within complex organizations, those responsible for wellness program management may hold more traditional titles such as Health and Benefits Manager, Human Resource Manager, and Risk Manager. According to the Bureau of Labor Statistics (2014), the national median annual salary for wellness program and service managers was $77,020 with projected growth for the job ranging from 8 to 14 percent nationally. Within Wisconsin, the median annual salary in a related job classification was $67,200 with a projected annual growth rate of 10 percent.

In early 2014, the collaborative partners commissioned the Education Advisory Board (EAB), to conduct research regarding the market demand and viability of a master’s degree in the area of health and wellness management. The resulting Custom Research Brief (September 2014) identified that the demand for graduates with a master’s degree in Health and Wellness in the upper Midwest outpaced national demand between 2010 and 2013. Specifically, the number of job postings in industries that require a graduate degree increased 40 percent in the Upper Midwest and decreased 15 percent nationally during this period.

**DESCRIPTION OF PROGRAM**

**General Structure**

The online M.S. in Health and Wellness Management degree program will focus primarily on adult and nontraditional students who hold a bachelor’s degree and have the desire to continue their education toward a graduate degree, primarily to expand knowledge and specialized skills in this area and for career advancement. A listing of program competencies and outcomes has been provided later in this document.

The M.S. in Health and Wellness Management is a fully online 36-credit (12 three-credit courses to include a capstone course) graduate program offered jointly by UW-Green Bay, UW-Parkside, UW-River Falls, UW-Stevens Point, and UW-Superior. The program follows a home-campus model. Students will apply to one of the five partner institutions. Upon a student’s admittance, that institution will become the student’s academic home for the degree through graduation. The program will have an academic director at each institution, and each campus will host two-three courses in the curriculum. Students will receive academic advising regarding admission and graduation requirements, and financial aid through their home institution. Faculty and academic advisers at each institution will offer virtual office hours and online chat capabilities, as well as access by telephone and email. Students will have online library access through the home institution.
UW-Extension will provide administrative and financial support to the program. A program manager will be housed at UW-Extension and will work in concert with student services staff at the five partner institutions to provide general program information, problem resolution, and additional supports. The program manager will be in close contact with the enrolled students and with the academic program directors to coordinate the hands-on active support that has been shown to be important for adult and nontraditional learners. Students enrolled in this program will have access to an extensive array of online student services including writing labs, learning readiness assessments, and career advising offered by UW-Extension.

**Institutional Program Array**

There is consensus among the five academic partners that the M.S. in Health and Wellness Management degree program will serve as a valuable complement to the existing graduate program array at each of their institutions and will not compete with any program currently offered. Wellness management represents a growing multidisciplinary field requiring professionals to effectively collaborate with and between established health and business disciplines for their programs to be successful. These disciplines are represented in other professional study programs offered through each of the partner institutions to include management, nursing, exercise science, kinesiology, public health and communication. Many of the academic resources (faculty, curriculum, materials) contributed by academic partners to the collaborative M.S. in Health and Wellness Management program exist within the above defined professional programs at their institutions. As an example, the MS in Health and Wellness Management course on *Health Systems and Policy* will be developed and instructed by faculty from the Department of Nursing at UW-Green Bay who have significant expertise in the subject area and teach similar courses within other professional programs through their institution. Each of the courses within the curriculum have a similar connection to the existing resources, departments and academic programs at each of the participating host campuses.

**Other Programs in the University of Wisconsin System**

A comprehensive search of current graduate-level degrees in the areas of health and wellness management, health promotion, lifestyle management or related topics within the UW System yields no same or similar program to the M.S. in Health and Wellness Management currently offered. It is clear that a gap exists within the state at the graduate level consistent with what our research suggested. The partners also recognize that this program will serve as a valuable option for B.S. in Health and Wellness Management students interested in continuing their education in an advanced degree.

