Top Priorities

NURSING

- Develop all 4 years of a traditional nursing program (BSN) at the UWGB campus starting in fall 2019

- Develop a state-of-the-art clinical skills learning center for use by the nursing program requiring renovation of Wood hall 3rd floor in 2020; Further development of clinical space in Capital Project Request
- Raise funds for nursing program needs (e.g., equipment, supplies)
- Develop new health/human service-related program aligned with needs of industry in the region – seek initial approval from UW System in 2019/20 academic year
- Explore offering an HIMT (health information) certificate

EDUCATION

- Address Needs in the Region for Teacher Preparation (Undergraduate Education)
- Explore partnership with other UW campuses to offer teacher licensing in special education
- Grow enrollment in existing ESL Bilingual program
- Grow enrollment in undergraduate Education program
- Increase enrollment of STEM teacher candidates in the Professional Program in Education
- Establish an emphasis in Education (e.g., urban education, technology) given new WI Administrative Code for teacher preparation
- Increase offerings of physical education courses on campus to foster physical and mental health
