Show us your finished projects on social media with the #uucrafts!

Supplies:
- Glue (hot glue, wood glue or Elmer’s glue)
- Twine, ribbon or string
- Small pieces of cardboard
- About 40 puzzle pieces (3 different colors)

Step 1
Start by laying the small pieces of cardboard into your desired shape (heart, circle, etc.)

Step 2
Attach your cardboard pieces together with the puzzle pieces and some glue. Use the puzzle pieces to hide the small gaps in your cardboard pieces.

Step 3
Continue to layer the puzzle pieces, covering the cardboard as much as possible.

Step 4
Attach your twine or ribbon to the back, so you can hang your wreath on display!