The MS in Health and Wellness Management curriculum planning workgroup did identify a small number of similar regional and national graduate programs in the area of Health and Wellness Management or related topics (only three of which were offered in an online format). A review of these programs not only informed their planning but also assisted them in developing a unique online offering for professionals in this subject area. These programs include the following:

- Arizona State University, Master of Science in Exercise and Wellness (In-person, hybrid and Online)
- Ball State University (IN), Master of Science in Health and Wellness Management (In-person)
• Missouri State University, Master of Science in Health Promotion and Wellness Management (In-person)
• Nebraska Methodist University, Master of Science in Health Promotion Management (Online)
• Rowan University (NJ), Master of Arts in Wellness and Lifestyle Management (Online)

Collaborative Nature of the Program

The M.S. in Health and Wellness Management is a collaborative degree program that benefits from the shared resources of all partner institutions. UW System encourages and supports system-wide cooperative and collaborative efforts among institutions as one means to develop need-based programs of mutual interest, benefit, and value to all partners; add to the existing base of quality academic offerings within the System; and, more effectively and efficiently address the needs of both traditional and nontraditional learners, as well as employers within the state. This degree, like other collaborative programs currently offered within the System, provides each of the participating academic institutions the ability to offer a high-quality, sustainable program without a requirement to extend significant local resources and/or a risk of compromising existing programs.

Five partner campuses (UW-Green Bay, UW-Parkside, UW-River Falls, UW-Stevens Point, and UW-Superior) collectively contributed in the development of the program curriculum and competencies. All 12 courses will be approved at each of the partner institutions. UW-Extension will provide administrative support, financial investment, marketing, and student services for the program. Although students choose a home institution where they receive the degree, all of the courses are developed and housed at UW-Extension. This cohesive development and offering of courses will ensure students have a consistent experience even though the faculty reside at the different partner institutions. All courses will be listed in the campus registration systems. All partners will share equally in the net revenues from the program.

In addition, the program will continue to secure external input and advice through the established Health and Wellness Management Advisory Board whose members serve as ambassadors and referral agents to the program. The academic directors from each of the five partner campuses also hold seats on the Board which meets biannually. There is also student representation on the Board. Board members help host students working on capstone projects, and help create school-to-work transitions so that as students graduate from the program, they will move to gainful employment. The program manager will provide assistance to the Board, coordinate meetings, and so on. The academic directors of the program and program manager will engage with board members and ensure that the board is connected to the program in constructive and positive ways. Board meetings provide opportunities to present program progress and successes, and to gather feedback regarding changes in the industry and how those changes may affect program graduates. The meetings will also help to ensure that the program stays relevant to trends in the field.

Finally, it is anticipated that the program will establish several unique partnerships with various companies that represent products and tools commonly used by Health and Wellness Management professionals that may be incorporated into the curriculum/courses. These connections will serve to better prepare and position students for success in the field upon graduation as they put their new knowledge to work and help ensure the curriculum remains relevant.
Diversity

Consistent with current local efforts at all of the partner campuses, this program will strive to achieve inclusive excellence by enrolling, retaining, and graduating sufficient numbers of students from underrepresented populations; engaging faculty from underrepresented populations; implementing strategies to promote and support integration efforts; implementing multidimensional approaches to teaching and learning; and leveraging resources so that the program is able to respond to students’ evolving and growing needs.

As shared earlier, this degree will target primarily nontraditional students. Many students of color, first-generation Americans, first-generation college students, and low-income students are—often by necessity—nontraditional students because they have family or work responsibilities that prevent them from attending school in traditional formats. The online delivery format will also provide opportunities to those students who are time and place bound (do not reside within close proximity to an existing UW institution). Hence, from its inception, this degree is designed to attract underserved students. In addition, recruitment and marketing efforts for this degree will focus on underrepresented populations.

While the proposed degree does not project a significant number of new faculty and staff, the partner campuses will continue to be committed to recruiting a culturally diverse campus community. The program will work toward achieving equity in the gender distribution of faculty, and faculty of color will be encouraged to participate in this program.

UW-Extension has several initiatives currently underway to attract more students of color into the UW System. Through UW HELP, brochures focusing on Hispanic and Hmong students are sent to those target groups. A program manager for the M.S. in Health and Wellness Management program, employed by UW-Extension, will conduct outreach, working with employers to encourage and support the education of their employees. Part of this outreach will include exhibiting at professional conferences, job fairs, and other venues to promote program opportunities, especially focusing on underrepresented minorities. In addition, the Advisory Board will provide support in this area by helping the program extend its reach to diverse prospective students and communities.

