•**YES.** You will have access to the Kress Events Center, which has all the facilities (including a pool) you could want. If there's interest, we also create a weight room in an empty dorm room so that those students who aren't 16 yet can lift weights (you must be 16 or older to use the weights at the Kress).

**Is there a fitness room/gym that we can go to?**

•During the day, you'll be busy taking classes (and eating meals). After dinner on Mondays & Tuesdays, you'll have about 4 hours of free time that you can use to study, work out, or participate in activities the RAs will plan. On Thursdays, because of field trips, you might get a bit less free time in the evening, but on Fridays you'll get about 2 hours. The weekends are generally packed morning to evening with field trips, so you may get an hour here or there.

**How much free time will we have during the day?**

•**YES!** There is actually a sound-proof practice room in the dorm that also has a keyboard. If there's high demand for the room, we'll make a schedule so everyone gets a chance. We encourage you to bring any instrument you have!

**If I brought my guitar, could I practice?**

•You get to choose your elective classes and your Graduate Mentor class. We send out a list of classes with their descriptions before everyone arrives so that you can make your top 3 choices--then we place you into (hopefully) your top choices. The elective and Graduate Mentor classes vary greatly from year to year, but we always offer math, 2 biological sciences, academic skills, and college readiness as our core classes. You will also have a study hall during the day.

**Do we get to choose the classes we take? What types of classes are available? Will we know the class descriptions ahead of time?**

•**In a nutshell,** we collect your phones every night before you go to bed. They're stored in the dorm office in a bag/cubby with your name on it, and we can charge them for overnight if you need us to. The office is always locked or has an RA/staff person in it. You'll get your phones back the following day after dinner. If we're going on a field trip, you'll be allowed to have your phone during the trip.

**What exactly is the cell phone policy?**

•**It all depends on where you live.** If you’re close to Green Bay, we might send a minivan and a couple of RAs. If you live farther away, we'll send a bus and make multiple stops along the way to pick up other students. RAs always accompany vans/buses, and we always pick you up at your high school. Information on timing will come to you well in advance of Sunday, June 29th.

**If I need to use RCMS-provided transportation to get me to UW-Green Bay, how does that work? Will I take a bus? Where will I be picked up?**
• NO. To give our participants the true college experience, we choose your roommates for you. We pair a second-year student with a first-year student whenever possible, so that new students have a resource that knows where to go, what to expect, etc. We don’t place people from the same school in rooms together, but other than that it’s completely random!

Can I choose my roommate?

• No for some, yes for others. It all depends on the class and the teacher, but most do not require previous language experience. Check the class descriptions for more details!

Is the Conversational (Italian, Spanish, French, Hmong) class only for people who already know a bit of the language?

• There are lots of churches in the area, and we try to take students to a different church every Sunday our schedule allows. This year, we can take students on 3 of the 6 Sundays. Jayne will be taking a survey to gauge interest and denominational preference, and she’ll plan from there. If there’s enough interest, a small group could also meet in the evenings for prayers/Bible study, etc.

Is there a church nearby? How can I attend mass/service on Sundays?

• FUN and BUSY! Friday evenings, we go off campus for dinner before heading to Walmart so you can pick up necessary supplies (toiletries, snacks, clothes). Saturdays and Sundays are packed from morning to bedtime with multiple destination field trips. We may go as far as Milwaukee or stay as close as Appleton (45 minutes away), but we’ll be on the move all day!

What are the weekends like?

• YES, of course! The dorm has several of each in the laundry room on the first floor. You’ll use your ID card to pay for laundry (we put some money on it to get you started, but after that it’s your responsibility to add money to it each week). We try to build in laundry time each week/weekend, but you can do it whenever you like. You label your washer and dryer so your clothes don’t get mixed up with anyone else’s.

Are there washers and dryers available so I can do my laundry?

• If you write a letter, put it in an envelope, and put a stamp on it, we mail it for you from our main office. Your family and friends can send you packages and letters as well! We’ll send you the address in upcoming mailings.

Is there a post office I can use? Can my family send me things?
In a nutshell, no. We give you several hours of computer lab time almost every day, so you won't lack for access to the internet. We MAY allow certain students to bring their own laptops if they're taking online classes through their high school and there's special software that's required for them to participate in those classes. We would probably restrict your use of your laptop to the evenings, and you'd have to turn it in before bed, etc. We much prefer that you bring any important documents with you via jump drive (or store them in Google Drive/in your e-mail).

Can I bring my laptop?

Yes. You will need to bring sheets, blankets, and pillows. You can rent bedding (including a pillow) from the university for the 6 weeks if you don't have (or don't want to bring) your own. The mattresses are XL twin, so regular twin sheets won't fit—but you can easily wrap a double bed sheet around a couple of times. :)

Do I need to bring my own bedding?

Yes. There will be two times that we'll ask you to dress nicely: for the Shakespeare play and for our end-of-summer banquet. We'll be doing "stuff" during the day before the play, and won't have an opportunity to go back to the dorms to change, so we're not asking you to dress WAY up...just a nice pair of shorts and a nice top, or a comfortable skirt/pants. Guys, nice jeans and a polo/nicer shirt. For the banquet, we like everyone to dress UP: dresses/skirts/dress pants; guys—no t-shirts, no jeans!

Are there events for which I need to wear special clothes?

Yes. Work it out with your roommate (once you know who they are) so that you have at least one box or rotating fan in your room, as the dorms are not air conditioned. We have a limited number of fans that we can let you use for the summer, but it's first come, first serve.

Should I bring a fan?

YES! We have access to the Kress Center pool every day it's open and for which our schedule allows. Also, while we're at Hunt Hill, you'll be able to swim every day! Even if swimming isn't your thing, you need to bring one so that you can take the swim "test" at Hunt Hill (treading water, swimming back and forth a bit).

Should I bring my swimsuit?
