If it weren’t for RCMS, I wouldn’t have found my passion for microbiology and be a step ahead in certain classes in college!

LEXIE KARSKI
2011-12 RCMS Participant
Currently attending UW-Stevens Point

If it weren’t for RCMS I wouldn’t have been as confident going into college, and would have never met any of the lifelong friends I have made. It was an experience I’ll never forget.

KAYCEE COFFMAN
2011-12 RCMS Participant
Currently attending University of Michigan-Dearborn

If it weren’t for RCMS I wouldn’t have known what to do when I started college. I wouldn’t have known what to expect on the ACT, and I wouldn’t have met the awesome people that I call family now.

NAVNEET KAUR
2011-12 RCMS Participant
Currently attending Henry Ford Community College

RCMS not only helped prepare me for college academically, it also helped me develop strong time management skills that were absolutely paramount for succeeding in both college and now medical school. RCMS truly helped me get to where I am today.

HEATHER NENNIG
2005-06 RCMS Participant
2011 Ripon College Graduate
Currently attending University of Wisconsin School of Medicine and Public Health

RCMS was one of the most important factors in successfully preparing me for college. It broadened my horizons in unexpected ways and taught me to believe in myself. RCMS was, without a doubt, one of the most important factors which shaped my life in the last decade.

JENNIFER ROTH
2002-03 RCMS Participant
2010 UW-Stevens Point Graduate

I experienced things I would never have had the opportunity to do at such a young age and with my family’s economic background. RCMS gave me hope that I could indeed attend college, and that I had a bright future ahead of me.

FRIEDA LAMBERG
1993 RCMS Participant
2011 Purdue Graduate
Laboratory Manager,
Valencia College-Lake Nona

The RCMS program is 100% federally funded at $292,705 as part of the federal TRiO programs sponsored by the U.S. Department of Education.

During its 20-plus years of service, RCMS has brought over 600 students to UWGB for summer sessions. Here’s what some past RCMS students have to say about the program....

REGIONAL CENTER FOR MATH AND SCIENCE
University of Wisconsin-Green Bay
2420 Nicolet Drive
Student Services, Room 1721
Green Bay, WI 54311-7001

Are you ready for the most fun-filled and academically challenging two summers of your high school life?

Have you ever dreamed about being a scientist, doctor or engineer?

Then read on to learn more!
As an RCMS student, you will:
— Conduct experiments in campus laboratories working side-by-side with UW-Green Bay faculty.
— Go on field trips to colleges, local businesses, health care facilities and natural areas.
— Participate in academic classes to enhance abilities in writing, reading and study skills in the context of scientific research.
— Take a one-week trip to an outdoor education camp in Northwest Wisconsin.
— Explore a variety of math and science careers.
— Get assistance with ACT/SAT testing and financial aid, scholarship and college applications.
— Get to know yourself and others through personal growth and confidence-building experiences.

Along with these experiences, you can enjoy the excitement of college life, make new friends while living on campus, participate in a variety of on- and off-campus social and cultural events, and take part in many recreational activities.

About the Program
The Regional Center for Math and Science is a joint project of the University of Wisconsin-Green Bay and the U.S. Department of Education. A staff of 23 instructors, faculty members, counselors, residence hall assistants, graduate students and administrative staff work with 76 participants, selected from 20 schools (listed below) located in Michigan, Minnesota and Wisconsin. The Center’s goal is to increase the math and science skills of high school students in order to prepare them for a university program of study in the sciences, mathematics or engineering.

RCMS target schools include:
Wayne Memorial High School, Wayne, MI
Henry High School, Minneapolis, MN
South Minneapolis High School, Minneapolis, MN
Century High School, Rochester, MN
John Marshall High School, Rochester, MN
Ronald Reagan High School, Milwaukee, WI
Rufus King High School, Milwaukee, WI
South Division High School, Milwaukee, WI
DC Everest High School, Schofield, WI
Kaukauna High School, Kaukauna, WI
Lincoln High School, Manitowoc, WI
Little Wolf High School, Manawa, WI
New London High School, New London, WI
South High School, Sheboygan, WI
Sparta High School, Sparta, WI
Stevens Point Area High School, Stevens Point, WI
Tigeron High School, Tigerton, WI
Tomah High School, Tomah, WI
Wausau East High School, Wausau, WI
Wittenberg-Birnamwood High School, Wittenberg, WI

You are eligible if you:
• Are a high school sophomore at one of the 20 target schools
• Have a minimum 2.3 grade point average
• Have an interest in a math, science or engineering career
• Have the maturity and independence to live away from home on a college campus for the summer
• Come from a home where the parents’ income meets the income criteria defined by the U.S. Department of Education OR where neither parent has completed a four-year college degree

The program is free!
You pay NO FEES for the six-week program. In fact, round-trip transportation from your home will be paid by RCMS and you will receive a small weekly stipend to cover miscellaneous expenses.

RCMS is a free six-week residential pre-college program held at the University of Wisconsin-Green Bay during June, July and August. Eligible students will attend the program for a second summer between their junior and senior years in high school. The academic program is designed to enhance understanding of science, mathematics and the nature of scientific research, with an emphasis in the health sciences. Careers that are explored include medicine, nursing, physical therapy and medical research. RCMS offers an invaluable chance to learn firsthand what college life is like and to prepare for success in college. The curriculum is challenging and the rewards are great.

UW-Green Bay does not discriminate in any manner contrary to law or justice on the basis of race, age, color, religion, veteran’s status, national origin, gender or handicap in its education programs and activities — including employment and admissions.