Ensuring that diverse student populations enter the M.S. in Health and Wellness Management program is important, but equally important is providing the support services that students need to feel comfortable and able to succeed. The UW-Extension student advisers work closely with all students to self-identify barriers to their success to either help them overcome those barriers directly or to point them to campus and other resources that will be of assistance to them. UW-Extension will maintain online student environments that will allow individuals from diverse ethnic backgrounds to connect with other students over both cultural similarities and over programmatic interests to help build points of commonality and understanding. Social media opportunities for student connection will be made available through Facebook, Twitter, and LinkedIn, to name a few. Simply put, an essential goal of this program is to increase both the access for diverse audiences to this degree and the success of those students once they enter the program. To ensure that this goal is met, one of the areas of assessment focuses on diversity.

On the curricular side, faculty will incorporate topics and discussions related to diversity and inclusivity into courses as deemed valuable and appropriate to ensure students have an understanding of these issues and how they impact decisions. In addition, we recognize that
adult students come to the learning environment from diverse backgrounds, with their bags packed full of unique knowledge and experiences, and looking for opportunities to share that knowledge with others. It follows then that the strength of this program and the success of our students is, in large part, based on our ability to attract and retain a diverse adult student audience.

Student Learning Outcomes

During the summer of 2015, the M.S. in Health and Wellness Management curriculum development workgroup, made up of faculty from each of the partner institutions, dedicated significant time to the development of a targeted and powerful program curriculum. This process and ultimate product were significantly enhanced with input from professionals from a number of health and wellness settings. Specific program competencies and outcomes as developed by workgroup are summarized as follows.

Competency A: Demonstrate effective communication skills for diverse audiences

Upon completion of the program, students will be able to:
- Demonstrate professional interpersonal skills
- Compose and deliver diverse well-written communications and materials
- Deliver oral presentations addressing current wellness topic(s) for target audiences
- Deliver persuasive arguments based on research, trends, and data
- Demonstrate effective use of technology

Competency B: Demonstrate effective organizational development

Upon completion of the program, students will be able to:
- Demonstrate ability to assess organizational culture.
- Use change management practices to shape organizational culture.
- Set a clear vision, mission, and strategy.
- Exhibit inclusive leadership skills.
- Develop and lead effective teams.
- Demonstrate conflict management strategies.

Competency C: Utilize population health tools for wellness management

Upon completion of the program, students will be able to:
- Evaluate a variety of population health tools for application to diverse audiences.
- Apply behavioral economic principles to evaluate wellness promotion programs.
- Critically examine current industry programs and trends.
- Collect, manage, analyze, interpret and apply population health tools to program specific data.
- Utilize best practices in program planning, development and evaluation.

Competency D: Apply appropriate management practices for organizational wellness

Upon completion of the program, students will be able to:
- Demonstrate the core management practices of planning, leading, organizing and controlling.
- Utilize health care economics principles to inform decision-making.
- Develop effective marketing campaigns.
- Demonstrate sound financial practices.
- Integrate human resource principles into management practices.
- Apply systems thinking strategies in wellness management.

Competency E: Effectively navigate the legal and ethical environment of wellness management
Upon completion of the program, students will be able to:

- Analyze current federal and state laws as they impact wellness management.
- Assure organizational policies comply with regulations.
- Utilize effective negotiation skills regarding contracts, including RFPs.
- Apply principles of ethics in wellness management decisions.
- Promote corporate social responsibility.

**Competency F: Demonstrate knowledge in the scientific foundations of wellness**

Upon completion of the program, students will be able to:

- Elucidate determinants of health.
- Apply specific or targeted interventions to effectively address identified population health issues.
- Model personal wellness.

**Assessment of Student Learning Outcomes**

The assessment of student learning outcomes for the M.S. in Health and Wellness Management degree program will be managed by an assessment team composed of the five academic program directors from each partner campus as well as the program manager. This team also serves as the oversight and decision-making body for the program. The team will meet biannually in person; however, teleconferences may be used to meet more frequently if the need arises.

The assessment team will identify and define measures and establish a rubric for evaluating how well students are meeting the program’s seven competency areas. The team will also identify what data will be needed and serve as the collection point for the data. As a part of the course development process, the assessment team will determine which examples of student work will be most appropriate to demonstrate competency in a specific student learning outcome. Program graduates will be surveyed to determine success in securing employment related to the major, and regarding the types of roles and careers that graduates have entered.

The assessment team will receive data collected from campuses by UW-Extension each semester. UW-Extension will also monitor data on new enrollments, retention rates, and graduation rates. The assessment team will also compile these various sources of data and complete an annual report summarizing the data, the assessment of the data, and decisions regarding improvements to the curriculum, structure, and program delivery. The report will be shared with the faculty of the program and other stakeholders. Decisions of the assessment team will go through the normal curricular processes at each partner institution. The assessment team is responsible for ensuring that recommendations for improvement are implemented.

