Pumpkin String Art Supplies:

- Wooden Board
- Small Hammer
- Nails (with small nail head)
- Wood Stain (optional, for a more rustic look)
- Brush, Rag/Paper Towel (for applying stain)
- Outline of a Pumpkin (drawn or printed off on paper)
- Orange and Brown String (yarn or embroidery floss)
- Brown String
- Scissors
Step 1: Lightly pound in the nails, using your pumpkin template. Do not pound them in fully. Leave enough nail to tie string around a few times. Keep the nails all the same height.

Step 2: Double tie the string onto one of the nails. Make sure the string is tightly onto the nail.

Step 3: Start looping the string around the nails and outline the shape of either the stem or the pumpkin (whichever one you start with is fine).
Step 4: After outlining the stem or pumpkin, start crossing the string across the outline. When you are done with either the stem or the pumpkin, repeat the steps for the other one 😊😊

The Finished Product 😊😊
