Top Priorities

1. Increase graduate student population to greater than or equal 10% (~1000 students) of total student population by 2022.
2. Develop a graduate program portfolio representative of the diverse strengths and specialties of all four colleges to advance the economic, natural resource, and cultural assets of NE Wisconsin.
 - Develop a suite of professional and traditional graduate programs
 - Adopting both sole-campus and collaborative program offerings
 - Develop a diverse set of non-degree certificate or non-credit graduate level offerings through collaboration with Division of Continuing Education and Community Engagement
 - Develop a suite of curricular delivery formats at the graduate level (e.g. online, hybrid, face-to-face)
 - Increase recruitment of and support of international graduate students
 - Increase marketing engine for graduate programs
 - Explore collaborative programs independent of UW-Extension
3. Strengthen resources for research and statistical support for graduate student scholarship