Student services, instructional, and business office personnel from each institution will also meet annually to review processes and concerns, and to make adjustments as necessary. Program evaluation regarding the collaborative nature of the model will help assess processes critical to the success of the collaboration, such as the financial model, student recruitment and advising, admission and enrollment processes and trends, and curriculum design.

Program assessment and evaluation occur on a more frequent schedule than in traditional academic programs. The M.S. in Health and Wellness Management program will go through an informal program and fiscal review three years following degree implementation. Based on those discussions, recommendations will be made related to the continuation of the program. In addition, the program will engage in a five-year review as required by UW System.
Program Planning and Review Liaisons at each of the partner campuses will be invited to participate in these review processes.

Program Curriculum
The M.S. in Health and Wellness Management program represents a fixed curriculum comprising 12 three-credit courses to include a capstone course (36 credit total). Graduates will leave the program as professionals with expertise in a number of specialized areas to include program planning and evaluation, program management, strategic planning, leadership, research, communication, legal and policy issues, health systems and organizational development. A complete course listing to include host campus is summarized as follows:

</table>

The curriculum planning workgroup has identified the following program prerequisites:
- Personal Health or Equivalent
- Anatomy and Physiology or Human Biology or Equivalent
- Intro to Psychology or Equivalent
- Elementary Statistics or Equivalent

Aptitude tests (GRE, GMAT, other) will not be required.

Projected Time to Degree
Based on experience with similar collaborative offerings within the UW System and the typical adult student profile, it is assumed that most students will enroll part-time and take an average of 3–4 courses per year. At this rate, the majority of students would complete the
program within 3 to 4 years. Students may enter the program for the spring, summer, or fall semester. Students will be encouraged to take courses in sequence and as influenced by internal course prerequisites. The capstone, which represents the culminating experience for students, must be taken in the final semester.

Program Review Process
The collaborative partners, including all five academic institutions and UW-Extension, will review the program annually. Academic directors, faculty, and administrators from all partners will have input into programmatic changes and upcoming needs. UW-Extension, as the fiscal agent for this program, will manage resources to ensure that funds are available to invest in the program as needed. The decision about how to invest in the program will be made collaboratively by all partners. As defined in the partner agreement, the program will engage in an internal 3-year review focusing on both program and fiscal matters. In addition, the program will conduct a formal 5-year review as required by UW System.

Institutional Review
Each of the partner institutions provides a comprehensive review of academic programs as noted below.

UW-Green Bay…The Graduate Studies Council has responsibility and authority for review of all credit courses and all academic programs at both the undergraduate and graduate levels. Recommendations and decisions of the Graduate Studies Council are forwarded to the Faculty Senate.

UW-Parkside…New programs are reviewed approximately five years after initial implementation. All continuing programs are reviewed on a seven year cycle. The review process includes preparation of a self-study by the program faculty, followed by review by an external evaluator, the college dean, and the faculty Committee on Academic Planning. The product of the review is a recommendation to the Provost to continue the program in its present form, change or redirect the program, consolidate with another program, or suspend or eliminate the program.

UW-River Falls…All academic programs (i.e., entitled majors and graduate programs and associated sub-majors) must complete an approved program audit and review process each six years. New programs must complete a special review in the 5th year subsequent to their entitlement. Following this, subsequent reviews take place every six years. The Provost and Vice Chancellor for Academic Affairs, the Faculty Senate Assessment Committee, and the Associate Vice Chancellor for Academic Affairs are jointly responsible for assessment initiatives. These units work together to support assessment efforts, and to ensure that assessment is being used for program improvement.

UW Stevens Point…The Department Review Subcommittee, which resides under the Faculty Senate’s Academic Affairs Committee, reviews academic programs according to the Reporting Cycle for Assessment and Program Review. This occurs at 5 year intervals.

UW-Superior…The Academic Program Review Council is responsible for ongoing program review. The Academic Program Review Council will conduct and supervise a program audit and review process of the Health and Wellness Management program on a regular basis and report the findings, stipulations, suggestions, and observations to the UW-Superior Faculty
Senate. The Health and Wellness Management program will also be reviewed annually as part of the Annual Assessment Plan of the Department of Business and Economics.

**Accreditation**

While there are no specific professional credentialing agencies for the degree program, partners will be securing authorization to offer a consortial, online master’s degree program from the Higher Learning Commission, the regional accrediting body for all five partner institutions. Each of the participating academic partners is currently under the Higher Learning Commission defined threshold for online program offerings. UW-Superior will serve as the lead institution for HLC approval.

**Faculty Senate Old Business 4b 1/27/2016**

**Narrative: Explanation of the Numbers and Other Ongoing Commitments that will Benefit the Proposed Program**

UW-Extension - CEOEL will initially fund the program with GPR until sufficient program revenues are being generated to pay for the program expenditures. GPR salary, fringe, supplies and expenses, and FTEs will be allocated to the academic institutions form UWEX/CEOEL.
Qualifications for Faculty and Instructional Academic Staff

Policy

The criteria to be used to determine if someone is qualified to teach any for credit course at UW-Green Bay are:

For Faculty and Instructional Academic Staff of graduate programs
1. Have a terminal degree appropriate for the content to be taught.
2. Instructors teaching doctoral level programs should have an appropriate record of scholarship.

For Faculty and Instructional Academic Staff of undergraduate programs
1. Have a terminal degree appropriate for the content to be taught, OR
2. Have a terminal degree in a collateral field and expertise appropriate for the content to be taught, OR
3. Have a degree appropriate for the content to be taught that is at least one level higher than the program that they will contribute instruction to, OR
4. Have a Master’s degree plus at least 18 graduate credits relevant to the content to be taught.

Special Accommodations for faculty with equivalent experience

Exceptions to the minimum criteria stated above can be made for individuals with the appropriate equivalent experience. The criteria that these individuals should meet are:

Have a degree appropriate to the content to be taught and at the same level of the program that they will contribute instruction to and an appropriate amount of professional experience that is relevant to the content to be taught that include documented experience and advancement or recognition in the field. For programs that have to meet professional accreditation requirements “an appropriate amount of professional experience” will be defined as being consistent with the requirements of the accreditation body. For other programs, 5 years of professional experience will be considered an appropriate amount of professional experience.
Evidence can include publications in peer-reviewed journals, professional recognition of scholarly activities and/or expertise specific to the content to be taught.
RESOLUTION ON THE GRANTING OF DEGREES

Be it resolved that the Faculty Senate of the University of Wisconsin-Green Bay, on behalf of the Faculty, recommends to the Chancellor and the Provost and Vice Chancellor of Academic Affairs of the University that the students certified by the Registrar of the University as having completed the requirements of their respective programs be granted their degrees at the Spring 2016 Commencement.

Code Change on 53.12 Graduate Program

53.12 Graduate Program

A. Graduate Degree Programs: Membership, Responsibilities, Appointment Process.

1. Membership. Graduate faculty status may be granted to UW-Green Bay faculty members holding professorial rank and Lecturers with faculty status by the Provost/Vice Chancellor for Academic Affairs on the recommendation of the appropriate dean and the graduate program executive committee. A faculty member may have a split assignment with another program and may vote in more than one. The Chancellor, Provost, Associate Provost, Director of Graduate Studies, deans and associate deans, directors and associate directors of research institutes, and curators of UWGB’s academic museums and collections are also granted graduate faculty status; ex-officio (non-voting) for all faculty governance and curriculum issues with the exception of graduate committees. In all cases graduate faculty must hold the highest degree or equivalent in their fields. Emeritus, retired faculty, research scientists, artists in residence, and affiliated academics and professionals may be granted adjunct graduate faculty status, provided they hold the highest degree or equivalent in their fields. Graduate faculty who leave UWGB for other employment opportunities may retain their graduate faculty status for additional year from the end of their formal employment with UWGB; additional extensions may be granted by Director of Graduate Studies following a formal request from the relevant program executive committee.

2. Responsibilities. Graduate faculty members are expected to regularly contribute to the success of the program in one or more of the following ways: (1) serve on thesis committees, either as major professor and/or committee member (in programs that require a culminating research project, the expectation is that faculty will regularly serve as project advisors); (2) provide graduate level instruction either through the teaching of graduate level courses, cross-listed courses, or independent studies/internships; and/or (3) contribute to the graduate program’s development (e.g., serving on program committees, attending program meetings, etc.). Interdisciplinary Budget Units are strongly encouraged to recognize the contributions of individuals with an appointment to a graduate program as part of the individual’s budgetary unit periodic performance review.

3. Appointment Process. Graduate faculty and graduate adjunct faculty are appointed to specific program(s) by the Provost/Vice Chancellor for Academic Affairs on the recommendation of the appropriate dean, the Director of Graduate Studies, and the program executive committee. A faculty member may have a split assignment with another program and may vote in more than one. Graduate adjunct faculty appointments are for a period of three years. Prior to the end of the second year of the appointment an individual should be considered for renewal by members of a program’s Executive Committee. Adjunct graduate faculty can withdraw participation at any time. Graduate faculty may request to terminate their participation in specific programs or their graduate faculty status. Recommendations regarding adjunct graduate faculty and graduate faculty status are made from a graduate program’s executive committee, must be reviewed by
appropriate budgetary unit executive committees, deans, and the Director of Graduate Studies. Final approval for appointments is made by the Provost/Vice Chancellor of Academic Affairs.

UW–Green Bay Teaching and Workload Policy

The faculty of the University of Wisconsin–Green Bay engage in teaching, scholarship, and service that addresses the needs and advances the interests of the institution and the larger community. The appropriate teaching load for each faculty member shall be determined annually, through written procedures established by the executive committee of each unit and approved by the relevant dean, prior to the creation of the timetable for the upcoming academic year. (This process shall include time for the unit to respond to any concerns raised by the dean.) No faculty member shall be required to teach more than 24 credits* annually or more than 14 credits in any semester. This load shall be adjusted to promote excellence in teaching, scholarship, and service, with due consideration of professional norms and in pursuance of the university mission.

*As per UW System mandate, the 24-credit teaching load will be effective not before the Fall 2017 semester.

Resolution on actions by UW System and Board of Regents

WHEREAS faculty are responsible for ensuring a quality education for students, serving regional needs and the state of Wisconsin, and contributing to knowledge through research so that a state of average size and wealth can enjoy a university system of worldwide renown at unparalleled cost effectiveness;

WHEREAS fulfilment of these responsibilities has long been guided and enabled by the University’s traditions of the Wisconsin Idea, robust academic freedom and shared governance;

WHEREAS program changes based on non-educational considerations, the erosion of academic due process, the circumventing of faculty governance, and budget cuts jeopardize the quality of students’ education; diminishes access, affordability, and educational resources for our students; limits support for scholarship and associated benefits; and diminishes outreach and services to the citizens of the State of Wisconsin;

WHEREAS UW-Green Bay Chancellor Gary Miller, in two memos addressing the campus community on August 3 and August 17, 2015, affirmed his commitment to upholding robust tenure standards and reaffirmed the decades-long tradition of active shared governance that has made the UW System unique among universities of its stature and fostered a deep sense of loyalty and commitment to its mission;

WHEREAS the UW-Green Bay Faculty Senate previously called upon UW System Chancellors and the Regents to “affirm and practice” the principles regarding academic freedom and shared governance in a resolution unanimously passed by the Faculty Senate on December 9, 2015;

WHEREAS in March 2016 the Board of Regents adopted new UW System policies based on the report from the UW System Tenure Policy Task Force without adopting any of the modifications requested by UW System faculty, thereby controverting the high standards set by the American Association of University Professors and weakening professional standards of academic due process beyond what Act 55 required;

WHEREAS UW System President Ray Cross and Regents by their actions have overseen a weakening of these traditions and engaged in practices that fall short of principles of responsible governance in their stewardship of the University;

WHEREAS the failure of the UW System President and the Board of Regents adequately to protect academic due process and shared governance has damaged the reputation of UW-Green Bay as a great state university that encourages continual and fearless sifting and winnowing by which alone the truth can be found.

It is hereby RESOLVED that the actions of President Ray Cross and the Board of Regents give the UW-Green Bay Faculty Senate no confidence in their commitment to defending the Wisconsin Idea, extending the benefits of the University to every citizen in the state;
It is further RESOLVED that the UW-Green Bay Faculty Senate calls on System President Ray Cross and the Board of Regents to recommit themselves to the Wisconsin Idea by carrying out their responsibilities and working with us to strengthen the quality of our state universities, in particular by working with the state legislature to make a positive case for improved access, affordability, and educational resources for our students; for additional support for scholarship and its associated benefits; for greater resources for outreach and services to citizens of the State; and by truly respecting, advancing, and participating in shared governance at the UW System.
